

Music in Every Home.

From time immemorial music has always gone hand in hand with human existence. People who do not love music in some form or other are hard to find. It possesses a charm and a subtle influence for good which is peculiar to itself.

In this age of progress there is no excuse for not having a musical instrument of some kind; PIANOS cost half as much as formerly; ORGANS are sold at a minimum of profit; MUSIC BOXES have been brought to such a state of perfection that where formerly their repertoire was limited to a few set pieces, today thousands of airs can be played on one instrument.

While All the World Loves Music,

all are not musicians, and frequently musical instruments are possessed by people who make no use of them through their lack of executive ability; for such the "Self Players" were invented. HAVE YOU A MUSICAL INSTRUMENT? IF NOT WOULD YOU LIKE TO POSSESS ONE? IT IS NOT NECESSARY TO PAY ALL CASH—A SMALL CASH PAYMENT AND SO MUCH MONTHLY WILL PLACE ANY MUSICAL INSTRUMENT YOU MAY WANT AT YOUR DISPOSAL.

Join One of Our Clubs.

A Rare Opportunity for Securing the Most Acceptable Christmas Presents.

The formation of these "Musical Clubs" is an innovation in Washington. In the larger cities such enterprises have met with tremendous success. Contrary to the advice of our business friends, we have decided to try it, feeling positive that IT CAN BE MADE AN UNQUALIFIED SUCCESS HERE. Our buyers have just finished their selection of a magnificent stock of

Regina Music Boxes, Washburn Guitars,
S. S. Stewart Banjos, (The Original.)
Washburn Mandolins, Autoharps.

We invite your careful inspection of these beautiful 1902 models. Every style is carried and our large assortment affords you ample choice to secure an exceptionally fine instrument.

JOIN THE CLUB NOW.

\$1.00 AND A SMALL CASH AMOUNT MONTHLY

will place any of the foregoing instruments in your home. If you are interested cut out and mail us this coupon and we will forward further information.

Droop's Music House,

Steinway and Other Leading Pianos. 925 Pennsylvania Avenue.

OF INTEREST TO LOCAL ATHLETES.

RECORDS OF 1901 ARE ACCEPTED.

Insurance Recognized by A. A. U. Y. M. C. A. League Teams. Eastern A. C. Again in the Field.

The Middle Atlantic Association, otherwise known as the "insurgents" (composed mainly of athletic clubs in Baltimore), which for nearly three years has been fighting for recognition at the hands of the Amateur Athletic Union, gained its point at last week's annual meeting of the union. The clubs involved petitioned that they be not only allowed membership in the union, but that their organization be allowed representation on the national board. All this was granted and henceforth there should be smooth sailing in athletics in this very active division of the national body.

The athletic clubs interested in this matter represent Delaware, Maryland, Virginia, District of Columbia, North and South Carolina, and their organization will henceforth be known as the Middle Atlantic Division Amateur Athletic Union, and not any longer the Atlantic Association, as was the case before the clubs in Baltimore and vicinity seceded three years ago. The latter organization name was maintained by the clubs which did not secede, but it was by no means active in athletics.

New Handicapper Will Be Elected. The "insurgents" had twelve clubs, which included the Woodside Athletic Club of this city, one of the most active here, being composed of college men, and the organization with which it affiliated has in three years held ten sets of games with 60 active competitors, who performed before an attendance of nearly 25,000 spectators.

The new order of things brings the Woodside in line locally with the Y. M. C. A., Carroll's, and the National Guard Athletic Association, who retained their membership in the old Atlantic Division. As a result of this, the local athletics should take on considerable of a boom, and among the first things brought about by the new organization, will be the holding here, later in the season, of an Amateur Athletic Union handicap indoor meet.

Another great gain made by the petitioners, was the making of the rule that henceforth the handicapper of the association will be elected by the delegates instead of being appointed by the chairman of the union.

The officers elected for the ensuing year are: President, E. B. Babb; Vice President, W. H. Lighter; Dr. B. M. Hopkins; Secretary and Treasurer, James E. Sullivan; Delegates at Large, A. G. Mills, Julius F. Harder, C. C. Hughes, G. T. Kirby, and Joseph B. Macabee.

New Outdoor Records Accepted. The new records made during the season of 1901 accepted at the meeting, and which now stand as the official marks represent a number of remarkable performances prominent among which are those of John Flanagan in the weight and shot events, and Ray C. Ewry, in the standing high and three standing jumps. Our own Arthur F. Duffy, of Georgetown University, stands among the record-holders, having earned a new mark in the 40-yard

