TO THE BOY OR GIRL WHOSE NAME IS DRAWN FROM THE CORRECT ANSWERS RECEIVED AT THIS OFFICE BY NEXT THURSDAY NIGHT, THE JOURNAL WILL GIVE A SILVER DOLLAR.

FINE SOLDIERS ARE THE PUZZLE ARMY

They Responded Last Week in Great Numbers and With Military Promptness.

BERTRAM DANNHEISSER THE WINNER OF THE SILVER DOLLAR - LARGE NUMBER OF CHARMING LETTERS RECEIVED.

Bless the Puzzlers. Neither king, empire nor president in this world, can boast of finer soldiers than The Journal's Puzzle Army.

Bertram Dannheisser of 21 W. Belmont, city, is entitled to the silver dollar, his list of answers being the first drawn from all the correct ones, and he can get it by calling for it at The Journal office.

The style of the "Puzzle Answer Coupon" had to be changed for last Sunday's Journal and the printers, in the rush of "making up," forgot to put the "ten answer" coupon on the Puzzle page instead of the "two answer" that has been used for several weeks.

But—nothing daunted—the Puzzlers knew that was The Journal's fault, not theirs, so they sent in their answers anyway—some written on note

paper, but most of them on the puzzle pictures.

Herbert Willis writes from "Hart's Center, way up in the Carolina mountains," a letter that is a source of pride to The Journal because it expresses the confidence which many of them have shown right along, and which Mr. Mayes greatly appreciates. Here is what Herbert writes:

A Splendid Letter. Dear Mr. Mayes—As you forgot to put the "Puzzle Answer Coupon" in this Journal I just know you will accept our answers on most any kind of paper this time, because you give the pictures for us to make out, and offer the dollar prize as usual and it ain't our fault. And I know you like boys and girls and always treat us fair. I'm going to let my sister write hers on the pictures and I have mine on the back of this letter and I hope we'll get that big old slippery dollar we've come so near getting a chance at so many times but missed one. And I think of that every time we sing "Almost is lost." I am 13 and Bessie is 11.

No one regrets more than the Puzzle Editor that Herbert and his sister give "No 8 Thomas Jefferson," which bars them from a chance at the dollar this time. It would have given all concerned a special pleasure to send the dollar to so many and sensible a Puzzler. But, Herbert is too brave a boy to be discouraged by "seven times seven" failures.

Answers For September 3. No. 1—Caesar Rodney. No. 2—William Hooper. No. 3—William Whipple. No. 4—Lynman Hall. No. 5—John Hart.

No. 6—Samuel Chase. No. 7—Richard Stockton. No. 8—Thomas Stone. No. 9—Joseph Hewes. No. 10—Robert Treat Paine.

Correct Answers Received.

Correct answers were received from the following girls and boys: Dessie Shackelford, city; Lillian Lague, city; Willard Smith Morrill, Millview, Fla.; Elliott Barrow, care Mark & Gayle; Manuel Johnson, city; Arthur Johnson, city; Valerian Borras, city; Frances W. Hill, city; Flora Loughton, Galt City, Fla.; Anna Loughton, Galt City, Fla.; Lewis Montanari, DeFuniak, Fla.; Mabel Jones, Escambia, Fla.; Frank Montanari, DeFuniak, Fla.; Samuel Stewart, Bagdad, Fla.; Addie Stewart, Bagdad, Fla.; Goldie McEwen, Bagdad, Fla.; S. E. Stewart, Bagdad, Fla.; Allan Dittmars, Bagdad, Fla.; Carey Stewart, Bagdad, Fla.; Mac Hodgkins, Milton, Fla.; Louis Salter, Milton, Fla.; Katie Sater, Milton, Fla.; Ida Mallory, city; Stella Reinhardt, city; Pebley Barrow, city; Annie B. Richardson, Freeport, Fla.; Sophia Lang Muscogee, Fla.; Norma Briggs, city; Chester Hobart Barrow, city; Jack Roberts, "Arcadia Farms," Fla.; Frank Gentry, Jr., Milton, Fla.; Jack Gentry, Milton, Fla.; William Gentry, Milton, Fla.; Ruth E. Gentry, Milton, Fla.; Myrtle Jones, Escambia, Fla.; Vabel Jones, Escambia, Fla.; Ruthella M. Gonzalez, city; Zorra Mahree Cole, Dugas, Ala.; Hilda B. Lewis, city; Charles Chunn, city; George Greenwood, city; Walter Gagnet, city; Sybil Smith, city; M. Leslie Boghich, city; Marjorie Smith, city; Lizzie Eley, city; Emma Day Wolfe, Milton, Fla.; Malvin S. Wolff, city; Fannie Waggenheim, city; Lucy Swaine, city; Ed. Swaine, city; Millie Swaine, city; John Maloney, city; Annette Moloney, city; Thomas Maloney, city; George E. Hoffman, city; Florence Bobe, city; Alvin Dannheisser, city; H. H. McLeellan, Jr., city; Louis Witkowski, city; Ethel Montanari, DeFuniak, Fla.; Bertram Dannheisser, city; Ruth Dannheisser, city.

