

MILTON FRANK AND FONDEBILLA CHOSEN

These Two Recommended by Marshal Schad and Appointments Confirmed by the Board.

REGULAR SESSION OF THE BOARD OF SAFETY WAS HELD, WHEN MANY MATTERS WERE TRANSACTED—OFFICER PYRITZ DISCHARGED.

The regular session of the Board of Public Safety was held last night, when many matters connected with the fire and police departments were discussed. Chairman Ingraham presided, and Mayor Bliss and Messrs. McGaughey, White and Oliver were present.

After the reading of the minutes, the trial of Officer Pyritz was taken up on charges preferred by Marshal Schad. These were to the effect that the officer had been asleep on duty, visited a bar room, and for conduct unbecoming an officer. The board heard a number of witnesses, and after a short discussion in executive session, dismissed him from the department.

The reports of Chief Bicker of the fire department were then read and filed.

Marshal Schad brought up the question of blocking the streets by trains, stating that recently a fire occurred and that the trucks were compelled to take another street after waiting several minutes before they could reach the point. This occurred on Wright street, and while the train had stalled, it had not blocked the crossing for a sufficient time to violate the ordinances. He was then instructed to call upon the railroad officials and request that in future this be avoided.

The marshal asked permission, which was granted, to place, whenever he saw fit, the deputy marshal on night duty and the captain of police on day duty.

Frank and Fondella. Milton B. Frank, the present deputy marshal, who has served in that position for a number of years, was endorsed by the marshal for the same position, the marshal asking that the board again elect him. This action was taken in accordance to the recommendation of the chief.

Captain Jos. Fondella, who has been holding the position of night captain, was likewise endorsed by the marshal for captain, and it met with favorable consideration.

Number of Applications. There were a number of applications before the board, all of them being for positions in the fire department. Relative to the application of H. H. Bicker, the city physician recommended that he be not accepted, as he could not stand the required examination.

The applications of J. M. Griffin and E. H. Yulestra for positions in the department were accepted, both having stood the examination, and they were declared elected.

The qualifications of a fireman were then brought up, and Mayor Bliss moved that a committee be appointed to formulate questions to be answered by firemen in standing the examination. This was carried, and Chairman Ingraham appointed Mayor Bliss, Mr. McGaughey and Mr. Oliver on the committee.

R. O'Donovan and Andrew Graham, whose applications had been before the board previously, were elected members of the department, and the applications of Charles Davis, H. T. Belne and Willie Bicker were referred to the chief for investigation.

After a lengthy discussion on the question of providing ladders for all hose wagons, a separate fire and police alarm, and the employment of two additional men, Chairman Ingraham was appointed to go before the council and ask for sufficient money to provide for these necessities.

Feed Contract Awarded. Bids were opened for the feeding of stock during the month of July and the contract was awarded to J. E.

Dubuisson & Bro. The bids were from the Klein Grocery Co., F. S. Molten & Co., Geo. W. Pryor & Sons, and J. E. Dubuisson. The latter quoted oats one cent per bushel, cheaper than others and hay at 50 cents per ton lower.

The claim of Jos. LeBaron for two months salary from the city on account of not having been placed at work by former Chief White, was referred to the city attorney.

Marshal Schad brought up the question of securing a dog catcher, saying that the law became effective July 1. The question was discussed, but no action taken. Mayor Bliss introduced a resolution, which was passed, asking the council to pass an ordinance requiring all dogs running at large to be muzzled. He said that simply because the owner of a vicious dog paid a tax upon the animal, the latter had the right to run at large and bite anyone, while an animal not at all vicious, but which did not have a tag on, would be taken charge of and killed, simply because the owner had not paid the tax.

Just What Everyone Should Do. Mr. J. T. Barber, of Irwinville, Ga., always keeps a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy at hand ready for instant use.

