

AT YOUR SERVICE

We Differ From the Stegomyia Mosquito.

The stegomyia and all other species of mosquitoes only do their work in summer time, and we are told by the experts that Mrs. Stegomyia only bites in the day time.

WE ARE ALWAYS AT YOUR SERVICE.

Fall and Winter, Spring and Summer, day and night, we are working for the interest of our customers. The best of everything for men and boys at the "STANDARD."

C. C. Goodman, Geo. Arnsperger

R. K. WHITE, Watchmaker, Manufacturing Jeweler and Graduate Optician.

TERSELY TOLD.

W. S. Garfield and family are moving into the city from their summer camp on the bay front.

Mr. and Mrs. Selix are the happy parents of a baby boy, born yesterday afternoon at 3:10 o'clock.

Prof. E. O. L. Chaffers, who has spent the past few weeks with friends at Manistee, Ala., returned to Pensacola yesterday.

Officer Fred Humphreys, who has been ill for several days, reported for duty last night. Although not entirely recovered he expects to be able to attend to his duties hereafter.

The work of the city physician having been increased to such an extent that it was impossible for one man to attend to it the Citizens' committee yesterday authorized City Physician Pierpont to appoint an assistant. Dr. Pierpont appointed Dr. E. F. Bruce as his assistant.

Miss Elma MacLay, who has been spending the summer in New Hampshire, will return to the city in time to resume her duties in the schools when they are opened. She was advised by telegraph yesterday that it would not be necessary for her to return at this time.

The work of the spraying gang, which has been disinfecting residence property and vacant lots within the city limits since the fever was first discovered, has been so successful that yesterday Mayor Bliss ordered five more spraying machines, which will be put into service as soon as they arrive.

The fever situation has offered an exceptional opportunity for Julius Daniels to demonstrate his ability as a caricature artist and he has taken advantage of it by producing a large number of card cartoons pertinent to the situation which are being sent out of the city in large numbers.

The board of health of the city of Pensacola will hold a meeting today at 1:30 p.m., for the purpose of considering and acting upon health conditions. The board will probably take some action in connection with the new health ordinance which will be passed by the council at the special meeting today.

Carlise, the lovely little four year old daughter of Mayor Bliss was leaning upon a window sill at the family residence on the bayshore Friday morning, when the heavy sash fell upon her wrist and painfully bruised it. Fortunately no bones were broken although the little tot was suffering great pain last evening the surgeon believes she will be all right in a few days.

A sturgeon weighing 40 pounds was caught off Muscogee wharf last night by J. W. Coons and M. L. Wilkinson, who were spending the evening fishing at that point. The monster was hauled out on the wharf and dispatched, after which it was weighed with the above result. This sturgeon is one of the largest ever caught in this section.

The Journal's correspondents at the relay camps located at Goulding and Escambia, respectively, are sending in some exceptionally interesting news letters. A letter from each one appears in today's paper. These camps have selected The Journal as their official organ and their friends may watch these columns for the official reports of the doings at the camps.

Judge Charles Swaine, who was expected to hold court here for a few days about the first of October, while enroute to El Paso, Texas, where he will hold a term of the United States Court for another judge, will, in all probability, not stop over at this time. A number of important cases are on the docket of his court which will be taken care of as soon as he is through with the work at El Paso, which is expected to be some time in November.

Two favorites everywhere—Blue Ribbon Lemon and Vanilla Extracts. Takes less. Flavors perfectly.

BIG DEAL IN NAVAL STORES

IMMENSE McDONALD INTERESTS AT FAIRBANKS PURCHASED BY C. W. CHASE.

Gainesville, Fla., Sept. 22.—Another deal of more than ordinary importance in naval stores circles has been consummated in this city. C. W. Chase having purchased from J. B. McDonald his immense naval stores interests situated at Fairbanks, and embracing an area of several thousand acres of fine timber, and twenty-three crops in operation. This is one of the most extensive and has proved one of the most profitable turpentine farms in the country. It was established about five years ago by B. F. McCall, who, after working the same a couple of years, sold the property to J. B. McDonald & Co. Mr. McDonald acquired eventually the entire business, and has been operating it continually until the transfer was made to Mr. Chase.