Alfred Bradley sends a nicely written letter but gives "No. 7 Arthur Middleton."

John, Ed and Clara Frenkel, send beautifully written answers but give "No. 5 Wm. Paea."

So many letters have been received that only these two are printed, the first because it covers the ground touched upon in all the others, and the last because "Alvin" is one of the brightest but most impatient of the Puzzlers and the Puzzle Editor trusts he may yet win the prize.

Dear Mr. Editor—You have certainly made us extra trouble this week. Sunday this paper did not come. Monday there was no coupon in it, but we went to work and made out the puzzles as best we could and wrote them on a piece of paper and mailed them to you. Then Wednesday morning here came the coupon, so we have fixed them, and send by to-day's mail. Hope they get there in time and be all right, for we still want that "dollar." Your little Bagdad Puzzlers.

Sammie Addie, Goldie, "S. E." Allen and Cary, dear little friends, please forgive this time and I'll never, never do it again—if the printers don't forget.

Mr. Editor—I think it is time for me to win that old "dollar." I have kept on trying but the results seem fruitless. Hoping I will win that dollar I will close. Alvin Dannheisser, city.

Come, come, young man. Ever now and then you give up, and each time miss a chance. The editor would like to see you get it, but—there are others who "keep on trying," and miss a chance. You are just as likely to get it as anyone.

BONIFAY WINS OVER MARIANNA

BALL GAME RESULTS IN SCORE OF ELEVEN TO EIGHT IN FAVOR HOLMES COUNTY TOWN.

Special to The Journal. Marianna, Sept. 9.—The ball game played here between Marianna and Bonifay resulted in a score of 11 to 8 in favor of Bonifay. The batters were: Marianna, Liddon and Davis; Bonifay, Levins and Martin.

FEEL IMPENDING DOOM. The feeling of impending doom in the minds of many victims of Bright's disease and diabetes has been changed to thankfulness by the benefit derived from taking Foley's Kidney Cure. It will cure incipient Bright's diabetes and even in the worst cases gives comfort and relief. Slight disorders are cured in a few days. "I had diabetes in its worst form," writes Marion Lee of Dunsmuir, Ind. "I tried eight physicians with relief. Only three bottles of Foley's Kidney Cure made me a well man." W. A. D'Alemberte, Druggist and Apothecary.

Portland, Ore., Sept. 9.—Did you know that the foundation for good varnish is a peculiar gum, which is dug out of the ground after the manner of coal, and that this selfsame gum is worth 120 pounds sterling (about \$570) a ton in New Zealand, where most of it comes from? Here is the story of the gum and the varnish.

