## JOURNAL'S ARMY BREAKS RECORD

Eighty-Four Out of Eighty-Six on Honor List Absolutely Correct.

What the Puzzle Army can't find out has not yet been devised in the pictorial puzzle line.  
And of all those whose names appear on the honor list to-day 84 out of 86 were absolutely correct in quotation and author. One began the quotation with "O," and another used "not" instead of "but" in the second line, which is certainly a splendid record. It is doubtful if an equal number of miscellaneous grown people could do as well, for the art of quoting the original correctly is a rare one.  
Miss Irma McDavid, 17 East Jackson wins the dollar this time and is invited to call for it at The Journal office.  
"Miss Fannie M— and others" will please read the instructions on the "Answer Coupon" and govern themselves accordingly. If any infraction of that rule was permitted anybody, it would be permitted to all. The Puzzle Army has no favorites—every list of answers is treated exactly the same. If the answers are correct and written on the "Answer Coupon" they are put on the honor list and each has absolutely the same equal chance to get the dollar. If they are not written on the "Answer Coupon," they are not even examined to see whether the answers are correct or not, but thrown into the waste basket.  
Your answers were probably received as many are, and may have been correct as you say, but no one has time to waste over them or the letters that accompany them.

If you wish to join the Puzzle Army you must be governed by the same rules that govern other Puzzlers—big and little. If any infraction could be overlooked it would be in the case of the "little" folks who puzzle their little brains in honest efforts to win that "wonderful dollar"—certainly not in favor of "grigs and their beau," "Nevens!"  
Following is the correct answers to last week's puzzles:

The following gave the quotation correctly but failed to give the author:  
Minnie Barton, Edward Saxon, Meenie Miller, Esther Van Brunt (or Broux), Ellis Prather, Ellen Prather, John and Elmer Cox, and Flora (whose name is so carelessly scribbled it cannot be read).  
Minnie Cox, Edward Barton, Seligman Morris Joe Sommers and Evelyn Collins send answers to June 11 puzzles, but put only a "one cent" stamp on their envelopes, instead of a "two cent" stamp, which held them back till too late to reach the Puzzle Editor last week. They are all correct.  
Willie Pollock, Robert Joyner (or Jaynes), Edith Peak (or Peck), Adam Wetzel, Hines Clark and Bessie Erdman send correct quotations but give the wrong author.  
Some of the letters received are too long to publish, but each of the writers, whether "old" or "new" Puzzlers, are assured that their good wishes and kind expressions are deeply appreciated by both the Puzzle Editor and The Journal.  
**New Recruits.**  
The following nice little note has no name signed but the writer is welcome to the Puzzle ranks and requested to be careful to sign his or her name and address to both answers and communications, hereafter so that, when he or she wins the dollar, The Journal will know who to give it to:  
Pensacola, Fla., Dear Mr. Editor—This is the first time trying to win the dollar. I am going to try to win the dollar.  
Dear Editor—I once more join your army and send you my list of answers which I trust is complete in detail. If I succeed in getting that much coveted dollar I intend to give it to Missions. Just send the dollar to 413 East Cervantes street, and oblige Yours very respectfully, Wilhelmina Saltsman.

When your list comes out first in the lot, little lady. The Journal will ask you to call for it and get acquainted.  
The Pensacola Journal, Dear Mr. Editor—This is my first attempt sending in an answer to the Sunday puzzles, guess you will note from the mistakes I made filling out the blank. Hoping it is correct, I am your little unknown friend, Maymie Cobb Bagdad, Fla.  
It is correct, Miss Maymie, and if at first you don't get that dollar, try till you do so.  
Dear Puzzle Editor—I get the puzzles right every week and I have been disappointed. I have not gotten that dollar yet, but I will keep trying till I get there. Your little friend, Elmirie Marie Bell.  
That's the Puzzle Army spirit—and the only one that wins in the end.  
Dear Mr. Puzzle Editor—This is my second time in trying to answer your puzzles. I trust they are correct. They are very easy. I want that shiny dollar so I can buy me an automobile and take you out riding in it. Yours truly, Indiana Pete, 1811 N. Hayne street.  
All right—but hurry up with that shiny automobile.  
Dear Editor—After stopping awhile I have returned to try again and sincerely hope I shall get it. Margerita Moreno.  
But—just think of the opportunities lost. Keep trying.

