## MISS BELL DISCUSSES TALLAHASSEE TOPICS

Convention of Women's Clubs a Notable Event of the Week.

Attorney Peter O. Knight of Tampa Is Interviewed.

THE ANOMOLOUS OUTCOME OF THE DRAINAGE QUESTION—GOVERNOR BROWARD ELECTED ON THAT ISSUE AND THEN TURNED DOWN.

BY MISS JEFFERSON BELL. Tallahassee, Nov. 26.—The week has been unusually full of interest at the capital. The convention of the State Federation of Women's Clubs which has been in session since Tuesday, brought into our midst a number of the brightest women of the state.

Tuesday evening there was a brilliant reception at the Leon Hotel tendered the visiting clubwomen by the hostess club, and the spacious lobby and parlor of the famous old hotel was thronged with a distinguished assemblage. The motif of the decorations was the colors of the local woman's Club, white and green, carried out in chrysanthemums, smilax and bamboo. In the breakfast room where turkey salad, olives and saltines were in orange and green, the decoration colors. The reading room was in white and green, and here, from a splendid cut glass bowl set in a wide wreath of smilax, punch was served during the evening.

In the parlor Mrs. Thomas Mitchell Shackelford, president of the Tallahassee club, stood at the head of the receiving line. Mrs. Richard F. Adams of Palatka, president of the state federation and the visiting clubwomen making up the receiving party.

### NO COFFEE

The Doctor Said. Coffee slavery is not much different from alcohol or any other drug. But many people don't realize that coffee contains a poisonous habit forming drug—caffeine.

They get into the habit of using coffee, and no wonder, when some writers for respectable magazines and papers speak of coffee as "harmless." Of course it doesn't paralyze one in a short time like alcohol, or put one to sleep like morphine, but it slowly acts on the heart, kidneys and nerves, and soon forms a drug habit, just the same, and one that is the cause of many overworked ailments.

"I wish to state for the benefit of other coffee slaves," writes a Vt. young lady, "What Postum Food Coffee has done for me.

"Up to a year ago I had thought I could not eat my breakfast if I did not have at least 2 cups of coffee, and sometimes during the day, if very tired, I would have another cup.

"I was annoyed with indigestion, heart trouble, bad feeling in my head, and sleeplessness. Our family doctor, whom I consulted, asked me if I drank coffee. I said I did and could not get along without it.

"He told me it was the direct cause of my ailments, and advised me to drink Postum. I had no faith in it, but finally tried it. The first cup was not boiled long enough and was distasteful, and I vowed I would not drink any more.

"But after a neighbor told me to cook it longer I found Postum was much superior in flavor to my coffee. I am no longer nervous, my stomach troubles have ceased, my heart is fine, and from 105 lbs. weight when I began Postum, I now weigh 138 lbs. I give all the credit to Postum as I did not change my other diet in any way. Name given by Postum Co., Battle Creek, Mich. Read the little book, "The Road to Wellville," in pkgs. There's a reason."

the parties," he said, "the lines of demarcation are entirely obliterated. Hearst, LaFollette, Folk, Bryan, Roosevelt, they are all alike. It is a period of revolution and unrest, but I have faith enough to believe that things will work out alright in the end. Under the law every man has an equal chance and it will be the survival of the fittest. I have a piece of poetry here that fits my case. Let me read it:

"Once I Was a Democrat." Once I was a democrat Now I don't know where I'm at Everything's so blooming mixed Nothing's settled, nothing's fixed, All the leaders in a fight, Nothing seems to be alright, Things go on from bad to worse, Towne is fighting Billy Hearst, Grover Cleveland stays at home, Everybody knocks Jerome, Horrid things are said of Parker, Prospects keep on growing darker.

Beveridge in language hazy, intimates that Bryan's crazy, Murphy says he'll stay in line, Hearst yells "none of him in mine." Not a voice is raised in yellin' For the once acclaimed McClellan, Joe Folk hasn't many friends, Everything's at odds and ends, Bryan gets another jawful, Hurl's opinions simply awful, Even Watson's making signs, Up and down the skirrnish lines, Once I was a democrat, Now the Lord knows where I'm at."

"The drainage situation is really comical," said Mr. Knight. "It was the issue in the campaign and Broward was elected on it. Then when he attempted to carry it out he was turned down, there's nothing to feel badly over, it really is comical."

Mr. J. O. Wright, of Washington, has been here this week compiling some data from the records in the executive office relative to the Everglades. Mr. Wright is employed by the United States department of agriculture and has charge of the government survey of the Everglades. He left Thursday for South Florida and will at once put a corps of engineers in the field to begin the work of surveying the Everglades.

Mrs. Chandler, by mistake, took a dose of carbolic acid. Fortunately she discovered her mistake while it was still in her mouth. Beyond severe burns she is uninjured.

Mr. W. A. McDavid was in town Saturday.

