R. K. WHITE, Watchmaker, Manufacturing Jeweler, and Graduate Optician, 30 S. Palafox Street, Pensacola, Fla.

### Tersely Told

This is the time of the year when you are cleaning house; that is, you are setting aside the refrigerator to make room for the coal scuttler. Why not try and sell this old refrigerator and buy a larger one next spring? Look around and see if there is anything else that you want to sell and The Journal wants ads will sell them for you.

Pure, strong delicious Blue Ribbon Vanilla goes twice as far as other Extracts. Ask for Blue Ribbon Vanilla and say it plain. There's none just as good.

### NOTICE TO SUBSCRIBERS.

As all clicks registered in this office for failure of delivery of the paper are charged up to the carriers, it is desirable that subscribers be quite certain that the paper has not been delivered before registering such click.

At times complaints comes in from houses at which we are certain the paper has been delivered, and this is obviously unjust to the boys. If you do not get the paper we want to know it; but please be certain.

### SCHOONER MARY C. SAVES SEVERAL PEOPLE

The schooner Mary C. arrived yesterday afternoon from up Escambia Bay, where she was anchored during the storm between Gull Point and Escambia bridge. She brought down several women and children and reported that she had saved several families there whose homes had been blown away.

Oysters at Nick & Co's, Solomon's old stand, 25 cents per doz.

Kodakers, Attention! Fresh lot films, all sizes, just received. Turton & Bell. Sept. 26 3-t.

### EAST BAY MILLS WERE HARD HIT

MANY VESSELS WERE ALSO BLOWN ASHORE ALL ALONG THE BEACH.

A party of East Bay people arrived in Pensacola yesterday afternoon on a launch which J. W. Lowry had sent up for them and reported that that section was hard hit by the storm, although no loss of life is known. The mills of the East Bay Lumber Company, and of the Spivey-Coleman Lumber Company, at Holly, suffered considerable damage. J. W. Coleman of the latter, said that his mill suffered a damage of probably \$2,500, and that ten thousand of his logs were blown ashore. From the mill, he said he counted the wrecks of seven vessels on the beach. Many houses were blown down, as well as a great deal of standing timber.

### TERRIBLE WAS EXPERIENCE OF PARTY

Sheriff Van Pelt and Son, and Mr. and Mrs. Ed. Dunham Suffered Much.

Sheriff Jas. C. Van Pelt and little son and Mr. and Mrs. Ed. Dunham had a terrible experience during the hurricane. They were across the bay on the sound side opposite the quarantine station at Mr. Dunham's place which was destroyed and in addition to the suffering from exposure, they went for two days without food or water.

The home was carried away during the storm and during the night the party became separated. Mr. Dunham after a terrible struggle, wading in water up to his neck and carrying his wife, finally reached the home of his brother, Al Dunham. Sheriff Van Pelt and his little son struggled all night and day in the storm. The sheriff had the boy on his shoulder wading and frequently swimming. Finally the water became so deep that he climbed a tree, where he and the boy remained hanging by the limbs until the waters receded sufficiently for them to resume their journey to Al Dunham's place, which they reached utterly exhausted. The sheriff had his shoulder dislocated and is otherwise badly bruised.

A launch with supplies was sent out yesterday by Chief Deputy Sanders and brought them back to the city.

### THE RELIEF WORK

(Continued From First Page.)

day for that purpose. Food and clothing may be sent there and subscriptions of money may be left there or at The Journal office, News office and any of the city banks.

The Sisters of Mercy busy. The Sisters of Mercy, as they always do in such cases, immediately began work to relieve the needy and they will be glad to receive donations at the convent on South Palafox street and they will make proper distribution of them.

Houses Thrown Open. Many private houses were also thrown open and many who had lost their own homes were cared for in that way.

Pensacola Can Care For Her Own. While the need is great and the relief must be extensive, it is the general sentiment that Pensacola people themselves can take care of the unfortunates in their midst. Outside aid will therefore not be solicited or needed.