Attacks of colic, cholera, morbus and diarrhoea come on so suddenly that there is no time to hunt a doctor or go to the store for medicine. Mr. Barber says: "I have tried Chamberlain's Colic, Cholera and Diarrhoea Remedy which is one of the best medicines I ever saw. I keep a bottle of it in my room as I have had several attacks of colic and it has proved to be the best medicine I ever used." Sold by all druggists.

There were bishops, being mostly old men before they were elected to their high offices, were glad to use their sticks, or croziers, to assist them in walking when visiting their dioceses. In some quaint old illuminated manuscripts these sticks have pieces of cloth attached to them, the evident purpose being that the bishops might wipe their perspiring faces.

Later there came bitter strife between the scepter and the crozier, and under the warlike Hildebrand of the ninth century, who, as Pope Gregory VII, dictated terms of peace to Henry V. of France and compelled him to cry "Pacem!" under threat of excommunication, the crozier became mightier than the scepter.

Up to the sixteenth century the crozier was made generally of cypress wood, and its crook was of bone or ivory. From that time on it was either of silver gilt or gold.

From the time when the inventive genius of Ninus displaced the pike, stout stick as the common weapon of all mankind it has never played so active a part as during feudal times, when the backs of the European serfs were so often and so heavily belabored with cudgels at their masters' commands that it is a wonder the greater part of the white race are not hereditary cripples. And every one knows how in Robin Hood's time stout yeomen went about thumping one another with their staves merely for the sport of the thing.

The celebrated baton of the marshals of France was a slender little stick, not more than fifteen inches long, covered with velvet, embroidered with lilies and eagles and crowned with a silver cap, so that when Napoleon said, "Every soldier carries a marshal's baton in his knapsack," he might have been taken literally.

But it is a stick quite apart from any of these that has had most to do with the development of civilization, a stick that is not a stick at all, but a tray-like little tool that for 400 years and more was an indispensable implement of the art preservative—the composing stick of the printer. It has broken the heads of more tyrannies, smashed the armor of more shams and struck more sturdy blows for human liberty and progress than all the bludgeons, scepters and croziers from Adam's time to the present.—M. J. Mollan in New York Post.

BEULAH

Special to The Journal.

Beulah, June 28.—We were blessed with a good rain this morning which makes us all feel jubilant and at peace with all mankind. The rain was just what we needed at the present time for there is a great deal of ground prepared for sweet potatoes and all that was needed was a good rain so that we could put out vines with some hopes of having them live.

Mrs. John Wilson has had a very severe spell of sickness, but we are happy to say that at present she is improving very fast and her many friends hope she will soon regain her usual health.

Mr. John Hirst, Jr., from Mississippi, is here for a visit to parents and friends and will remain until after the fourth of July.

When you come to the picnic on the fourth bring a cup for on occasions of that kind there is sure to be a dearth of cups, and the man that has a cup of his own will be strictly in it when it comes to getting coffee. Now this applies to the ladies as well as to the men. Brother Shelby and his helpers are going to make this one of the best picnics that has ever been held here and Beulah is noted for never doing anything by halves. So come out and have a good time, the time without a headache, for there will be no "bug juice" allowed on the ground and the sheriff or his deputy will be on hand to see that everything goes along right.

This is a very busy time here. Most of the people are going in from two to five times a week with peaches, watermelons and garden stuff of which they have a large quantity.

Dr. Cole, a missionary of the M. E. church, just returned from China, will hold services at the Beulah M. E. church on Thursday, July 6, at 11 a. m. He will then go to Belview and hold services there at 3 p. m. and returning to Beulah will preach again at 7:30 p. m. All who can come out to hear him are respectfully invited to be present. We have been informed that he is a very interesting speaker on the subject of missions.

Our Sunday school is doing well so far and the interest in it has not lagged any as yet, but seems to increase with every Sabbath. We are going to have children's day exercises before long and we want the people to come out and see what the little folks of Beulah can do.

