**NO CHANGE FOR PENSACOLA**

TO GET THE HATTIEBURG FRANCHISE IN THE COTTON STATES LEAGUE, AS NO ONE IS WILLING TO PUT UP THE MONEY.

Whatever might have been the visions of some of the baseball fanatics of this city regarding that Cotton States League franchise, they have now vanished. So far as Pensacola is concerned this city has not the remotest chance of securing the franchise and players now held by the Hattieburg club, although only a comparatively small amount of money was necessary to get the team, and the franchise would have been donated.

The money, however, was lacking, and out of all the baseball lovers only a very small sum was in sight. Those who would have profited by the club being placed here would not come forward with any of the coin, and this disgusted some of those who would have donated small sums.

President Griggs has returned to Mobile, where he will probably remain, and the franchise of the league will either remain with Hattieburg, or else be turned over to Selma or some other city.

For Forty years Dr. Fowler's Extract of Wild Strawberry has been curing summer complaint, dysentery, diarrhoea, bloody flux, pain in the stomach, and it has never yet failed to do everything claimed for it.

**APPOINTMENT OF WITTE PROPOSITIONS**

By Associated Press.

Oyster Bay, L. I., July 13.—President Roosevelt received from the Associated Press the first definite news of the declaration of M. Muraviev to act as the principal plenipotentiary of Russia in the conference and of the designation by the Russian emperor of M. Witte as the leading Russian envoy. Official notification of M. Witte's appointment has not reached the president from St. Petersburg, although it may come at any time.

Unofficially the designation of M. Witte is regarded as most propitious. It is believed that his appointment is an assurance that peace in the far east is now in sight.

Beckman Winthrop, governor of Porto Rico, and Edward C. Kent, chief justice of the supreme court of Arizona, were guests of the president today at Sagamore Hill. They arrived from New York in time for luncheon and spent a part of the afternoon with the president. Governor Winthrop is in this country on a leave of absence.

**DECLINE TO DISCLOSE IDENTITY OF ASSASSIN.**

By Associated Press.

Moscow, July 13.—The authorities here decline to disclose the identity of the assassin of Prefect of Police Shuvaloff last Tuesday, but it is known that a very prominent and important political capture has been made. After the prisoner's escape from the police station where he had been confined as a political suspect some days previous to the assassination of the prefect, Shuvaloff set all the police of Moscow at work to effect his recapture. The prisoner in the meantime shaved off his beard and while the police were searching for him everywhere the man went the prefect's office and committed the crime for which he will now be tried. The bullets of the revolver used by the assassin were filled with poison. The crowd in the ante-room of the prefecture set upon the assassin who was dragged into the street and terribly beaten.

**QUIET CONTINUES ALONG THE FRONT**

By Associated Press.

Spinghal, Manchuria, July 13.—Quiet continues along the front, but the Japanese are still moving in Korea. The Russian trains move as far as Chantaru. Information from the Japanese lines indicates that the rank and file are exceedingly anxious for peace. To counteract this feeling, Field Marshal Oyama is continually issuing glowing appeals to the patriotism of his armies.

The Chinese say that decaying corpses buried in shallow graves in frozen ground after the battle of Mukden have created a terrible condition. Plague and cholera are said to have appeared among the Japanese.

**RARE EDITION OF KING RICHARD III.**

By Associated Press.

New York, July 13.—A perfect copy of the fourth quarto edition of Shakespeare's "Tragedy of King Richard the Third" has been sold at Botheby's for \$5,700 to A. Jackson, and it is understood it will go to America, according to a London dispatch in the Times.

The book was printed in 1605 by Thomas Creeden and was sold by Matthew E. Lawe, "dwelling in Paul's church yard at the sign of the fox, near S. Austin's gate." It has forty-six leaves.

It is believed that only two other copies of this edition exists. One is in the British museum and the other was sold by Mr. Lilly to Mr. Halliwell, afterward Halliwell-Phillips and is now in the Bodleian library at Oxford. The sample sold is of peculiar interest from the fact that in five places a contemporary autograph of "William Penn" is found. The signature is probably that of the celebrated admiral, the father of the founder of Pennsylvania.

**NEW LAW HARD ON VAGRANTS**

UNDESIRABLE ELEMENT CAN BE QUICKLY DISPOSED OF IF INDIVIDUALS WILL ASSIST THE OFFICERS.

