

MR. RAWLINS' SPEECH RECEIVED IN SILENCE

No Republican Interruptions During Discussion of Philippines Bill.

A VERY FORCEFUL PHILIPPIC

Arraigns Administration for Its Conduct of Insular Warfare—Declares Opening of Hostilities Was Forced on the Native—Discusses the "Water Cure."

Senator Rawlins of Utah continued his speech against the Philippine government bill in the Senate yesterday afternoon. He spoke for more than two hours, but did not conclude, and will go on today if the executive session on the Crozier nomination is concluded in time.

Republicans Maintain Silence.

The Republicans continued to maintain their silence during the entire day. There was hardly a word of interruption or retort during Senator Rawlins' speech.

Mr. Rawlins devoted yesterday's session of his speech largely to a discussion of the "water cure" testimony before the Philippines Committee. He bitterly arraigned the conditions in the archipelago as exhibited, he said, by this testimony and by the manifestly dishonest and evasive efforts of high army officers to discredit it.

Mr. Rawlins attracted the attention of the galleries early in his remarks by charging that the telegram telling of the opening of hostilities in the Philippines was written two hours before the event, although the army officers have repeatedly said that the Filipinos were themselves to blame in beginning the fight.

An Ineffectual Fire.

He followed up this statement by the assertion that not a man was killed on the American side during the first night of the battle, though there was a tremendous cannonading and musket fire on the American side, which slaughtered and swept the Filipinos from the face of the earth.

In commenting on the "water cure" and the severity of some of the more recent campaigns, he said that at first the war was carried on against men, but that afterward it was directed against women and children who were driven from their homes and whose villages were burned down.

DAZZLED MERCHANTS.

Imaginary Millionaire Set Vineland in a Flutter.

VINELAND, N. J., April 23.—During the past few days Vineland tradesmen have been doing a rushing business with a young stranger, who said he was "Prof." Ralph Chester, a teacher of music, and that he was about to be married, and wanted to furnish a home for the "most beautiful girl in all the world." He ordered merchandise and jewelry by the thousand dollars' worth and kept clerks on the jump at a number of stores. He intended, too, to give a great concert, at which the people would be treated to free beer. He was a millionaire, he was, and he did not stop at any price when he gave his orders.

THE DEATH OF DOODICA.

Pathetic Scene by the Beside of the Hindoo Twins.

In the "Record" of Tuesday, February 25, appeared an illustrated article describing the manner in which the Hindoo twin sisters were murdered, and how they were buried by the celebrated Dr. Doodica, of Paris. This was the first detailed description of the operation to appear in our American newspapers, and though it was dated at the time that one of the two little creatures had died, the pathetic details of her death had not yet reached this country. It appears, however, that she has been actually performed the operation to save the life of Doodica, in reality using the knife to save the life of Radica.

Windstorm in Illinois.

ROCKFORD, Ill., April 23.—A terrific windstorm struck this city yesterday afternoon, unroofing several houses and doing great damage to trees and shrubbery. The storm was accompanied by blinding clouds of dust, and for nearly five minutes there was almost total darkness. At Granite City the wind nearly destroyed the tent in which the Republican convention was being held. The damage in this city is estimated at \$10,000.

A BURNING BLACKSMITH.

Charged Food and Put Out the Fire.

Even sturdy blacksmiths sometimes discover that, notwithstanding their daily exercise and resulting good health, if their food is not well selected, trouble will follow, but in some cases a change of food to the right sort will quickly relieve the sufferer, for generally such active men have fine constitutions and can, with a little change of diet, easily rid themselves of the disease.

BROTHER DICKEY ON WEATHER.

Everything Awry Since the Government Took to Running It.

You see, hit's disaway: De Lawd, he made de weather, en he 'low, he did, dat he 'lowed de weather feller ter run it; en dea so 'long ez he give directions ter it, it rained, en shined, en snowed all night. You knowed des w'en ter take yo' umbrella, w'en ter take yo' rubber feller ter steen, en w'en ter leave it at home in safety; w'en dey wuz too much rain you prayed for dry, en all wuz ez dry ez you thinks a prohibition town is; en craps wuz slatted in season; en even de mammy of yo' wife took sick kaze she didn't have nuttin' but one sic' son-in-law ter growl at."
