Atlanta, Oct. 20.—"We welcome President Roosevelt, Georgian," was the sentiment expressed in letters, spoken words and thought in the greeting given President Roosevelt in the Georgia capitol today.

The President's special arrived here at ten o'clock this morning on scheduled time from Roswell, Ga., the former home of the President's mother, and when the first citizen of the land and his wife stepped from the train and emerged from the terminal station they were greeted by thousands with deafening applause.

The line of march from the terminal station to the fair grounds was lined with Georgia citizens and their children who cheered the President at every step made by the horses who drew his carriage. The streets over which the parade went were handsomely decorated with portraits of the President, bunting, the national flag and flag of state of which he President's mother was a native. School children sang in his honor along the line of march, and, being a faithful believer in the biblical injunction to "Multiply and replenish the earth," the presence of these younger Americans greatly pleased the President. This was evidenced by the smile which wreathed his face as he bowed with bared head from right to left as the carriage passed down Peachtree street to the fair grounds.

At the fair grounds fully twenty-five thousand persons, as many as could crowd around the speaker's stand, heard the President as he spoke of his pride in the state which gave his mother birth, the industrial progress of the south and the future in store for the cotton planters if they held to their purpose.

After speaking at the fair grounds the President was entertained at an elegant luncheon at the Piedmont driving club at which he was handsomely and eloquently toasted by John Temple Graves to which he responded in one of his characteristic speeches.

A reception and speech at the Theological school followed, then a drive around the city.

The President's special train left for Jacksonville at 7 o'clock.

Mrs. Roosevelt Entertained.

The visit of Mrs. Roosevelt, who accompanied the President to Atlanta, was a feature of the day second only to that of her illustrious husband. Mrs. Roosevelt was met at the train by a delegation of ladies headed by Mrs. Terrill, wife of Governor Terrill, and Mrs. Clark Howell, who, after brief introductions at the station escorted her to the governor's mansion. There over a hundred of Atlanta's

SHIPMERS COMPELLED TO USE PRIVATE CAR LINES

By Associated Press. Washington, Oct. 20.—The existence of exclusive contracts between railroads and private car lines, by which the latter assume the business of refrigerating perishable freight, was brought out strongly today in the hearing now in progress before the inter-

State Commerce Commission. It was developed by the testimony of H. M. Emerson, traffic manager of the Atlantic Coast Line, that shippers would be compelled under these contracts with the Armour car lines, to use this company exclusively or the railroads would not transport their freight.

SIR HENRY IRVING IS LAID AT REST

By Associated Press. London, Oct. 20.—That the death of Sir Henry Irving is considered a national loss is shown by the universal mourning throughout London. Thousands stood in the streets for hours today around Westminster Abbey as the only means of paying a last tribute, while for those who were unable to

get into Westminster Abbey services were held in several churches. The flags on many public buildings, including the American embassy and consulate, were at half mast and hundreds wore crepe bands and black ties. The ashes of the distinguished actor were laid at rest in Westminster today.

FOR PERMANENT STATE CAMP SITE

Commission Adopts Resolutions and Offers of Sites Will Now Be Considered.

Lake City, Oct. 20.—The following official report of the proceedings of the Permanent Camp Site Commission was given out by the commission for publication:

A meeting of the permanent camp site commission, appointed by Governor Broward, under the act of the Legislature of 1905, was held at the Hotel Blanche in Lake City, Wednesday evening, October 18, there being present Senator L. C. Massey, Hon. W. M. Girardeau, Gen. J. C. R. Foster, Gen. C. P. Lovell.

The commission was organized by the selection of Senator Massey as chairman. The following resolution was unanimously adopted: "Resolved, That this commission will recommend a permanent camp site for the Florida State Troops only a tract of land embracing in a body at least three hundred acres, high and healthfully located, with an adequate supply of pure water, preferably on a large lake or stream of running water, and centrally located with regard to railway transportation. Such tract must be located from three to five miles from the nearest city."

The commission then adjourned subject to call of the chairman, it being understood that the adjournment was taken for the purpose of allowing persons who have knowledge of the location of tracts of land, which will meet with the specifications set out in the above resolution, to give notice of the same to the commission through its chairman, Senator Massey, who may be addressed at Orlando, Fla.

The above means that nothing definite is decided in regard to the future site of the encampment. Possibly for some little time to come it will not be known which place will entirely conform to the wishes of the board as to the best facilities offered.

leading society ladies gathered to extend her welcome.

The passing of the great parade was watched by Mrs. Roosevelt from the veranda of the mansion.

Joel Chandler Harris, "Uncle Remus," was a guest especially invited to meet the President's wife at her request. Although today was the first time that either the President or Mrs. Roosevelt had met the well known southern writer they and their children have long been admirers of his work and the visit to Atlanta promised them added pleasure by personally meeting Mr. Harris.

Mrs. Roosevelt's stay was cut short by the early departure of her train for Washington at noon.

Passed Through Macon. Macon, Ga., Oct. 20.—The President's special train passed through here at 10 o'clock. A large crowd was at the station and cheered as it passed.

LOWEST RECORD IN CRESCENT CITY

Only Four Cases of Fever Reported to the Authorities on Friday.

HOPE THAT COLD WAVE PREDICTIONS WOULD BE REALIZED THE DOMINANT FACTOR IN CONSIDERATION OF THE FEVER SITUATION.

By Associated Press. New Orleans, Oct. 20.—Following is the official fever summary to 6 p. m.:
New cases 4; Total to date, 3,352.
Deaths 0; Total to date 435.