The Jacksonville Metropolis says: Every community is cursed by the vagabond. The fewer vagrants found in any city the better it is for that city. Jacksonville has had them, and it has them now. The last legislature, however, so amended the vagrant law that any man can aid in freeing the community of this class of people. The law says that vagrants are as follows:

Rogues and vagabonds, idle or dissolute persons who go about begging, common gamblers, persons who use juggling or unlawful games or plays, common pipers and fiddlers, common drunkards, common night walkers, thieves, pilferers, traders in stolen property, lewd, wanton and lascivious persons in speech or behavior, keeping of gambling places, common railers and brawlers, persons who neglect their calling or employment and mispend what they earn and do not provide for themselves or for the support of their families, persons wandering from place to place able to work and who are without means and who neglect to earn their support and live by pilfering or begging, idle and disorderly persons, including those who neglect all lawful business and habitually mispend their time by frequenting houses of ill fame, gambling houses or tippling shops, persons able to work, but who are habitually idle and live upon the earnings of their wives or minor children, and all abandoned male persons over 18 years of age who are without means of support and whose parents or guardians are unable to support them and who are not usually in attendance upon some school or educational establishment, but who live in habitual idleness, are declared to be vagrants, and upon conviction shall be subject to the penalty provided.

Warrants Executed.

The law also says that upon proper information made upon oath before an officer authorized to act in such case he shall issue his warrant for the arrest of any person therein named or described who is charged therein with being a vagrant under any of the provisions of the foregoing section and such warrant shall be executed by any sheriff, constable, policeman or by a private person duly authorized thereby by the officer issuing such warrants, but any sheriff, constable, policeman or other lawful officer may arrest any vagrant described in the foregoing section without a warrant in case of delay in procuring one would probably enable such alleged vagrant to escape arrest. Any persons so arrested by virtue of a warrant or without a warrant shall be given a speedy trial, and upon conviction shall be fined not exceeding \$250 or imprisoned for not more than six months.

**CATHOLICS ADOPT RESOLUTIONS**

By Associated Press.

New York, July 13.—The final session of the Catholic Educational Association convention to-day was occupied with a discussion of Catholic textbooks. The final act was the adoption of resolutions commending those countries which maintain religious and secular instruction simultaneously in elementary schools, and recommending more colleges, higher education in Catholic branches and the introduction of ecclesiastical art and architecture into Catholic seminary courses.

**DAMAGE CAUSED BY HEAVY RAINS**

By Associated Press.

Roanoke, Va., July 13.—Heavy rains during the past ten days has caused a great rise in mountain streams and much damage in the lowlands. Bridges were carried away and cattle driven to the high places. The rainfall here in the past twelve days was nearly seven and one-half inches. Trains have been greatly delayed by wash-outs.

**PRESENTED TO MR. ROOSEVELT**

By Associated Press.

Oyster Bay, July 13.—Baron Rosen, the Russian ambassador and peace plenipotentiary, was presented to the president today at Sagamore Hill. The ceremony occupied but a few moments. No formal exchanges took place.

AUTHORITIES AFTER PROMINENT LAWYER.

By Associated Press.

New York, July 13.—Abe Hummel, the attorney under indictment on a charge of criminal conspiracy in connection with the Dodge-Morse divorce will not be permitted to inspect the minutes of the grand jury returning the indictment. In denying the application for such permission Judge Davy in the criminal branch of the supreme court, to-day declared that after inspecting the testimony before the grand jury he was convinced that there was evidence to sustain the indictment.

"I might say," he added, "that there is evidence to warrant conviction."

Hummel and Benjamin Steinhart, another attorney who was indicted jointly with him and Chas. F. Dodge, were called upon to plead to the indictments against them. Dodge was not in court. Hummel's counsel entered a demurrer.

**BIG DEAL IN TIMBER LAND AT FT. MCCOY.**

Fort McCoy, July 13.—News was received here by the last mail that Hinkle & Son of Georgia, had contracted for the timber from 19,000 acres of their land as fast as the gum could be extracted by the latter. The consideration was \$125,000. The new owners say they will soon put in some up-to-date mills to cut this fine body of timber, and no doubt will put steam dummies in to haul the logs to the mills. This land was first bought by F. Long & Son, costing probably \$22,000. This deal only includes the timber after the turpentine has been taken from it.

**You Employ an EXPERT In Food Selection when you eat Grrpe-Nuts**

The most perfectly made food for human use.

**THIRTEEN DEAD FROM HEAT IN NEW YORK**

Scores Overcome by the High Temperature and Humidity are in the Hospitals.

By Associated Press.