Many years ago, there grew in New Zealand vast forests of mighty Kauri pine which attained a size of from fourteen to sixteen feet in diameter. When the forest was in its prime, a great upheaval shook the earth, and buried the trees under a maze of mud and slime. But the resinous juices bubbled forth from the bark of the pine just the same as it does on the pine trees and plum and cherry trees in their country. The big trees, with their excrescences of gum, lay for centuries buried in the ground, until both became petrified. Then some one discovered the gum and found that it was valuable, and a new industry was created.

In New Zealand now when a man is reduced to poverty, he can always make a living digging gum. He takes a small iron rod and jabs it down into the marsh until it strikes the gum. Generally the gum is found in small pieces, but at the Lewis and Clark Exposition there is a chunk as large as a big watermelon and shaped like one, that weighs 110 pounds.

The New Zealand gum is known as Kauri Copal Gum and is the chief resource of varnish makers. The highest priced gum, however, is the Zanzibar copal from Africa. Pebble copal, which is found in chunks varying in size from a small marble to a baseball, is Brazil product, which also is used in the manufacture of varnish.

The advantage which the copal gum has over other gums in the manufacture of varnish is that it melts only at a very high temperature. Furniture dressed with it thus does not become sticky on warm days, and the heat or the body does not affect it.

At the Western World's Fair there is a fine showing of the gums from which varnish is made, and many people have been interested in learning about it and its uses. The gum exhibit is one of the many interesting things to be seen in the Palace of Manufacturers, Liberal Arts and Varied Industries at the Exposition.

Pirating Foley's Honey and Tar Foley & Co., Chicago, originated Honey and Tar as a throat and lung remedy, and on account of the great merit and popularity of Foley's Honey and Tar many imitations are of fered for the genuine. These worthless imitations have similar sounding names. Beware of them. The genuine Foley's Honey and Tar is in a yellow package. Ask for it and refuse any substitute. It is the best remedy for coughs and colds. W. A. D'Alemberte, Druggist and Apothecary.

NOTICE. My office hours for the present will be from 9 a. m. to 4 p. m. DR. J. W. HIGGINS, Dentist, Masonic Temple.

HOW VARNISH IS SECURED

A Petrified Gum, Found Mainly In New Zealand Like Coal.

Portland, Ore., Sept. 9.—Did you know that the foundation for good varnish is a peculiar gum, which is dug out of the ground after the manner of coal, and that this selfsame gum is worth 120 pounds sterling (about \$570) a ton in New Zealand, where most of it comes from? Here is the story of the gum and the varnish.

Many years ago, there grew in New Zealand vast forests of mighty Kauri pine which attained a size of from fourteen to sixteen feet in diameter. When the forest was in its prime, a great upheaval shook the earth, and buried the trees under a maze of mud and slime. But the resinous juices bubbled forth from the bark of the pine just the same as it does on the pine trees and plum and cherry trees in their country. The big trees, with their excrescences of gum, lay for centuries buried in the ground, until both became petrified. Then some one discovered the gum and found that it was valuable, and a new industry was created.

In New Zealand now when a man is reduced to poverty, he can always make a living digging gum. He takes a small iron rod and jabs it down into the marsh until it strikes the gum. Generally the gum is found in small pieces, but at the Lewis and Clark Exposition there is a chunk as large as a big watermelon and shaped like one, that weighs 110 pounds.

The New Zealand gum is known as Kauri Copal Gum and is the chief resource of varnish makers. The highest priced gum, however, is the Zanzibar copal from Africa. Pebble copal, which is found in chunks varying in size from a small marble to a baseball, is Brazil product, which also is used in the manufacture of varnish.

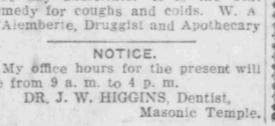

The advantage which the copal gum has over other gums in the manufacture of varnish is that it melts only at a very high temperature. Furniture dressed with it thus does not become sticky on warm days, and the heat or the body does not affect it.

At the Western World's Fair there is a fine showing of the gums from which varnish is made, and many people have been interested in learning about it and its uses.