sprint, and retains the old one of 3 4-5 seconds in the 100-yard, made in October, 1899 by Owens, and since duplicated by Wefers. Following are some of the records accepted: Throwing 16-pound hammer, 171 feet, 6 inches, John Flanagan, at Celtic Park, Long Island, September 3, 1901. Throwing discus, 120 feet, 7 1/2 inches, M. J. Sheridan, at Paterson, N. J., September 14, 1901. Throwing 56-pound weight, 26 feet, 9 1/2 inches, John Flanagan, at Long Island City, October 29, 1901. 45-yards hurdle, four hurdles, 2 feet, 6 inches high, 5 4-5 seconds, F. B. Schuster, at Boston, March 15, 1901. 440 yards, ten hurdles, 2 feet, 6 inches high, 2:11-5 seconds, H. Arnold, at Buffalo, September 7, 1901. 49 yards, 4 3-5 seconds, Arthur F. Duffy, at Boston, February 18, 1901. 60 yards, Washington Delgado, at New York City, February 4, 1901. 100 yards, 9 4-5 seconds, Arthur F. Duffy, at Louisville, October 5, 1901. 110 yards, H. 2-5 seconds, W. D. Eaton, at Buffalo, September 7, 1901. Standing high jump, 5 feet 3 1/4 inches, Ray C. Ewry, at Buffalo, September 7, 1901. Three standing jumps, 25 feet 5 1/4 inches.

THE CURE OF CONSUMPTION AND ASTHMA BY THE KOCH INHALATION.

The Two Drs. Koch

And Their Great German Discoveries and Inventions.

Several years ago Dr. Robert Koch perfected his tuberculin medicine for the cure of Consumption. It was the first remedy that ever did cure this fatal disease, although by injection it succeeded only to a limited extent. Two years later the wonderful Inhalation Machine for the vaporizing of healing oils, combined with this Koch Tuberculin, was invented and imported into this country by Dr. Edward Koch. By the use of this invention-oily vapors, combined with the tuberculin medicine, into the stomach kills more people than the disease itself. Dr. Koch attends this office, 827 E Street northwest, Washington, D. C., regularly. Consultation is free.

Ray C. Ewry, at Buffalo, September 6, 1901. Rope climbing, 25 feet, 2-2-5 seconds, E. Kunath, at New York City, September 1, 1901.

A. A. U. Championship Basketball.

One of the principal athletic features for teams at the Sportsman's Show to be held in the National Export Exposition Building, Philadelphia, and which begins next Wednesday, will be the series of games for the Atlantic Division. A. A. U. Basketball championship, to be contested December 2, 3, 4, 5, 6, and 7. Entries closed tomorrow, with John W. Kelly, Jr., Director of Athletics, postoffice box 418, Philadelphia.

Athletics at Y. M. C. A.

The five teams of four men each, which will compete for the all-around athletic indoor championship of the Young Men's Christian Association are now in good working shape and under their respective captains and all under the watchful direction of Assistant Physical Instructor C. E. Beckett, are taking lots of practice and the season's work promises to eclipse last year's splendid showing. The respective teams are made up as follows: Neale, captain; Bateman, Hughes, and Nolan. Richardson, captain; Pitehly; Kerr, and Cheselidine. Gleason, captain; Decker, James, and Spradling. Fenwick, captain; Sommers, Nichols, and Reamer. McIntyre, captain; White, Ludwig, and Hoffman. The opening set of team contests scheduled for last Friday night was postponed until next Friday night, on account of a lecture held in the gymnasium. Friends of the members and all admirers of good athletic are invited to attend. The success of last year's Association League of basketball teams has induced the management to organize a similar one for this season. The teams play for the championship of the association and the schedule covers a period of several months and gives all members who desire to play the game an opportunity to also create an interest in the gym and develops the material from which the big league team draws its make-up. The teams and their colors are as follows: Orange—Mueller, captain; J. M. McQueen, Hoffman, Woodhead, Adt, and Tanner. Maroons—James, captain; Hughes, Ludwig, Dorsey, and Nichols. Greys—Bateman, captain; Sommers, Richardson, Emmert, and Burnside. Blacks—Richey, captain; McQueen; McIntyre, Roberts, Dean, and Jobe. Reds—Merzer, captain; Decker, Tansil, Cheselidine, and Smith. Whites—Pimper, captain; Dallas, Pitehly, Murray, and Hopp. The big league team won handily from the Sixth Battalion last Monday, and next Saturday night will have as its guests for a game the Carroll institute. The latter team defeated the Coronant in good shape and the forthcoming game should be a good one.

Carroll Institute Gymnasium. The basketball team representing Carroll Institute, ran into a snag last week when it lined up with the Coronant for the second game in the league series. The latter soldiers walked away with the game—5 to 9. The members are by no means discouraged, but will get together and through hard practice get

Special Announcement. Samuel Friedlander & Co., 416-Seventh Street-416. Six Departments To Be Closed Out Absolutely.