## PEACE RIVER IMPROVEMENTS

Will be Resumed by Big Phosphate Company that Has Recently Been Organized.

A recent issue of the Zolfo Advertiser says: Mr. A. J. Bardin, who has charge of the orange grove of the Peace River Phosphate Mining Company across the river, was in town yesterday and gave us some very interesting information relative to the intentions of the American Agricultural Chemical Company who are the owners of the Peace River Phosphate Mining Company and all the phosphate lands along Peace river. It will be remembered that this company organized a few weeks ago with quarters in Jacksonville and a \$1,000,000 capital. The New York representatives of the American Agricultural Chemical Company of 25 Broadway, whose name Mr. Bardin could not recall, spent a day recently with Mr. Bardin, and gave him an inkling of what the intentions of this company were in regard to the large amount of property they own in the vicinity of Zolfo.  
Among other things he said the phosphate company made a grave mistake when they quit work on this part of the river and went below; that when they once had the river open up here they should have kept it open and worked down the river instead of dropping below to Hull, where they now are, and if their intention to remedy this mistake as much as possible as soon as they have completed working the river at Hull.  
They will move their plant up the river to some point at or above Zolfo and resume operations in this vicinity.  
When they move up the river, of course they will be compelled to provide some way of transporting the phosphate from the works to vessels off Punta Gorda and instead of building their railroad on up the river from Arcadia to this place and hauling the phosphate on cars to Cleveland and loading it on barges to be towed to the ship, as they have been heretofore hauling it from Arcadia to Hull, it has been decided to place the rock on the barges where it is mined and tow it to the vessels off Punta Gorda.  
This will necessitate a depth of about eight feet of water from Zolfo to Punta Gorda, and the representative of the American Agricultural Chemical Company stated that it was the intention of the company to dredge Peace river out to that depth the entire distance and make it navigable to large tugs and heavy barges. This, of course, is a tremendous undertaking, but the company sees where it will pay them to do it and they have ample capital to complete the work.  
Eight feet of water in Peace river from Zolfo to Charlotte Harbor bay will practically revolutionize transportation in DeSoto county. With that depth this entire section will be provided with cheap freight transportation and a line of freight steamers will be sure to follow.  
The worst drawback to this section has long been the high freight rates and it will be gratifying news to every citizen of the county to learn that the company who practically owns the river from head to mouth are about to remove this obstacle to the development of this favored section.

## Open-Stock Dinnerware Patterns

Before the advent of the "open-stock" idea in dinnerware one had to buy dinner-sets of fixed composition as made up by the manufacturer.  
When you broke a piece it took months to obtain one to match it—frequently it was an impossibility.  
From an open-stock pattern you can nowadays build up a set from a small initial purchase or you can buy a complete set. And we can replace any breakage instantly—because we carry the patterns in bulk, not as sets. See the point?  
Many new patterns recently added.

## Where Health is Considered

the expenditure of a small amount of money should not prevent the bathroom from being thoroughly modern and sanitary.  
There is not any part of the house which exerts more influence on the health of the family than the bathroom, therefore the necessity of its being equipped with

## "Standard" Baths and One-Piece Lavatories,

the most dainty and durable sanitary appliances made.

There are still in daily use many of the "cased-in" tin bath tubs and "inclosed" marble wash stands, which were considered good years ago, but are now obsolete and unsanitary.

If these fixtures were removed and "Standard" Baths and ONE-PIECE LAVATORIES installed in their places, it would not only improve the sanitary condition of the house, but increase its selling value as well.

We invite all persons interested in Modern Bathrooms to visit our showrooms and examine the samples of "Standard" ware we have on display.
