ACCEPT THE PROPOSITION

Temporary Garbage Contract for Four Months Assured.

ANNULING THE OLD CONTRACT

Commissioners Naming the Streets in First Section of Highway Extension Plan—Sketch Plan of Second Section Ready for Inspection Officers—Anderson and Branson Acquired.

The District Commissioners decided yesterday to accept the proposition submitted by Edward Warfield for the annulling of the present garbage contract and the execution of a temporary one to cover a period of four months, beginning with the first day of July.

The reasons which actuated the board in extending the period by one month were two-fold—first, it was conceded that no contractor would want to supply an equipment to cover a daily service for a single month, as would be necessary should the temporary contract expire on September 30; and, second, it was not thought to be quite just to require the expenditure necessary for the increased equipment under a temporary arrangement only for so brief a period as three months.

The Commissioners have taken up the matter of naming the streets of the first extended section, and yesterday it was ordered that the principal meridian streets of the first section of the highway extension plans be numbered, respectively, as the corresponding, or nearly corresponding, meridian streets of Washington, and that intermediate meridian streets be designated by the number of the parallel street next east, with the addition of one-half, as, for example, Four-and-one-half.

NAMING THE NEW STREETS. The Commissioners have taken up the matter of naming the streets of the first extended section, and yesterday it was ordered that the principal meridian streets of the first section of the highway extension plans be numbered, respectively, as the corresponding, or nearly corresponding, meridian streets of Washington, and that intermediate meridian streets be designated by the number of the parallel street next east, with the addition of one-half, as, for example, Four-and-one-half.
