## EASY FOR COLUMBIA.

NEW BRUNSWICK, N. J., Oct. 4.—In thirty-five minutes of actual play Columbia ran up 43 points against Rutgers today in her opening football game of the season. Touchdowns followed one another in rapid succession, and were it not for a wet ball and slippery field the score would have been larger. Time and again Weekes and Smith circled the Rutgers' ends, aided by a tackle back interference, which netted from twenty to forty yards each time, and in one instance Weekes ran seventy-five yards for a touchdown.

## ROBBERY NEAR ALEXANDRIA

### Home Looted While Frightened Woman Looks On.

ALEXANDRIA, Va., Oct. 4.—A bold and daring robbery was committed at the residence of Mr. Abe Studds, on Seminary Hill, west of this city, about 3 o'clock yesterday afternoon in the presence of Mr. Studds' daughter, who was alone in the house at the time. The man, after securing what he desired, made good his escape.

Miss Studds had occasion to enter a room and there found a strange white man. She was frightened and told the man he could take anything in the house if he would not molest her. A few minutes afterward she made an outcry and the robber ran away. She followed him a short distance and demanded to know what he wanted. He told her he had taken nothing and that his partner was in the house. This was a ruse to get rid of her. The young lady, upon reaching the house, ascertained that no one was there. Miss Studds notified a number of high school students and they chased the robber but were unable to overtake him.

A search of the premises revealed the fact that there were stolen a pair of trousers, four rings, a silver watch and chain, a pair of gold-rimmed eyeglasses and 50 cents in money.

The Alexandria Light Infantry, Company G, Seventeenth Virginia Regiment, was inspected tonight in Army Hall, on South Royal Street, by Col. Joe Lane Stern, assistant inspector general of Virginia Volunteers.

The company made a very creditable appearance, mustering fifty-one men, in command of Capt. James E. King.

The members of the Alexandria Golf Club will hold their third annual meeting in Peabody Hall School Building Monday night at 8 o'clock. This club is one of the most progressive in the city. During the past year its membership has greatly increased, and an attractive clubhouse has been erected on Shuter's Hill. Tennis courts have been erected, and it is probable that during the coming year a bowling alley will be constructed.

The Florence Crittenton Mission has purchased from Capt. Samuel English the large brick dwelling at the northeast corner of Oranoco and St. Asaph Streets, for the sum of \$3,600. It is intended to convert the building into a home for aged people.

The United States training ship Hartford, which is to participate in the naval part of the Grand Army encampment, arrived off here this evening, about 4 o'clock, and was anchored off the King Street dock. The ship was piloted from Piney Point, on the lower Potomac, by Captain Luckett, of Washington.

## Cigars for Royalty.

Making cigars for princes and potentates and crowned heads is a great business in Havana, and incidentally I may remark from what well-posted men have told me, that they turn these royal contracts to good use in more than one way. You see, it is a good advertising feature. It gives the cigar-makers a prestige they cannot get in any other way. King Edward of England has his cigars specially made. By the way, that reminds me of the fact that we frequently find cigars in this country which are labeled with the English coat of arms, just as the cigars are labeled which are made especially for his majesty, the King of England. Of course, they are not the same cigar. It is simply a catch system. All the cigars that are made for crowned heads by Cuban manufacturers are bought by the men they are made for, and scrupulous care is exercised in the matter. The only men who ever get any of these cigars get them on orders from royal personages, or they get them as guests of the royalty. A particular kind of tobacco is used in the manufacture of these cigars. Take the case, for instance, of the Czar of Russia. Cigars that are made for him are branded with the Russian coat of arms, and he buys all the cigars the factory can make out of the material, and in the way specified in his order.—New Orleans Democrat.

## PENNSYLVANIA WEAK IN DEFENSIVE WORK

Offensive Tactics, However, Prove Strong Enough to Win Her the Game Against State College.

PHILADELPHIA, Oct. 4.—Pennsylvania today defeated State College by the score of 17 to 0. The field was muddy and a heavy rain fell during the second half. Pennsylvania won by fine offensive work, but her defensive tactics were not very strong.