Rev. Anderson and wife, evangelists of Pensacola, are conducting a series of meetings here at the Baptist church. The meetings commenced last Sunday and will be continued the balance of the week. They are meeting with good success as a good many have come forward for prayers.

A Political Secret. Before Napoleon III, emperor of France, became interested in the Mexican empire project he had a plan in mind for certain mysterious military operations in Morocco. A writer says: "The German agent of a firm of Liège gunsmiths used to go at dead of night to a private door in the Rue St. Honore, press a button and be received in secret by Louis Napoleon himself. The German was to secure arms to the order of Napoleon, but all was to be secret. Payment was to be made through a Swiss banking house, as part of the capital of a railway in the Grisons. But it all came to nothing. Mexico claimed the horizon and the German and his guns were forgotten, and the secret of it all is still to seek."

A Queer Insect. The "walking sticks," "walking leaves," etc., are among the most curious forms of insects inhabiting tropical America. They belong to the great family of phasmids and are as odd specimens of animated nature as one could well imagine. The type of the family is an elongated creature, with a cylindrical brown body, looking exactly like a small limb or twig, with the bark on. Some of the branches of this numerous family live in the torrid portions of Africa, where they attain enormous sizes. Vane, the great traveler, said he had seen them so large that "they had the general appearance of great, animated clubs moving up and down the branches and trunks of the gigantic tropical trees."

Large Crowd Will Attend Event at Magnolia Bluff To-day and To-night.

An immense crowd from over the various lines of the Louisville and Nashville Railroad, is expected to reach the city this morning in order to attend the annual picnic of the Order of Railway Conductors, which is to occur today.

Two special trains will come into the city, one from over the Southern Alabama division and another from over the P. & A. division. The first to reach the city will be that from over the P. & A., and it is expected that it will arrive here about 11 o'clock and the second special will reach here over the Southern Alabama about half an hour later.

The conductors who have been making extensive preparations for the event, have been advised from all points along the line that an immense crowd will be present as many persons in various sections of the country have signified their intention of coming to the city.

The event will occur at Magnolia Bluff, and an excellent program has been arranged. Special trains will be run from the city during the entire day and evening, the first leaving the city at 12:30 o'clock and another at 2:30 o'clock. After that hour and until 11:00 o'clock at night a train will leave the city every hour.

Chaffers' Band has been engaged to furnish music during the afternoon and at night for dancing.

Those coming to the city on the special trains will have the privilege of remaining two days, returning on any regular train within that time.

Torture of a Preacher. The story of the torture of Rev. O. D. Moore, pastor of the Baptist church of Harpersville, N. Y., will interest you. He says: "I suffered agonies, because of a persistent cough, resulting from the grip. I had to sleep sitting up in bed, I tried many remedies, without relief, until I took Dr. King's New Discovery for Consumption, Coughs and Colds, which entirely cured my cough, and saved me from consumption." A grand cure for diseased conditions of Throat and Lungs. At all druggists; price 50c and \$1.00 guaranteed. Trial bottle free.

A WONDERFUL MONSTER.

Description of a New Battleship in the Seventeenth Century.

Is it true that our ram battleships are but old inventions in new forms? It looks like it. Some one has unearthed a curious announcement which appeared in the Mercator Politicus for Dec. 6, 1653, to the effect, as stated by the Dundee Advertiser, that "the famous monster called a ship built at Rotterdam by a French engineer is now launched." In a description of the vessel its capabilities are thus detailed:

"(1) To sail by means of certain instruments and wheels (without masts and sails) as swift as the moon or at least thirty miles every hour. (2) Both ends are made alike, and the ship can be stopped at pleasure and turned as easily as a bird can turn. (3) In time of war it can with one bounce make a hole under water in the greatest man-of-war as big as a table and in an hour's time will be able to sink fifteen or sixteen ships and in three or four hours will destroy a whole fleet. (4) She will be able to go to the East Indies and back again in eight or nine weeks. (5) She may be used to kill whales in Greenland, so that a hundred ships may be laden in fourteen days. (6) She may be used to break down any pier or wooden work with great ease."