New York, July 13.—Thirteen deaths attributed to heat were recorded here to-day and in addition scores of persons were overcome by heat and are under treatment in the hospitals. The thermometer reached a maximum of 85 degrees. Great humidity and the continuance through the night of the high temperatures caused the heavy fatality.

John McGeeroun, after complaining of illness lost consciousness and fell backward down stairs, breaking his neck. Samuel Schulz, a painter working on a roof, fell five stories to the ground and was instantly killed. Many children are included in the death list.

**DAMAGE CAUSED BY HEAVY RAINS**

**HEALTH AND MONEY.**

There is this difference between those two temporal blessings, health and money: Money is the most envied, but the least enjoyed; health is the most enjoyed, but the least envied, and this superiority of the latter is still more obvious when we reflect that the poorest man would not part with health for money, but the richest man would gladly part with all his money for health.

**THE LESSER EVIL.**

"I don't see why you asked Mr. Bohr to sing," said the popular girl's sister. "I hated to do it," was the reply, "but it was the only way to make him stop talking."

**THE SANITARY INSPECTORS**

ARE MAKING A THOROUGH AND SYSTEMATIC INSPECTION OF ALL SECTIONS OF THE CITY.

Pensacola is now undergoing a thorough inspection at the hands of the four sanitary inspectors, Messrs. Maura, Commyns, Sanchez and Dimars, and it is probable that when the work is completed it will be one of the most systematic and thorough canvasses ever to be made of the city.

The inspectors have divided the city into sections and each house is visited and every portion of the premises gone over in a thorough manner. Where the premises are found in a filthy or unsanitary condition the occupants are given notice to clean them up at once, and the inspectors in giving such notice return at the expiration of the time to see that the order has been complied with.

Some of the inspectors have had some lively experiences of late with dogs at houses which they have visited, and also on the streets. They say that because a dog has on a city license tag is no reason why it will not bite as they have learned from experience.

**THE GREAT ICE AGE.**

How Its Passing Left Its Record in Gravels and Rocks.

Some 10,000 or more years ago the conditions which had brought about the great ice age were beginning to change. The elevated land began to sink, and a higher temperature slowly followed. The long winter was gradually drawing to a close, and the great springtime of the world was beginning to hasten its influence upon an ice covered land. Tons, rather mountains, of ice began to melt, and the water filled the river valleys to overflowing. Gravel, sand and mud were borne along by these raging waters and deposited wherever the conditions were favorable. Ice rafts covered the surface of the flood, bearing rocks and bowlders from more northern lands.

All rivers which had glacial sources were greatly influenced by the final melting. As the southern part of the ice sheet rested over northern Pennsylvania, the Delaware and the Susquehanna were typical rivers of the age. The rocks and gravels which line their banks show how well they have kept the record. In the Delaware valley brick clay and gravel are laid out in beautiful terraces, especially at Stroudsburg and the Water Gap. Here the waters rose some 200 feet, and an artificial dam is supposed to have formed the river into a broad lake. The Indians, it is said, have a curious legend about this flood. They tell us that the "Minies" were the first race which dwelt here, and the region round about they call "Miasink," meaning that the "waters are gone"—a vague remembrance perhaps of the post-glacial floods.

**THE LOT'S ADVANTAGES.**

Advertising Expert—I've written the praises of all these lots but one. I'm afraid you can't sell that one. Real Estate Agent—What's the matter with it? Expert—Why, it's on an almost perpendicular hillside. Agent—Call attention to its wonderful drainage facilities.—Cleveland Leader.

**NO MORE WORK.**

Hicks—I suppose Dremer is still pottering alone at his inventions. Wicks—Well, he has actually perfected a great labor saving scheme at last. Hicks—You don't say. Wicks—Yes; he's going to marry Miss Roxley.—Catholic Standard and Times.

**NO HALF HOLIDAY IN NAVY DEPT.**

By Associated Press.

Washington, July 13.—Secretary Bonaparte, of the navy department, today forwarded his decision in the matter of a half holiday for employes of the Washington navy yard on Saturday during the summer. He refers to a report on the same matter when it was not deemed expedient and decides that the necessity for strict economy is so urgent that the department is not justified in recommending to the president any action involving serious additional expense.

**THE WORLD'S GREATEST LAXATIVE.**

A dose half an hour before breakfast each morning will insure you perfect health. It acts as a tonic on the liver-increasing the flow of bile. Does not gripe, improves the appetite, makes digestion a reality, cures jaundice and all disorders arising from an inactive liver. The formula for