Mr. Chase, the purchaser of this firm, is president of the Dutton Phosphate Company, who are among the most extensive miners of high grade phosphate rock in the United States. He has always been active in building up the commercial interests of this section of the State, and to his excellent business management is largely due the magnificent success of that firm. Always conservative in his business ideas and views, he is regarded as one of the safest directors of large business affairs in the State.

Mr. McDonald could not be seen by the correspondent, hence it is not known what his future plans will be. It is safe to say, however, that he will soon be actively engaged again.

Municipal Court. Ten defendants were before Recorder Laney in the municipal court yesterday. Four were discharged, one case continued and fines imposed upon the remainder amounting to \$7 and costs.

SIGHT OF MANGLED SON CAUSED DEATH

Gainesville, Sept. 22.—As the result of an explosion of a dynamite cap, Reuben Anglin, the ten-year-old son of Tanner Anglin, colored, lies painfully wounded and disfigured for life, and in the same home his mother, Violet Anglin, is a corpse.

The accident occurred about 9 o'clock Friday morning, at the Anglin home, about three miles west of the city. The boy in some manner became possessed of the regular explosive, which has brought so much sorrow to the home. He was striking the cap with a nail, when it exploded with terrific force mangling the lad's left hand so badly that it became necessary to have the member amputated.

But the saddest and most heart-rending feature of the incident was the death of the mother. She was in the house, attending to her regular domestic duties, when the explosion occurred to ascertain the trouble, she beheld her son in his wounded condition, the blood flowing freely. With the utterance of "My God, my boy has been killed," she swooned and fell, and in a few moments expired.

Anglin is one of the most industrious colored men in the county. He has been for many years a faithful employee of Hon. W. H. Robertson, county treasurer, and it was at Mr. Robertson's country home that the tragedy occurred.

The Eagle on the Dollar.

The figure of the eagle on the dollars of 1836, 1838 and 1839 are exact portraits of a famous American eagle. "Peter, the mint bird," he was called by everybody in Philadelphia, and during his life his fame was equally as great as that of "Old Abe," the Wisconsin war eagle, the latter being really a spring chicken when compared with Peter. Peter was the pet of the Philadelphia mint for many years. Finally he was caught in some coining machinery and had the life jerked out of his body in a jiffy. The figure on the coins named above is an exact reproduction of a portrait taken of Peter after he had been stuffed and placed in a glass case in the mint cabinet.

Bismarck and England.

A remarkable utterance of Bismarck is printed in the Paris Gaulois from Emile Ollivier's "L'Empire Liberal." It was made at a dinner at Benedetti's in Berlin, in 1879, at which Prince Napoleon was present, from whom Ollivier got the story. In answer to a remark made by the prince, Bismarck exclaimed: "They are always talking of England! What does England amount to, anyway? A nation exists only by the number of soldiers it can furnish. How many soldiers has England? Perhaps 70,000, or at most 100,000. And you? Half a million. And we? At least as many as you."

"But," said the lawyer, "your case seems hopeless. I don't see what I can do for you. You admit that you beat your wife."

"Yes," replied the defendant, "but my wife's testimony will discount that. She'd never admit that she was beaten."

No Views. Mrs. Gushington—I suppose, now that you have been abroad, you have your own views of foreign life? Mrs. Newrich—No, we ain't got no views. We didn't take no camera; it's so common.

TO BEAUTIFY YOUR COMPLEXION In 10 Days, Use

...NADINOLA... THE UNEQUALLED BEAUTIFIER.

Sold in each city by all leading druggists or by mail. Price, 50c and \$1.00.

Prepared only by NATIONAL TOILET CO., Paris, Tenn. Sold in Pensacola by all drug stores.

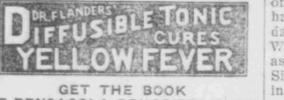

MORE CASES IN PENSACOLA

(Continued from First Page)

given proper attention immediately. This has been exemplified in a number of cases during the present infection, a notable one being that of Mr. Wulfberg, the Norwegian Vice-Consul. In his case he was about the streets for several days attending to his business and died the day following the discovery of the fact that he had yellow fever. In a majority of the cases of yellow fever the patient does not think he is seriously sick, and there is where in the danger lies. The fever in this city is not of a particularly virulent type and if proper attention were given in every case, immediately fever manifests itself, the mortality would be even less than it is at present.