Our new manager, Mr. Louis Dabrin, has determined to close out every article contained in six of our present departments. This decision will throw a flood of magnificent Holiday bargains in your path, and at the most opportune time imaginable. THE UNDER-PRICE STORE. Samuel Friedlander & Co. CREDIT IF DESIRED.

themselves in shape to take a fall out of the Y. M. C. A. December 3. The baseball team is making good, having captured the two games scheduled for Friday in the Institute gymnasium. The bowling team is keeping up its end, having won a majority of the games played, and winning two games from the Pat Men's Club and the Golden Eagles. Harlow, whose bowling last season helped materially in the team's showing, has not bowled this season, and his good work is missed. The team as it now stands is: Brogan, Gorman, Rice, Smith and Livingston. Veteran Rice is keeping up the good work with which he began several years ago and is as good as ever. In the last games with the Eagles he had an average of 185, and with his 201 game led the evening for high score. The members of the gymnasium entered for the Institute athletic championships next Saturday are taking hard practice and promise to present high-class work on the floor and on the apparatus. **Corcoran Cadet Corps.** The Corcoran Cadet Basketball Team is putting up a great game in practice, and in competition. It defeated the Carrolls last week, 25 to 9. It will play the Y. M. C. A. next Saturday night in the latter's gymnasium. The team now plays: Mastin and Zell, forwards; Boyle, centre; Moriarty and Waters, backs. If the team expects to win the pennant it should play a steady team game, and especially train for wind, long and hard scrimmages seem to be "wind" the players in their opening game, and Captain Moriarty should see that his men get all the proper training. Captain Edwards, manager of the team, is arranging to enter his men at the Sportsman's Show at Philadelphia, in the Atlantic Association basketball championships December 2 to 7, and he hopes to get transportation rates which will attract the "rooters" to accompany the team. The baseball team was no match for the Arlingtons in the game played last Wednesday, as the score 21 to 8 indicates. The holding of the team was fairly good, but it was weak at bat and in the box. The team is scheduled to play the Carrolls next Friday night in the gymnasium of the latter. The players are: Shoemaker, Moriarty, Zell, Handilow, Bouver, Walters, Boyle or Iglehart, Chick, and Sheehy. **Eastern Athletic Club.** The Eastern Athletic Club has again put a basketball team in the field and will play this season as a member of the old Basketball League, which for five years

has furnished the game to local admirers of the sport. The Easterns will have their old-time rivals, the Light Infantry team, to play against, and will be somewhat at a disadvantage, as the latter last summer adopted and played a series of out-of-town games under the national rules, and the Easterns, however, do not regard this an obstacle in their road to success. The Government Printing Office, Bureau of Engraving and Printing, and Alexandria Light Infantry are the remaining members of the league. The team will play under the able management of George Boyd, and as there will be but few changes in the lineup of the old team, it should make a strong bid for the championship. Manager Boyd says he has some new men whom he will spring on the other teams. He claims they are all star performers and veterans in the game. Thompson and Hughes, two of the best forwards here, will play, and Moriarty, a very clever centre, will be seen in his old place, working for success, while Evans, who is a fast in all plays, and Fred Rice, who is a "corner" as a goal-tender, will be given a good trying out. The team will practice Mondays and Thursdays through the season. Manager Ed Rice, of the indoor baseball nine, who has been ill during the past few weeks, will soon be out again, and will then look after the work of his team, which he promises will be a strong one.

so "bureau" came to mean a place of information or department of state. You know we use our bureaus for keeping clothes. What do you think of that for a series of adventures? The word "bank" has an interesting life. Once it was "banco," a bench. You wonder where is the connection? Well, in Italy the Lombard Jews used benches in the market place to do their banking. As times grew prosperous they had to move to larger quarters. In Venice, 1550, was the first public bank started. Then, you can think of other words from it. The river bank, the bank of keys of the organ, or a bank of clouds—Springfield Republican. **KICK NOT APPRECIATED.** Drummer Gets Seat Comfort From the Landlord. Twenty years or so ago the now fashionable resort of Bar Harbor boasted of but one hotel, which, according to a former Baltimorean, who now resides in Maine, was not much to boast of. It seems that a New York traveling salesman had occasion to visit Bar Harbor to sell goods, and naturally was obliged to make his headquarters at the solitary hotel. The day after his arrival he came down stairs in anything but a pleasant frame of mind, and as drummers do occasionally, he proceeded to criticize the house in rather severe terms, something like this: "What! \$2.50 a day for a little room under the roof. And your bolsters and pillows are stuffed with straw and the mattress is full of corncobs. Besides, I haven't had anything to eat here except fish and potatoes, and no much of that." When he completed his tirade a grey-bearded, long-faced, solemn-looking old chap, who had been listening to the scolding which was spoken to the clerk, arose in the background and, looking over the top of his spectacles, addressed the indignant traveling salesman in a voice that seemed to come from the depth of a bass viol. "Look here, my friend," said he. "Did anybody ask you to come here?" "No," was the reply. "Did anybody ask you to stay hereafter you came?" and the down-East twang came stronger than ever in the old fellow's tones. "No, I don't know that they did," answered the guest. "Well, they want," and with that characteristic Yankee expression of the "won't," uttered with much emphasis, the venerable proprietor resumed his seat and the reading of his paper, as if nothing in particular had happened—Baltimore Sun.

German Guns for England. The Press Association states that German guns are being brought into this country from the balance of the large contracts placed on the Continent at the time when British manufacturers were unable to turn out sufficient guns to meet the demands of the war. Even now the big factories in this country are working at high pressure in order to fulfill their engagements with the Government for the supply of the ordnance required for rearming the coast defence batteries and the volunteer artillery. No guns for the protection of the coast are being brought from the Continent.
