## PRESIDENT IS NOT AFRAID OF FEVER

Expresses Willingness to Visit New Orleans if Quarantines Will Permit.

### SLIGHT INCREASE

In Number of Cases Over Sunday, as Usual.

AUTHORITIES OF OPINION THAT YELLOW JACK WILL HAVE PRACTICALLY DISAPPEARED BY DATE SET FOR ROOSEVELT'S VISIT - THIRTY-FOUR NEW CASES AND SIX DEATHS.

By Associated Press. New Orleans, Sept. 18.—Following is the official report to 6 p. m.: New cases today 34; total cases to date 2,605. Deaths today 6; total to date 241. New foci 5. Cases under treatment 211. Cases discharged 1,953.

New Orleans, Sept. 18.—President Roosevelt's telegram to Mayor Behrman announcing his intention to come here as planned on October 24, if the people of New Orleans and Louisiana desired him to do so, subject only to the quarantine regulations of other states was received as an additional indication of the president's sympathy with the people of this state and city in the fight against yellow fever. The mayor will be unable to make a reply until he has considered the whole subject of fever quarantines and consulted with the presidential reception committee, Governor Blanchard and Dr. White. It is the opinion of the authorities that the fever will practically have disappeared before the president is due, but there is some doubt as to whether adjoining states and the country parishes of Louisiana will be willing to lift quarantines until frost gives assurance that there is no further danger.

The expectation of the usual increase in cases and deaths on Monday over Sunday was again realized today, the deaths, though comparatively few in number, exceeding those of several days past.

### PRESIDENT WILLING TO VISIT NEW ORLEANS

New York, Sept. 18.—President Roosevelt today sent a message to Mayor Behrman, of New Orleans, saying he expected to arrive in that city on October 24, and would do so if the people wanted him to come. If they want him to come later he would make a second trip to visit Louisiana and Arkansas. He said he intended to do whatever the people of these states wished, subject to the quarantine regulations of other states through which he must afterward pass.

### TWENTY FOUR NEW CASES AND TWO DEATHS SUNDAY

New Orleans, Sept. 18.—Twenty-four new cases of yellow fever and two deaths were reported by the health authorities up to six o'clock Sunday evening. This is the lowest record since the last of July.

### FEVER SITUATION IN MISSISSIPPI

Jackson, Miss., Sept. 18.—The yellow fever situation for the past twenty-four hours is as follows: Vicksburg, two new cases and one death. Total to date 35 cases and five deaths. Natchez, two new cases, making a total of 22 to date. Hansburg, one new case.

### Attempted to Assassinate Sheriff of Manatee County

Tampa, Fla., Sept. 18.—An attempt to assassinate Sheriff Wyatt and Chief Deputy Joyner, of Manatee county, was made last night near Bradentown. The officers were riding along the road when negroes fired upon them from ambush. Neither was hit. The officers returned the fire killing one negro. The others escaped but are being pursued by a posse.

## PACKERS FIGHT CONSPIRACY CHARGE

Attack Government Position Upon Several Technical Points at Chicago Trial.

Chicago, Sept. 18.—By pleas in abatement, attorneys representing seventeen packers and other persons indicated by the federal government grand jury of conspiring in trust to monopolize the meat business, attacked the position of the government today. The attack was made against impaneling a jury, alleged improper service of summons on John Murray, a member of the jury; unlawful secrecy at the time jury was drawn from the box; unlawful presence of a stenographer in the jury room during the hearing and subsequent writing of shorthand notes; that the indictments were returned in the Eastern Division of Illinois, although the jury which found the indictments was sitting in the Northern Division. The plea is very lengthy, and was filed with District Attorney John S. Miller, general counsel for the packers.

## INCENDIARIES FIRED THE HOUSE

Home of Felix Glackmeyer on Government Street, Was Damaged.

An incendiary fire, and one which would have caused a great deal of damage had it not been discovered soon, occurred early yesterday morning, when flames were discovered in the house formerly occupied by Felix Glackmeyer, on East Government street.

The blaze was first seen about 4:35 o'clock in the morning, and officer Villar ran quickly to a fire alarm box and sent in a call for the department. The trucks responded quickly, and after some hard work succeeded in extinguishing the flames.

An examination showed that the house had been fired from both the kitchen and dining hall, both places being almost gutted. The party committing the deed had evidently placed oil or some other inflammable material on both sides and then set fire to both rooms. The fire burned rapidly, and but for the prompt arrival of the department the place would no doubt have been destroyed.

Mr. Glackmeyer and his family moved about ten days since across the street, on account of the fact that W. J. Abell had died in the house of yellow fever, and had moved all of their furniture out with the exception of a fine bedroom set, which was in the room rented by Abell. This was badly damaged. Mr. Glackmeyer had no insurance upon his furniture.

No one can conceive the motive of the parties committing the crime, except that it was done by some party who was possibly afraid that the place was infected with yellow fever and that it would spread.

The home of Geo. Pfeiffer was also damaged to a considerable extent by water. It was adjoining that of Mr. Glackmeyer and for sometime it was feared would be destroyed.