In the opening of the second half State had Pennsylvania going. The visitors carried the ball from their own thirty-five-yard line to the Pennsylvania eighty-yard mark, where a fumble gave Pennsylvania possession of the leather. Metzger picking it up as it rolled out of the line of scrimmage.

Richardson's foul interference robbed Gardner of a beautiful end run. He started from midfield and passed all but one man and that one, Richardson, grabbed and threw him to the ground.

Gardner put the ball back of the goal line, but it was brought back to where the foul occurred and given to State College.

## CANNOT STOP THE WORK.

Acting on the advice of the Superintendent of Sewers, the District Commissioners have decided that they cannot intercept the work of laying a sewer in the alley of the square bounded by C, D, Twelfth, and Thirteenth Streets northeast. After the work had been advertised and ordered objections were made by Mr. Charles A. Shields, real estate dealer, and others on the grounds that the cost of the proposed work would be a hardship to the property owners.

Consumptives need not worry about their future any more, as the long-sought-for cure for consumption has at last been found, and a cure is now just as sure as in the simplest disease. To satisfy yourself of this you have only to write the Kalamazoo Tuberculosis Remedy Co., 422 Main St., Kalamazoo, Mich., to which the chairman is Mr. O. K. Buckhout, a noted member of the British Tuberculosis Congress, and also of the International Association for the Prevention of Tuberculosis, composed of world-famous men who have made consumption its cure and prevention a life study.

Don't doubt this, for the very same discovery benefited A. H. Dingley, a son of Congressman Dingley, of Dingley relief bill fame, who went West and South for relief and didn't get it, and came back with death staring him in the face, and was benefited by Antidotum Tuberculose after all else had failed. It cured John Devra, of Kalamazoo, a galloping consumption; Adrian de Die, 1238 S. West Street, of quick consumption; Paul de Smith, of Dalton, Mich., and many cases which wasted away to skeletons.

## SAKS AND COMPANY,

Leaders Since 1867.

# Opening of the Saks Store "In the Heart of New York."

Within the week we have opened our new store in "the heart of New York," Broadway, 33d and 34th Sts.

Praise of the magnificent building—of its perfect appointments, its wonderful stocks, and congratulations and compliments have poured in on every side—from press, people, and competitors. If we but realize one-half the success that has been invoked for us we shall more than attain our most ambitious hopes.

We present the following, in condensed form, to show the opinions formed by the New York daily press of our enterprise:

## The "New York Journal"

Paid us an unprecedented compliment in the history of newspaperdom, devoting its entire leading editorial to our store and the place it fills in New York's retail commercial world.

## The "New York Sun" said:

"The interior of this establishment, both in fixtures and stock, harmonizes with the exterior, and this house from the start takes its place as one of the leading stores of the Metropolis."

## The "New York Herald" said:

"It is unquestionably a most complete mercantile establishment; the tens of thousands of people who visited it expressed their gratification at the display. It is an ornament to our city."

## The "New York World" said:

"In the opening of Saks and Company's new store New York is given a shopping place that surpasses in elegant appointment and intelligent stock-assembly anything of its kind on the continent."

## The "American" said:

"Ingenuity has had free hand in the designing of the building. Everything looking to the practicability of conducting a big business and for the comfort of those who become the customers of the house has been done."

## The "New York Tribune" said:

"If structural art and preparatory skill are fair criterions of Saks and Company's mettle, the new store, mammoth as it is, will soon prove too small to accommodate the patronage New Yorkers will bestow upon it."

## The "New York Times" said:

"Perfect—building, stock, and service, and the reception given yesterday on its opening must have been highly gratifying to the new firm. They have conquered New York with their enterprise."

## A Competitive Neighbor

Thus hospitably welcomed us in their advertisement on the day of the opening: "We extend our hearty congratulations on the rapid completion of their magnificent new place of business. Trusting they may prove worthy rivals for your patronage, we welcome them to this uptown center of retail trade."

## The Importance to You

in the forging of this new link in the Saks commercial chain is immense. It adds strength to our prestige, develops broader facilities; gives us a closer touch with the market and greater command of its opportunities. And all that means improved service here in our "home" store. We congratulate you upon the benefits that will accrue to you, as heartily as we believe you "wish us well" in our new enterprise.