Compared With 1882.

Dr. Byrd commented upon the fact that a feeling prevails in some minds that yellow fever does not exist in the city of Pensacola and said this was due to the fact that the fever was controlled. He cited the fact that, during the epidemic of 1882 the fever cases averaged 25 to 50 per day after the first month of infection whereas

WILL HOLD COURT HOUSE ELECTION

CHIPLEY AND VERNON ARE BEGINNING CAMPAIGN ON REMOVAL PROPOSITION.

Caryville, Sept. 22.—The election on the court house question in Washington county is near at hand, and the voters are at present divided on Chipley and Vernon. The election has been ordered by the county commissioners and the day is October 17th.

The inducements offered by Vernon to retain the site are numerous, one of which is the new building, and all the paraphernalia located there. Chipley stands out before the people with a donation sufficient to attract a large vote, besides its location and business already established. There is likely to be an interesting canvass inasmuch as the leading business men of both places are taking an active part in this contest.

F. M. Snyder, former blacksmith for the Mill Company at Caryville, after an absence of about three years is back again, and is foreman of the blacksmith shop of the Geo. E. Ward Lumber Co.

Chocawhatchee river is quite low and little prospect of a rise, however, the big mill continues to run on full time with plenty of logs by railroad.

STRUCK BY FLYING BELT AND KILLED

The St. Andrews Bury has the following to say relative to the death of Charles Hobbs, which was reported in The Journal a few days ago. At the time of the report it was stated that a message had been received for a man named Bailey, but the item from the Bury would indicate that it was intended for former Superintendent Daley of the German American Lumber Company's plant.

A young man by the name of Chas. Hobbs, in the employ of the German American Lumber Company at Millville, while attempting to replace a belt which had slipped from a rapidly revolving wheel, on Monday last, was struck in the chest by the flying belt with such force that his chest and lungs were crushed to a pulp and he died instantly. The Bury learns that he was a most worthy young man, a nephew of former Superintendent Daley of the German American mill plant.

FRESH CREAM LOAF BREAD DAILY AT WHITE'S RESTAURANT. OYSTER LOAVES A SPECIALTY.

ALL HOPE OF LOST BOY IS ABANDONED

The family of Edward Wilday, the young Orleanian, who was first assistant engineer on the steamship Peconic, lost off the coast of Florida, Aug. 27, have given up all hope of finding him alive, says the New Orleans Times-Democrat. Although the Knights of Pythias of Florida have made every effort to find some trace of the young engineer their searches have met with no success. Mr. Wilday was a prominent member of Washington Lodge, Knights of Pythias, of Hawthorn, Temple, Alabama. Sisters and of the Marine Engineering Association.

Mr. Wilday was formerly second assistant engineer of the United Fruit Company's steamship Beverly, and when the boat went out of commission in New York he signed with the Peconic.

The vessel is supposed to have been caught in a gale while on its way from Philadelphia to New Orleans with a cargo of coal. Herbert Hawthorn, the engineer's cousin, returned to the city from New York yesterday with the information that James Elwell of James Elwell Company, ship agents, returned from the coast of Florida to New York and had given up hope of finding any trace of the vessel or any of the missing crew.

The quartermaster and lookout of the vessel, who were arrested at Ferdinand, Fla., shortly after the news of the disaster was received, have been released from prison as nothing could be proven against them. Edward Wilday was the son of Mr. and Mrs. John Wilday, prominent residents of the Third district of this city. He lived with his parents at 1818 Elysian Fields avenue. Mr. Wilday was 28 years old. Besides his parents he has a sister, Miss Winnie Wilday, and four brothers.

Low rates at Southern Hotel for rooms and board.

now, after nearly a month, the total number of cases had been but 61.