### WILL NOT CONTRIBUTE TO POLITICAL CAMPAIGNS

New York, Sept. 18.—Paul Morton, president of the Equitable Life Assurance Company, said today that hereafter the Equitable would refuse to contribute to political campaign funds.

### Homecoming of the Peace-Envoy.

## JAPS FRIENDLY TO AMERICAN PEOPLE

Secretary Taft Says Recent Riots Were Not Anti-American Demonstrations.

Oyster Bay, Sept. 18.—Secretary Taft, in a cablegram from Tokio, conveyed to the president assurances of the Japanese government made to him personally that the recent riots in Japan were not anti-American demonstrations. Mr. Taft says the rioting has subsided and that members of his party have not been subjected to the slightest indignity. He expressed confidence that the friendship of Japan for America is abiding.

Secretary Taft says the disturbances in Tokio arose thus: Many of the Japanese were disappointed because their hopes regarding the result of the war had been dashed to the ground. These people in Tokio wished in a peaceable manner to protest on the subject, but the police authorities unwisely and illegally attempted to restrain a legitimate demonstration and thus met with resistance. This created rioting and at once placed control of the movement in the hands of the lowest element and made the mob without conscience.

## COURTMARTIAL OF LUCIEN YOUNG

Mare Island, Cal., Sept. 18.—The courtmartial for the trial of commander Lucien Young, who commanded the United States gunboat Bennington when the boilers of that vessel exploded in San Diego harbor on July 21, convened today. Commander Young Judge Gear, his attorney and a full board were present. Several witnesses were examined.

### PEACE CONFERENCE TO BE CALLED BY RUSSIA

St. Petersburg, Sept. 18.—It is authoritatively announced that the Russian government proposes to address the foreign powers with a view to holding a second peace conference at The Hague. It is known President Roosevelt is desirous that such a conference be called but is of the opinion that the first step in this direction should be taken by the emperor of Russia, on whose initiative the first conference was held.

## BASEBALL

September 18

Southern League. Atlanta 3, Memphis 0. Birmingham 5, Little Rock 1. (first game.) Birmingham 1, Little Rock 2. (second game.) Nashville 0, New Orleans 9. Montgomery 3, Shreveport 3. (ten innings, darkness.) American League. Washington 4, Boston 2. (first game.) Washington 3, Boston 11. (second game.) New York-Philadelphia, rain. Cleveland 0, Detroit 3. St. Louis 3, Chicago 2. National League. Philadelphia-New York, rain. Boston 9, Brooklyn 2. (first game.) Boston 4, Brooklyn 1. (second game.) Chicago 6, St. Louis 2.

## POTTER JURY COULD NOT AGREE

Sandersville, Ga., Sept. 18.—After being out three days the jury in the case of Mare S. Potter, former cashier of the bank of Davisboro, charged with embezzling \$27,000, this morning reported to the court its inability to reach an agreement, and a mistrial was declared.

## NORWAY SWEDEN AGREEMENT IN SIGHT

Mutual Concessions Agreed Upon and Other Conditions are Being Considered.

Karlstad, Sweden, Sept. 18.—The Norwegian and Swedish delegates were in conference for several hours today and adjourned to meet when an agreement is reached on certain points submitted to committee. A certain element in Norway is opposing the proposed terms of agreement thus placing difficulty in the way of the delegates. It is understood that as a basis of agreement Sweden has promised to signed an arbitration treaty as soon as Norway is recognized as a separate state, while Norway agrees to destroy all new frontier fortifications. Other conditions are still under consideration.

## SIMPLE LIFE FOR YOUNG OFFICERS

Washington, Sept. 18.—Only the "simple life" is possible for young army officers according to Major General Corbin, commanding the Philippine division.

In his annual report General Corbin says there is too frequent evidence that there are officers in the service who are unmindful of their financial obligations. The number of complaints on this point, he says, calls for drastic treatment.

### OLDFIELD COVERS FIVE MILES IN RECORD TIME

Syracuse, N. Y., Sept. 18.—In the five mile exhibition auto races at the State Fair today, Oldfield won the distance in 4:38, 25, the fastest five miles of the year.

## SCIENCE WINNING IN FEVER FIGHT

## U. S. DETENTION CAMP NOW LOCATED

Site Selected is Eight Miles South of Flomaton on Government Land.

A detention camp for yellow fever refugees from Pensacola has at last been located. It is eight miles south of Flomaton and is on government land, so no one can enter an objection. The camp is north of McDavid, but when it is ready to receive refugees arrangements will be made for a telegraph office and for the posting and receipt of mail.

Sunday State Health Officer Porter and Surgeon Banks met at Flomaton and commenced the search for a site for the camp. They had formerly found a very desirable location four miles south of Century, but the governor and state health officer of Alabama imagined that the steppes could easily traverse this distance, so they entered a strenuous protest to the surgeon general, and it was ordered that another site be selected. Magnolia Bluff was selected, and when this became known about seventy persons appeared upon the scene and protested against the location of a camp in that vicinity.

