

FAVORABLE REPORT ON PNEUMATIC TUBES

Service Recommended by Committee for Use in This City.

CAPITOL AND POSTOFFICE

To Start With Connecting Senate and House Chambers With Main Office and Extend Service Throughout the City Later.

The committee, consisting of Messrs. J. M. Masten, V. J. Bradley, J. H. Crew, and Postmaster Merritt, which was appointed by the Postmaster General to investigate the establishment of a system of pneumatic tubes for mail purposes in this city, has finished its work and submitted its report to the Postmaster General. The report is in part as follows:

"Under the terms of the new law, which permits of the establishing of pneumatic-tube service in any city at an expense not in excess of 4 per cent of its gross postal revenue, it is obviously appropriate to consider now the feasibility of providing some pneumatic-tube service in the National Capital.

Local Postal Revenues.

The gross postal revenue of the Washington Postoffice for recent fiscal years has been as follows: Fiscal year ending June 30, 1898, \$74,694; fiscal year ending June 30, 1900, \$68,767; fiscal year ending June 30, 1901, \$73,772; fiscal year ending June 30, 1902 (partly estimated), \$81,000.

"It is estimated by the local postal officials that at least 50 per cent should be added to these figures in order to obtain proper credit for the free mail matter handled.

"However, in dealing with the situation in Washington under the new law, we can only reach a proper conclusion on the basis of 4 per cent of the known revenue, and if we take the figures for the fiscal year 1901, \$73,772, we find that 4 per cent would be \$29,509, and that the service to be advertised for at present would necessarily have to be operated within this amount as an annual expenditure.

"The principal postal stations of the Washington postoffice on the basis of gross revenue are stations G, C, and B, and the postal receipts at these stations for the past fiscal year ending June 30, 1901, were: Station G, \$131,380; station C, \$123,287; station B, \$23,721.

"The revenue obtained at these stations would at first glance indicate the desirability of their being connected with the general postoffice by pneumatic tube service. But when we analyze the situation we find that station G is practically located on the general postoffice district; that station B is not a delivery station, and that station C is a considerable distance from the general postoffice and should only be reached incidentally, and is not of sufficient importance to justify an independent line from the general postoffice.

As to Railway Depots.

"The connection of the general postoffice with the railway depots has also been considered, but we must recognize the fact that there is to be a great change within a short time, the present depots of the Pennsylvania and Baltimore and Ohio roads being soon to be discontinued and replaced by a union depot in an entirely new location. This feature of pneumatic tube service must therefore be relegated to the future for arrangement. It seems to your committee that it will be of great importance in the near future for the several departments of the executive branch of the Government to be connected by pneumatic tube service, but it would be unprofitable at this time for this committee to offer any comprehensive plan, in view of the fact that the new law limits the expenditure for pneumatic tube service in the city of Washington to about \$30,000 per annum. This amount, at a maximum rate of \$17,000 per mile, would only permit of the construction and operation of a little over one and one-half miles of tube service.

From Postoffice to Capitol.

"Assuming that your committee at the present time can only plan the allotment of about one and one-half miles of this service, we believe that the most important installation would be between the Washington general postoffice and the Capitol building. The distance is roughly estimated as one and one-third miles. On this assumption the line should be built from the general postoffice through Eleventh Street to the Mall, and through that reservation to the Botanic Gardens to First Street, thence to the north driveway of the Capitol grounds and along that driveway to a duct constructed some time since for the entrance of a proposed pneumatic tube connecting the Capitol and the Government Printing Office. This duct is said to be eighteen inches by twenty-four inches, and extends from the Capitol building to the junction of North Capitol and B Streets. We were informed by the architect of the Capitol building that there would be no physical difficulty in the way of running the pneumatic tubes through this duct, or of reaching easily any portion of the Capitol. It is our opinion that a separate pneumatic tube station should be provided on both the Senate and House side of the Capitol.

"If it should prove that an extension of the tube service beyond the Capitol could be included in the limit of expense imposed by the new law, it would seem desirable to effect a junction with Postal Station B. The local investigation made by our committee convinces us that a tube service between the Capitol and the Government Printing Office would be a very great convenience. But perhaps it would be more appropriate

for such a connection to be considered in relation to a general plan for connecting the several departments of the National Government at Washington. As already pointed out, any such general plan would necessitate an expense beyond what is now permitted by law, and would require special legislation to authorize it.

The Committee's Recommendations.

"We therefore recommend that an advertisement be issued at once for the term of three years and in accordance with the terms of the law, for duplicate lines of tubes not less than eight inches in diameter for the city of Washington, as follows:

"1. From the General Postoffice via the Senate Postoffice to the House of Representatives Postoffice.

"2. From the General Postoffice via the Senate Postoffice to the House of Representatives Postoffice and to Station B, Fourth and East Capitol Streets.

"It is hereby recommended that the Postmaster General be requested to take steps to secure during the present session of Congress the necessary legislation to permit of the laying of these tubes in the District, and also for entering the Capitol as above proposed. Particular attention is called to the fact that the general deficiency bill, which it is understood will be presented to the Committee on Appropriations in the House of Representatives during the present month."

GOING TO DETROIT.

Mr. George S. Wilson, Secretary of Charities Board, Leaves Today.

Mr. George S. Wilson, secretary to the Board of Charities, will leave the city this evening for Detroit to attend the annual meeting of the National Conference of Charities and Correction. This year, Timothy Nicholson, of the State board of charities of Indiana, is president. The sessions of the meeting will be from May 28 to June 3. Mr. Wilson is a member of the committee on hospitals, dispensing, and nursing.

NATION'S CAPITAL TO HONOR THE NATION'S SLEEPING HEROES