The Detention Camp. No advices have been received regarding the establishment of the detention camp near McDavid and the time when it will be ready to take refugees, if at all, is still undecided. There are a large number of people in the city who desire to leave as soon as the camp is established and some of them are expressing themselves very forcibly in regard to the delay. One gentleman said he was going to telegraph Surgeon General Wyman on his own hook today and see if he could not get some information on the subject.

Rev. P. H. Whaley has tendered his services to those desiring them at funerals of yellow fever victims and will be ready to officiate in such cases whenever called upon.

Quarantine Against Oranges.

A rather amusing feature in connection with the fever situation is the fact that the state of Arkansas has quarantined against oranges from the state of Florida. Out in the wild and woolly west the people have evidently lost sight of the fact that oranges do not grow within several hundred miles of the infected portion of the state, but get a palsy feeling every time the word Florida is mentioned.

ALABAMA REUNION TO BE ABANDONED

POSTPONEMENT OF MEETING OF CONFEDERATES IS CONSIDERED IMPRACTICAL, AND IT WILL GO OVER UNTIL NEXT YEAR.

Montgomery, Ala., Sept. 22.—The reunion of the Alabama division, United Confederate Veterans, to have been held October 25 and 26, will be called off. A postponement was asked but this would throw it so far into the winter months that it would necessarily have to go over to spring, which would interfere with the general reunion slated for New Orleans in the early spring.

The matter was discussed today by Gen. George P. Harrison, commander of the division, and Adjutant General and Chief of Staff Harvie Jones, who met General Harrison here by engagement today. Camp Esbert J. Jones of Huntsville had asked General Harrison to postpone the meeting, but he believes that to postpone would be impractical and thinks it best to call the meeting off altogether.

The conclusion has been reached on account of the unrest incident to the yellow fever situation. It is regarded as impossible to get out anything like a full crowd and there is no use, the officers think, in trying to hold the meeting when conditions are so much against it. Huntsville is so far north that any month after August would be too cold and, as pointed out, it would not do to have it in the spring.

At present there are 112 camps on the list, and the division is in the best of conditions, says Colonel Jones.

Colonel Jones said an official order would be issued in a few days announcing the abandonment of the reunion, unless it should happen that there will be a change in programme which does not now seem at all likely.

Dan Patch Paced Mile in 2:01.

Allentown, Pa., Sept. 22.—Dan Patch paced by two runners, went a mile in 2:01, beating world's pacing record for a half-mile track. Time by quarters: 0:30 1-2, 0:30, 0:30, and 0:30 1-2. An hour later Dan Patch went a mile to a road wagon in 2:05.

Bequests to Elks.

Philadelphia, Sept. 22.—Among the bequests of the late Herman Siebling, who was a wealthy printer of this city, is one of \$50,000 to the Philadelphia lodge, No. 2, B. P. O. E., Mr. Siebling also left \$10,000 to the Elks' national Home at Bedford, Va.

"THINKING FOOD" Eat Grape-Nuts for Brains FACT! as trial proves.

The Journal's Daily Fashion Feature

STYLISH SHIRT WAIST FOR SCHOOLGIRL

Many deep tucks are the smart feature of this design, which is developed in one of the round-headed Irish linens, a pale green being used, and a dainty touch of contrast afforded in the use of a white points coupe embroidery. This is posed flat on the front box plait, and forms the collar and cuffs likewise. The back is arranged with two tucks either side of the centre, these following bretelle lines, and the fullness at the waist line is deftly pleated in beneath those tucks so that it is not visible on the outer side. The fronts have deep tucks occupying the entire shoulder seam, a little fancy stitching run along the edge of each for trimming effect. The sleeve is a full pattern, narrowing from the elbow to the wrist, where the pointed coupe cuff fastens over with an embroidered button. A black velvet ribbon drawn through a gilt buckle forms the belt.

UNIVERSITY OF THE STATE OF FLORIDA

Embracing the following subjects: I. Language and Literature—A four-year course leading to the degree of Bachelor of Arts, Greek is not required, but is offered as an elective throughout the course. II. General Science—Divided into three courses; 1, Chemical course; Mathematical course; Natural History course. No Greek and only entrance Latin is required in these courses. All four-year courses.
