FEVER WILL BE EXTERMINATED

Federal Authorities Confident that no Serious Epidemic is Probable.

SLIGHT INCREASE In the Number of Cases as Usual Upon Monday.

VARIATION IN THE NUMBER OF DEATHS DUE TO WEATHER CONDITIONS—STEGOMYIA HIBERNATES AND VIGILANT WATCH WILL BE KEPT TO PREVENT INFECTION NEXT YEAR.

By Associated Press.
New Orleans, Aug. 21.—Following is the official report to date 1,446.
Deaths today 9; total deaths to date 205.
New foci 16; total foci 332.
Cases under treatment 328.

New Orleans, Aug. 21.—There was the usual Monday increase today, both in deaths and new cases but hopefulness continued to prevail at the federal headquarters. The variation in the number of deaths was on account of meteorological conditions.

The federal authorities have not reached a point where they are willing to prophesy the complete extermination of yellow fever before frost. They feel that they have reason to predict that a serious epidemic is not probable this season and unusual precautions will be taken to prevent the recurrence of fever next spring. It has been demonstrated that the stegomyia hibernates and a vigilant watch will be kept as the winter passes for chance cases anywhere in the south and in even such cases appear a modern campaign will control the situation with absolute certainty.

There was a death today at the Marine Hospital and another at the Fernald Asylum on St. Ann street, where half a dozen cases have been reported to date. These are the only two public institutions outside of the fever emergency hospitals, where fever cases have been reported.

New York, Aug. 21.—When Mrs. Katherine M. Young, formerly of Winona, Minn., who shot Mrs. Katherine M. Morgan, a public stenographer, Saturday in a Broadway hotel, was arraigned yesterday before Judge Pitkin, she appeared to be fully possessed of her faculties. The prisoner was discharged earlier in the day from Bellevue hospital, where the physicians reported that she showed no signs of insanity. The magistrate held Mrs. Young without bail for further examination.

THOUSANDS VISIT METROPOLIS OF THE EAST

Greater Number of People in New York Than at Similar Period for Years.

By Associated Press.
New York, Aug. 21.—A glance at the hotel registers, thronged restaurants and cafes, streams of theatregoers and countless sightseeing vehicles show that there are more visitors in New York at the present time than at any corresponding period in years. Nearly every one of the ninety large hotels devoted to the accommodation of transient visitors, in which there is a total of more than 21,000 rooms, is filled to its capacity, and so are the eighty apartment hotels, some class, where there are about 20,000 rooms. It is estimated that in these 170 caverns alone something like 100,000 have been received in the last week and the extent to which this kind of travel is growing is indicated by the fact that south of One Hundredth street about 1,500 more rooms are being made ready. Many of the hotel patrons are foreigners, but the great majority are Americans who have come to "see New York."

All the railroad lines having terminals in New York have been doing an extraordinarily large business this summer and the officials say the volume has been growing year after year. When the homeward rush from seashore, country and mountains begins, about the first week in September, they will all put on extra trains.

By Associated Press.
Muscoogee, I. T., Aug. 21.—The chief of the five civilized tribes met here in convention today to declare for separate statehood for Indian Territory. AUTOISTS ELECT REGULAR SURGON

By Associated Press.
Chicago, Aug. 21.—The Automobile club of Oak Park, a suburb, has taken the precautionary measure of electing a physician as one of the regular officers, and it is not unlikely that the other clubs may follow the example. The "official surgeon" always will be ready with liniments and bandages to care for the members on their many pilgrimages. He will accompany the club on its "runs" and when it takes part in parades, he will be in constant attendance.

Loaded with passengers, many of them women and girls, the car returning from Columbia Gardens, was struck by the end of a freight train on the railroad tracks north of the Butte, Anaconda and Pacific depot and crushed beneath the weight of one freight car, killing nine and fatally injuring one and perhaps another. Numerous others were slightly hurt and were taken to their homes for treatment, their names at this time being unobtainable. That more were not killed is miraculous, for the accident occurred with a suddenness that precluded any hope of escape for those on the front end of the car.

Most of them were women and young girls and seven of these were killed, the other two victims being men.

Protruding from beneath the bottom of the mass of twisted and broken timbers were the feet and lower limbs of several persons. The limbs were badly crushed and the feet of a woman were almost completely severed just above the ankles. Her agonizing screams could be faintly heard, but as the remainder of the body was obscured from view it was impossible to identify the victim.

FORMER CHIEF HYDE DENIES CHARGES

Says Only By Disregarding Certain Reports Can Acreage and Crop Reports Be Made Valuable.

By Associated Press.
London, Aug. 21.—John Hyde, former chief statistician of the Department of Agriculture of the United States, under the care of a physician, who has forbidden him to attend to business today made a statement to the Associated Press denying the charges that he made the estimate of cotton acreage lower than reports from official reporters warranted. He said that only by disregarding the reports of township and county correspondents employed by the bureau can the department's acreage and crop reports be kept from becoming a laughing stock. Failure of the Board of Estimate to recognize the varying degrees of reliability which characterize the reports of different classes of correspondents would inevitably destroy the value these reports for statistical purposes.

BOTH DECLINED TO DISCUSS THE CONFERENCE—FINAL INSTRUCTIONS TO RUSSIANS BEING PREPARED—JAPANESE ENVOYS MAKE PREPARATIONS TO DEPART FROM PORTSMOUTH.

By Associated Press.
Portsmouth, Aug. 21.—The situation here regarding peace negotiations may be summed up in this sentence: The Emperor's answer to M. Witte's communication of yesterday embodying the suggestion of President Roosevelt, is still awaited and is not expected before tomorrow, at the earliest.

The object of the President, officially described by a competent authority, is to prolong the negotiations and thus prevent an immediate rupture. Beyond this there is no official information.

UNEXPECTED PHASE OF NEGOTIATIONS

Oyster Bay, Aug. 21.—An unexpected phase of the peace negotiations developed today in the arrival here of Baron Kaneko, special representative in this country of the Japanese government, for a conference with the President. Baron Kaneko was with the President forty-five minutes. Both declined to discuss the conference, but Baron Kaneko denied that he was the financial representative of his government. He intimated that Japan might regard a proposition from Russia favorably and said he believed it would be better determined what course would be followed when the plenipotentiaries meet tomorrow afternoon.