Sunday the two officials went out to find another site. Molino was looked over, but another protest was received. Finally in desperation they proceeded to land which the government owned. It is a large tract of land eight miles south of Flomaton and about two miles from McDavid. It is a very desirable location and there could be no protests or interruption, inasmuch as the government owned the property.

They had gone only a short distance, however, before they came to a cottage—a very small one—which had evidently been deserted by the occupant when he saw the officers approaching, but pinned upon the door, was the following: "Notice: All persons are hereby prohibited from trespassing upon this property except by order of the general government."

After reading the notice Surgeon Banks took the initiative and as he represented the general government proceeded to make the inspection, giving Dr. Porter the permission required by the notice posted by the unknown party.

Wyman Notified. Surgeon General Wyman was notified immediately of the fact that a suitable site had been procured, and it is expected some word will be received from him during today. If so the work of erecting the tents will commence at once, and it is hoped to have the camp in readiness during the latter portion of the week to receive refugees. The hospital steward at the quarantine station has been ordered to report to Surgeon Banks for duty at once.

Regulations Strict. While every comfort and convenience possible will be afforded those who go into camp, rules will be very strict. In fact a person entering the camp will not be allowed to depart under any circumstances. The entire camp will be circled by two barbed wire fences, about eight feet apart. Between these two lines armed guards will patrol day and night to see that no person attempts to pass through these two fences. Those who expect to go to the camp and have the liberty of going where they may choose will be badly fooled as the regulations will be strictly enforced.

Seven Days Detention. The period of detention will be seven days from the date of arrival. After that time a certificate will be issued by Surgeon Banks showing that the party has been in the camp for that period and this will be honored by the quarantine officers in other States. The Marine Hospital Service pays all expenses of the camp, furnishes beds, food and other necessities without any cost to the party who may go into the camp.

Inspectors Paid. Yesterday the many inspectors who have been serving for the past two weeks were paid off by Marshal Schad. The men who received pay were those who acted as guards around the cordoned district. The pay for these men came from the State Board of Health, as will the money for those who are now serving as guards around the city.

No New Cases Reported Monday and None Under Suspicion.

### VERY ENCOURAGING

To Physicians and the Public is Present Situation.

ONLY FIVE CASES STILL UNDER TREATMENT IN THE CITY - DR. PORTER PLEASANT WITH SUCCESS ATTAINED IN STRUGGLE WITH SCOURGE—GOOD WORK TO BE CONTINUED.

A summary of the fever situation up to last night is as follows: New cases, none; total to date, 43. Deaths, none; total to date, nine. Cases under treatment, 5; cases discharged, 29.

Another day has passed without a new case of yellow fever, or any new suspicious ones. Today there are only five cases under treatment out of a total of forty-three which have occurred since the outbreak in this city.

The summary as shown above is very encouraging, not only to the physicians, but to the residents in general who believe that the physicians, through faithful work, have at last succeeded in getting the disease under control. This, however, cannot yet be definitely told, as new cases may be developed during the next fourteen days, and consequently the physicians are saying but little, but are keeping a close watch upon every case of fever that may develop in the city.

Yesterday's report, however, was very encouraging. Two days have now passed without a new case, or even without the discovery of a suspicious case, which shows the work of the physicians and those who have been fumigating and screening the city.

Situation Encouraging. "The situation," said Dr. Porter last night, "is very encouraging. In fact a more cheerful air pervades the entire city. As yet, however, it cannot be told whether or not new cases will develop, but I hope that such will not be the case. We can tell later about this."

"The fumigation and screening of all residences is being continued under the supervision of Drs. D'Alemberte and Kennedy, and is very effective and satisfactory."

It was reported to the board that there were several cases of suspicious sickness on East Intendencia street, and being unable to diagnose the cases Sunday night, guards were placed on duty. It was found yesterday that no cases of yellow fever existed at these places and the guards were dismissed.

Those Bulletin. The bulletins which are being posted daily are not authorized by the State Board of Health, and do not come officially from the State Health Officer, except those bearing his signature. Any statement made on the bulletin board by the mayor of Pensacola comes directly from him, and is not a statement or bulletin of conditions as coming from the state health officer or Board of Health.

Inspectors Paid. Yesterday the many inspectors who have been serving for the past two weeks were paid off by Marshal Schad. The men who received pay were those who acted as guards around the cordoned district. The pay for these men came from the State Board of Health, as will the money for those who are now serving as guards around the city.

### Clerk of Marine Hospital Service is an Embezzler

Washington, D. C., Sept. 18.—Secret service officers today arrested James W. Boyd, a clerk in the Public Health and Marine Hospital Service for misappropriating vouchers pertaining to business of his office, by which it is reported he secured, in the last two years, more than twenty thousand dollars.

When confronted with the charge Boyd confessed. He is about forty years old, and married, his wife at present being in Europe.

### As "Hold-Fast is the Only Dog,"

so "keep trying" is the only success-creed. There's a better job for you, if you could fill it, so keep trying to get it in "the want ad. way."