A wonderful "monster" this must have been. What, one is curious to know, was her fate?

Why It Succeeds. Because it's for One Thing Only and Pensacola is Learning This.

Nothing can be good for anything. Doing one thing well brings success.

Doan's Kidney Pills do one thing only. They're for sick kidneys. They cure backache, every kidney ill.

Here is Pensacola evidence to prove it: Mrs. Martha A. Stevens, residing at 309 East Gadsden street, says: "I have been a friend of Doan's Kidney Pills for a long time, and I always recommend them to everyone I hear complaining of backache or kidney ills of any kind. This remedy has been used in my family off and on for years and the pills have never been found wanting to anyone requiring a kidney medicine. No one need hesitate about going to Sidney Kahn's drug store, No. 9 South Palafox street for they will not be disappointed in the results obtained."

For sale by all dealers. Price 50 cents. For Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.

Remember the name—Doan's—and take no other.

Hooton's Pharmacy

OPEN ALL NIGHT!
BIRTHPLACE OF PROMPT DELIVERY.

We have every facility for taking care of your business. We are not too large to take care of a small order nor too small to take care of a large order. Don't be bashful and think because your purchase may be only five cents worth that you will not get the same service that you would for a larger purchase. We want your business, even though it may be ever so small, and remember our boys like to ride.

We can supply you with a long needed want—that is, a tooth brush that does not shed its bristles.

DUESSELDORFER BEER

THE only perfect stimulant is one which makes no reprisals on the system—one which refreshes the fatigued muscles and the wearied mind without demanding payment from the nerves. Whiskey, wine, coffee and tea are reactionary. DUESSELDORFER Beer is nutritious, strengthening and wholesome. It supplies the tissue that the others destroy. Millions of workmen drink it to renew the strength that their labors consume. But for every drink of the other four, your body pays the penalty.

LEGAL ADVERTISEMENTS.

An Ordinance to be Entitled: An Ordinance fixing the salary of the Recorder and providing for a Recorder Pro Tem.

Be it ordained by the Mayor and Council of the City of Pensacola: Section 1. That beginning on the fifteenth day of June, 1905, the salary of the Recorder for the City of Pensacola shall be Nine Hundred Dollars (\$900) per annum, payable at the same time and manner as the salaries of other city officers.

Sec. 2. That the Council shall immediately after the adoption of this ordinance, and at its first regular meeting in June of each year thereafter, elect a Recorder Pro Tem, who, in the event of the absence, disqualification, or inability of the Recorder, shall be vested with all the jurisdiction, powers and duties of the Recorder.

Sec. 3. That in the event of the absence, disqualification, or inability of the Recorder and Recorder Pro Tem, the Mayor shall appoint some practicing attorney residing in the City of Pensacola, to hold daily terms of Court, and who shall have all the powers and perform all the duties of the Recorder, or Recorder Pro Tem, during their absence, disqualification or inability.

Sec. 4. That this ordinance shall take effect immediately.

Sec. 5. That all ordinances, and parts of ordinances, in conflict herewith be and the same are hereby repealed.

Passed June 21, 1905.

Approved June 28, 1905.

ATTEST: OTHAS. H. BLISS, Mayor.

B. S. BERNARD, City Clerk.

THERE ARE TWO KINDS OF BUILDING BLOCKS

The Miracle

and others. The MIRACLE is the only one with staggered air cells, and as it is patented, no other block maker can put them on the market. It gives you a house or store

Absolutely Dry, Cool in Summer and Warm in Winter

No bill for repairs, painting is saved, and you have something rich looking. Should you wish to sell, such a house will bring fifty per cent more than one of wood or brick.

FOUNDATIONS: Don't put in brick that will fall out in a few years, look cheap and cost just as much. Have your contractor specify MIRACLE foundation. It will cost you no more and improve the looks of your house greatly.