EXPRESS ROBBER IS AT PITTSBURG

By Associated Press. Pittsburg, Oct. 20.—E. G. Cunliffe, the Adams Express Company robber, arrived here tonight. A large crowd of people had assembled at the Union Station to see the prisoner but the officers left the train with their man at Homewood, six miles out, and brought him to the city in a carriage.

EXTRA COTTON REPORT NOV. 1

By Associated Press. Washington, Oct. 20.—An extra cotton report is to be issued by the Department of Agriculture on November 1. Secretary Wilson has decided on this plan to meet the complaint of cotton planters that the interim between the October and December reports is too long.

MINNESOTA GRAND JURY EXPOSING CORRUPTION

Northwestern Life Insurance Company Involved in Many Questionable Transactions--Public Officials Implicated.

By Associated Press. St. Paul, Minn., Oct. 20.—Developments in the investigation by the Hennepin County grand jury of the affairs of the Northwestern Life Insurance Company have caused a movement looking to a transfer of the case to St. Paul. The developments indicate payments of money for corrupt purposes made in St. Paul and for this reason the local courts, it is stated, may be called upon to take action. The testimony already placed before the grand jury involves two former state officials in the alleged payment of a five thousand dollar check for the suppression of a report ex-

posing the condition of the company, and a voluntary contribution of five thousand dollars each to the democratic and republican state central committees.

Another state official credited with receiving \$300 in installments of one hundred and fifty dollars each for Sunday work done as clerk. He figured as an expert accountant.

As to the campaign contributions they are said to be vouchered for in a confession made by one of the old officers, but its receipt is denied in the case of the democrats on the authority of Labor Commissioner Williams, who says he was the one to whom the tender was practically made.

RAILROAD WORK AT COTTONDALE

NEW LINE BEING PUSHED RAPIDLY TOWARD THE GULF—400 MEN AT WORK.

Special to The Journal. Cottondale, Oct. 20.—The little town of Cottondale is now on a boom. Work has commenced on the Atlanta, Dothan & Gulf Railroad north of the L. & N. Contracts were let today for the first four miles north of Cottondale to Messrs. Shomaker and Pepler. Many railroad men are here and land is on a boom and selling rapidly.

The health of the town is good. Cotton coming in very slowly. Crops all about gathered and sold. (Gorn crops are fine but cotton is very short.)

The new railroad is a God send to the people of this section. All farm work being done the banis can find employment on the road at good wages. The road is now working 3 to 4 hundred hands and will work one thousand as they are rusing everything to get to the gulf with the road.

Glad to hear of the improvement in the fever situation in Pensacola and hope that it may soon be obliterated entirely.

RESULT OF ELECTION IN VERNON PRECINCT

Vernon, Oct. 19.—The result of the court house election, held in Washington county, Tuesday was, in the precinct, as follows: Chipley 14, Green Head 3, St. Andrews 1, Vernon 156, and Wausau 9.

FEVER RECORD FAVORABLE FRIDAY

Although a Few More Cases Were Reported Than the Day Previous.

PROSPECTS GOOD

For Stamping Out Fever Within a Short Time.

ADVANTAGE OF COLD WAVE, TOGETHER WITH FUMIGATING WORK NOW BEING DONE GIVES ENCOURAGEMENT TO AUTHORITIES—TOTAL CASES WILL BE UNDER 500.

Following is the official summary of the yellow fever situation up to last night:
New cases 12
Total to date 458
Deaths yesterday 9
Total deaths to date 64
Cases discharged 254
Cases under treatment 140

Another favorable report on the yellow fever situation was made last night, although the number of new cases showed a slight increase. The statement given out last night at the office of the State Board of Health was twelve new cases. Two of these, however, were discovered the day previous, but were reported at the office too late to be counted in the report of that day.

The New Cases.

The new cases reported last night are as follows:
Mrs. Collins, 830 DeLeon street.
Edith Collins, 820 DeLeon street.
Thomas Stokes, Jr., 304 East Government street.

Thos. Rivers, East Garden street.
Miss Annie Moon, 104 East Belmont street.

Miss Lydia Rabb, St. Anthony's hospital.
Mrs. Sawyer, 12 South DeVillies street.

Mrs. Geiger, 710 West Gregory street.
Baby Geiger, 710 West Gregory street.

J. N. Barlow, 608 East Wright street.
Mrs. H. C. Witt, 806 West Gregory street.

Florence Byrne, 318 East Intendencia street.

One Death Occurred.

There was one death during the day, although this fact was not reported to the office of the State Board of Health. This one victim was the infant of Mrs. Geiger, residing at No. 710 West Gregory street. Both Mrs. Geiger and the infant were reported Thursday night as having yellow fever, and just before daylight yesterday the infant expired. Mrs. Geiger's condition is considered quite serious. The death of the infant is not included in the official report for the reason that the health officials had not been advised of the death officially.

Prospects Bright.

The prospects for stamping out the disease are very bright at present. The advance of the cold wave, together with the fumigation work now being done, causes Dr. Porter and his staff to believe that it will not be long before the fever is entirely wiped out in Pensacola. The fumigation will begin to have its effect during the early part of the week and the cold wave, which is now being felt will be of great assistance, and will prevent a spread of the disease. The number of cases to develop in Pensacola since the outbreak of the fever is 458, but Dr. Porter stated last night that he did not believe that enough new ones would be found to make the number 500. Or in other words that there would not be forty-two more cases of fever develop in Pensacola.