### HAPPY RESULTS OBTAINED.

By the Use of the New Scalp Antiseptic.

It wouldn't take long to number the hairs in the heads of some people, the reason being they haven't many to number. In most instances however, the fault is their own. A germ at the root soon plays havoc with the most luxuriant growth and causes it to fade and fall out. A remedy for this has recently been discovered, called Newbro's Herpicide, that acts by destroying the germ that does the damage, besides removing all impurities from the scalp. In addition it permits new life and vigor to enter the scalp and happy results are sure to be obtained from its use. Try it.

For sale by W. A. D'Alemberte, druggist and apothecary, 121 South Palafox street, or send 10c in stamps for sample to The Herpicide Co., Detroit, Mich.

### The Best Shoes at the Lowest Prices

How can we sell them? Because we sell for cash and our rent is lower than the Palafox street shoe stores.

A great deal of our Fall stock has already arrived. We carry nothing but the most up-to-date new goods for men, boys, ladies and children.

Our prices are lower than the lowest; our cash system enables us to undersell all.

PENSACOLA SHOE PARLOR Cor. Intendencia and Baylen Streets

### DANGER IN DELAY. KIDNEY DISEASES ARE TOO DANGEROUS FOR PENSACOLA PEOPLE TO NEGLECT.

The great danger of kidney troubles is that they get a firm hold before the sufferer recognizes them. Health is gradually undermined. Backache, headache, nervousness, lameness, soreness, lumbago, urinary troubles, dropsy, diabetes and Bright's disease follow in merciless succession. Don't neglect your kidneys. Cure them with the certain and safe remedy, Doan's Kidney Pills.

Mrs. F. B. Albert, living at 803 East Belmont street, says: "My mother has used several boxes of Doan's Kidney Pills which she procured at Sidney Kahn's drug store, corner of Romana and Palafox streets. She values them very highly. She has suffered severely from her kidneys and back for years. Doan's Kidney Pills have relieved her of the back ache and made her kidneys stronger and better in every way than they have in many years."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

### NO TRAINS EAST OF CITY FOR DAYS

Trains North Are Resumed, But No Connection Yet With Mobile.

With the exception of the Mobile train, which has been abandoned temporarily, the passenger service between Pensacola and points north was resumed last night, when train No. 2 wet out on schedule time, and it is authoritatively stated that this service will be maintained.

The service east of Pensacola cannot be resumed ever partially for many days, and the local officials cannot make an estimate of the time when trains can be operated over the division, owing to the fact that they know nothing of conditions existing east of the city.

Over the M. & M. division it is expected that the washouts will be repaired and the service resumed by tonight, but this cannot be stated positively owing to wire trouble.

All wires are down between Pensacola and Plomaton and Plomaton and Mobile as well as east of Pensacola. At present all workmen are engaged in restoring communication between Pensacola and Plomaton and the superintendent was advised yesterday afternoon that the wires had been rebuilt half the distance, and that the Western Union men were working south from Plomaton to meet them. It is expected that service will be resumed early today.

The P. & A. division is in far worse condition than any of the others, so far as is known. The rebuilding of Escambia bridge will require considerable time. The officials have advised that while the top of the bridge, with its stringers and all ties, have been carried away, that the foundation remains intact.

Train Dispatches Campbell was sent to Milton yesterday to clear the trains east of that place, which are tied up at various points.

The officials expect that by this afternoon they will be able to advise the public as to when a partial service will be given over the P. & A.

So far as handling the freight is concerned the company will be able to handle everything in a few days. Express shipments can be continued as soon as the wire service is resumed, as the wharves are in good condition to load vessels except the Muscogee wharf, where lumber is unloaded, and the company does not anticipate having any lumber to handle for some time.

### FUNERAL OF J. GEO. WHITE, JR.

The remains of J. Geo. White, Jr., former fire chief of the city, were placed at rest yesterday afternoon, a large number of friends and relatives attending and paying their last and tribute of respect. The services were at the German-Lutheran church and the interment in St. John's cemetery.

