Trade Conditions Bright.

With hardly an exception the general trade conditions and prospects are excentionally bright. Southern Pacific was again the leader in activity, plthough the transactions in it were only one-third as large as yesterday The stock was not affected by the an-nouncement of the impending new is-sue of bonds, and it scored a trifling net decline. In only one other of the usually prominent railway shares—Louis-ville and Nashville—did the dealings approximate 10,000 shares.

Rumors of probable competitive buy-ing of Toledo, St. Louis, and Western stocks were attended by exceptional activity in the stocks. The preferred recorded an extreme advance of 3 per cent, about half of which was retained. The common rose 25 per cent, but closed unchanged.

BALTIMORE PRICE CURRENT.

BALTIMORE, Aug. 16 .- Following are the quotations in today's local wholesale provision and grain markets:

Wheat-Stock in elevators, 939,692 bus. Market for Southern today was easier. Sales on grade of No. 2 red at 73c, steamer No. 2 red at 71c, and re-

easier, 14c off in United Kingdom, and dull on Continent, while speculative on this side were easier. Cash and August were not in particular request, the for-The Week's Figures Satisfactory Despite Fuel Difficulties.

Statistics of pig iron production on August 1 are entirely satisfactory. Some experts feared that in view of the great scarcity of fuel there might be a bad falling off, but this has not proven to be the case. A weekly capacity of 338.

465 tons is 15.539 tons less than the high record of May 1, but compares favorably with all earlier dates and shows an increase of 32.618 tons over the output a year ago.

These figures by no means suggest a serious setback in the industry, but rather emphasize the abnormal condition of demand which finds such a heavy yield entirely inadequate. Southern furnaces have contracted so far in advance that they have practically withdrawn from the market, and all dates for deliveries are remote except where foreign arrivals are refered.

structures are planned.

Coke production in the Connelisville region exceeds 250,000 tons weekly, and outside ovens are also surpassing all records of activity. Yet shipments are unsatisfactory, causing frequent delays.

Syring Patent, \$3.75@4.00; City Mills High-Grade Patent, \$4.50; City Mills High-Grade, Straight, \$4.00; City Mills Choice tunsatisfactory, causing frequent delays.

High rates for money would prove a wholesome restraint upon many of the questionable schemes which are now being floated, and which bankers owe it to their trust to seriously discourage by every legitimate means at their command.

"The actual results of a good harvest are difficult to accurately measure just now. Our crops will not be entirely free from danger by frost for another three or four weeks; and this being an exceptionally cool season such contingency is the more imminent. Some diminution of the splendid indications of the last Government crop report, for meaning to the more diminution of the splendid indications of the last Government crop report, the come.
