

LOCAL AND GENERAL MARKET REPORTS

Most of the Day's Transactions for Professional Account. MONEY RATES AGAIN UP

General Declines, Extending to 1-3 Per Cent, Scored in Usually Active Railway Shares—Reaction Toward Close Fails to Bring About a Rise.

NEW YORK, Sept. 15.—The stock market today, with the exception of scattered liquidation by the clients of commission houses due to high money rates, was mainly professional.

Foreign Exchange Weaker. As a result of the advance in money the foreign exchange market developed further weakness, and this fact led to expectations of early gold importations.

The monetary situation naturally dominated interest, and caused other influences to be virtually ignored. London did comparatively little in this market in the morning, attention at the center being mainly directed, as here, to the local monetary situation and prospects.

The total transactions were a little short of 640,000 shares, and were well distributed. Transactions in Atchison common, Union Pacific common, and Missouri Pacific common, were particularly active.

Norfolk and Western scored a slight net gain, and this was true of Southern Railway. Union Pacific, which was second in point of activity in the whole railway list, also finished a slight trader above Saturday's final figure.

On light transactions, Brooklyn Rapid Transit left unchanged, while declines averaging about a point occurred in Atchison preferred, New York Central, Illinois Central, and Western Union telegraph.

The industrial list made a comparatively good resistance to the reactionary tendency in railway issues. Sugar Refining was more active than in some time past, and enjoyed an extreme gain of 2 1/2 per cent, about half of which was retained at the close.