Thirteen years ago Mr. White wedded Miss Ethel M. Pfeiffer, and to this union was born one child, Helen Ida, who is now eight years of age. In addition to these, the deceased leaves a mother and father, Mr. and Mrs. J. Geo. White, Sr., five brothers, Otto, E. A., Henry, Walter H., Willie L., and Herman B., and two sisters, Misses Annie E. and Blanche D. White.

For many years the deceased was a conductor on the street railway and was conductor on the first electric car run in Pensacola. Later he was elected to the position of chief of the fire department, which he held for three years.

### THE TARPON AND EDNA C. WEATHERED STORM

Among the few vessels to pass through the storm without damage were the steamers Tarpon and Edna C. Both of these vessels sought refuge between the Commandancia and Tarpona wharves, and to further protect them a bark drifted in from the south, and has penned the two vessels between the wharves so they cannot be moved until the position of the bark is changed.

### 2 LONE FISHING SMACKS ARE SAFE

Out of Entire Fleet in Port, Frances H. and Amy Wixon Only Ones Left.

Only one fishing schooner, out of fifteen which were in port when the hurricane struck here, remain of the fleet of Saunders & Co. The lone vessel is the Frances H., Captain Saddler, and she rode through the storm without a dollar's worth of damage.

This schooner was across the bay, and when the master saw the approaching storm he put out four anchors and made everything fast and ready. The vessel had a hard struggle, but came through safely.

The fourteen other vessels are on the beach, some badly damaged, and are scattered from the Country Club up to the city and across the bay. There are still many fishing vessels out at sea, and it is probable that when the captains saw the hurricane approaching they made for the nearest port, and it is thought that many of them have been saved.

Warren & Co. Saved One. Warren & Co. can boast of but one smack which rode the gale safely. This is the Amy Wixon and she now rides at anchor directly south of the wharf, with not so much as a piece of rigging harmed.

Another one of the Warren vessels—the Algona—suffered no damage but the breaking of her bowsprit.

### GRAND BENEFIT PERFORMANCE

TO BE GIVEN AT THE OPERA HOUSE TO-DAY, UNDER AUSPICES OF CITIZENS RELIEF COMMITTEE.

Two grand benefit performances will be given at the Opera House to-day by the Jewell Kelly repertoire Company, under the auspices of the Citizens Relief Association.

The management of the Opera House donates the scenery, lights and etc., while Mr. Kelley's excellent aggregation of histrionic talent will press the button and do the rest.

Both performances—matinee and night—will be given under the auspices of the Relief Committee, whose representatives will preside at the box office and ticket taker's gate.

One-half the gross receipts are to go to the Citizens Relief Committee, and one half to the house and company.

The bill for the matinee will be "Little Lord Fauntleroy," while at the night performance "The Whirl Family" will be presented.

Popular prices will prevail. Both performances will be given at the usual hours.

In view of the fact that 50 per cent of the gross proceeds are to go to the storm sufferers, and that Mr. Kelley's company has itself suffered not a little from its enforced idleness since the storm first set in, a liberal and generous patronage should be given both of these notable performances by the big-hearted and public-spirited citizens of Pensacola.

### White Bread Starves Many People

A piece of bread that is dry, white and very light in weight seems to the thoughtful person like so much foam or other useless and non-nourishing product.

If one rolls a piece of moist, light bread or the interior of a biscuit between the fingers, a ball of dough is the result, with an appearance of solidity that makes one question how the gastric juices of the stomach can dissolve such a wad.

It is small wonder that such food creates havoc in the way of fermentation, gas and consequent disorder.

Many persons will find great help by leaving off the ordinary bread entirely, and using in its place Grape-Nuts, in which the starchy and nitrogenous substances have been thoroughly and perfectly cooked at the factory before being sent out.

There is no possibility of this food assuming the form of wads of dough. On the contrary, it is already pre-digested, the starch of the grains has been changed into sugar in the process of manufacture and passes quickly and directly into circulation.

Grape-Nuts furnish the elements needed by the system to rebuild particularly the soft gray matter in the brain and throughout the nerve-centres in the body. This statement will be verified by its use. It is delicious enough to recommend itself upon trial. Made in the pure food factories of Postum Co. at Battle Creek, Mich.

Come early for first pick.

## T.H. LANNON & CO.

### STEAMER FLORIDA ARRIVES WITH TOW

REMARKABLE CRAFT HAS SAFELY WEATHERED THREE GREAT STORMS.

The steamer Florida, Capt. Philip Ward, arrived at the city yesterday about 6 p. m. with a tow of lumber lighters from Choctawhatchee Bay. When the storm struck, the Florida was in the narrows and she made fast there to trees on the shore and waited until the wind and sea abated, then proceeding to Pensacola.

### MRS. S. L. CLIFFORD HAS PASSED AWAY

Mrs. Isabelle Clifford, wife of Capt. S. L. Clifford, a most highly esteemed lady, passed away at her home in this city early yesterday morning, after suffering for many months. While her death was not unexpected, it was nevertheless a shock to her relatives.

Mrs. Clifford leaves three daughters, all married, and three sons, besides numerous other relatives, to mourn her loss.

### Church Services.

Rev. Thomas M. Calloway will conduct services at the Palafox Methodist church both morning and night Sunday. The morning subject will be "The Lessons of the Storm," and at night the "Gracious Invitation."

### The Sewing Room.

A sewing room depends upon the extent of the industry carried on therein. The more important things which will make it a comfort and a pleasure to work in are an old pier glass, which you can either hang or have mounted, and, if possible, a discarded piece of furniture of the "dresser" variety, which will give a mirror to stand opposite it. This can be turned a little so that it is possible to get a full length view both back and front. A table long enough to hold a skirt can be found in a kitchen table often, and, by having an extra leaf put on the back, you can "square" it when an extra large table is wanted. This shape and size are especially called for when doing a circular skirt. With scrapbasket, workbasket and a hamper for keeping rolls of linings and materials that are left, bits of which may be wanted any time, and with a low folding table and one low and one high chair, and the machine, your sewing room is equipped.

A manikin and a tree rack, which garments can be hung on when half finished, are also great helps.

A much larger amount of sewing is apt to be accomplished in the house in which there is a place where half finished work can be left, as it is possible to take advantage of every bit of spare time, which never would be done if things had to be got out.

### Mind the Frock.

Do not overrate your power of mind and underrate that of your pretty frocks, says a modern philosopher, and while he may excite the scorn of some strong feminine minds there is not a little evidence that many women of emancipated aspirations have already taken unto themselves this gem of wisdom.

### PENSACOLA CLASSICAL SCHOOL.

Preparatory School for Boys and Girls.

Seventh Annual Session Begins September 17th. Entrance Examinations September 14-15.

The Features of the school that have made its work successful are: It receives a limited number of pupils—never more than can be thoroughly taught. Its instructors are men specially trained for their work in the best colleges and universities of our country. It cherishes and maintains the highest ideals of scholarship and manhood and womanhood.

This is one of the few preparatory schools in the South whose curriculum is high and varied enough to prepare for entrance into any of the collegiate departments of the great universities and technical schools. The school has student representatives in many of the leading universities, where, without exception, they have made good records.

In every instance where its graduates have entered on a regular collegiate course they have been admitted to the sophomore class, and have taken high class standing.

Prof. Walter Miller, professor of Green at Tulane University, said of the school: "It secures thoroughness of training comparable with that afforded by the great fitting schools of the East, to my mind the Pensacola Classical School is one of the very best secondary schools of the South."

For further information, address

H. CLAY ARMSTRONG, Principal, PENSACOLA, FLORIDA.