### SAGE LEAVES.

Special to The Journal. Brent, Nov. 24.—We have had a very long-winded and dewless week. The forecast threatened rain and cold waves, but it was almost hot, up to Thursday, when the mercury fell to a normal fall temperature. We had two short sprinkles and one light drop of rain.

Perhaps the rushing water across Santa Rosa Island's new canal has contributed to the unusually high tide at the Pensacola wharves.

R. F. D. on route No. 2 is on the run, but we are not all in line yet.

Mr. Milton Clopton is building a new house for Mr. Tucker, near the church at Brent. He has a bright prospect of country building, indefinitely.

Pensacola's First Daily. When I was going through the literature at the old homestead in Ohio I once found a copy of the first daily paper published in Pensacola—"The Echo"—by Geo. W. Turton, dated Feb. 15, 1878.

I remember it as the "biggest" thing in town at that time—but it looks like a mere toy paper now. It will make an interesting relic for exhibition in the new office of The Pensacola Journal.

## BOARD OF WORKS IN SPECIAL SESSION

Call Upon the Architect for Result of Test of Soil of City Hall Site.

The Board of Public Works held a special meeting last night with Mayor Bliss, Chairman Zellus and Mr. Daniell present.

The minutes of the previous meeting were read and approved and the reports of Inspector Hill on the work on the city hall up to November 22 were then read and approved and, on motion, his services as inspector were ordered discontinued for the present.

Mayor Bliss was instructed to confer with the chairman of the Board of Safety and the chief of the fire department and consult an architect for the purpose of preparing specifications for remodeling the two-story building at the corner of Zarragossa and Commandancia streets, and converting it into use for the city fire department.

**Information Wanted.** The following resolution was introduced and passed after which the board adjourned:

"Resolved, That the architect for the new city hall be required to furnish this board, without unnecessary delay, the following information regarding the tests of soil required to be made by the contractor for the new city hall:

"First. How many tests were made? Second. On what dates were they made? Third. On what part of the trenches prepared for the foundation were they made? Fourth. Were you present in person when the tests were made? Fifth. If not, did you have a representative present, and if so, who was he? Sixth. Furnish this board with the particulars of such tests, showing how they were made, what compressibility of soil was discovered and the levels taken at different periods of the tests."

**Bilious Attack Quickly Cured.** A few weeks ago I had a bilious attack that was so severe I was not able to go to the office for two days. Failing to get relief from my family physician's treatment, I took three of Chamberlain's Stomach and Liver Tablets and the next day I felt like a new man.—H. C. Bailey, Editor of the News, Chapin, S. C. These tablets are for sale by all druggists.

**Trial of Thaw.** New York, Nov. 26.—The trial of Harry Kendall Thaw, the slayer of Stanford White, will probably take place during December or January.

## RHEUMATISM AN ACID BLOOD POISON

Rheumatism is an acid blood poison, and the causes that produce it are often silently accumulating in the system for years. Poor digestion, stomach troubles, weak kidneys, torpid liver, and a general inactive condition of the system leaves the refuse and waste matter, which should be carried off, to sour and form uric acid, which is absorbed into the blood. When the blood is in this acid-charged condition, it deposits the poisons and irritating particles with which it is loaded in the muscles, nerves, joints and bones. Then Rheumatism gets possession of the system, and life is made miserable by its pains, aches and discomforts. The changing of the weather, exposure to cold and dampness, etc., always increase the trouble, and so severe does the pain become that quick relief must be had. A good liniment or plaster is often helpful, but it should be remembered that relief from such treatment is only temporary, because the trouble is in the blood and cannot be removed by external applications. S. S. S. cures Rheumatism by ridding the blood of the cause. It goes down into the circulation and by invigorating and purifying the blood of the acid-poison and sending a stream of fresh, rich blood to all parts, relieves the pain, reduces the inflammation, and permanently cures this painful disease. S. S. S. is the only safe treatment for Rheumatism, because it does not contain a particle of mineral in any form to damage the system. Book on Rheumatism and any medical advice desired sent free. ## A GOOD SIDEWALK

Gives the most ordinary property an appearance of substantial value. A poor one can ruin the effect of the handsomest house and grounds. You don't want any ragged edges to your property.

Among good sidewalks a well laid concrete one is easily best. Lasts longer, costs less for repairs and adds an air of solid dignity and worth.

We lay such sidewalks and back every one with our guarantee. May we estimate on yours?

## SOUTHERN HOTEL EAST GARDEN STREET

MANY ADS WERE CROWDED OUT

Home-cooked Thanksgiving Dinner at the Southern Hotel. You are invited.

The Journal apologizes for having been compelled to crowd out so many advertisements from its Sunday issue, but it was inevitable. The Journal's large force of men were kept busy until the last minute setting up ads but it was impossible to get them all up and several columns of ads were left out. Even, however, had it been possible to get them up in type, it is doubtful if they could have been squeezed in on account of the lack of space. As it was several columns of interesting reading matter was also crowded out. In future, every precaution will be taken to avoid a repetition, and if necessary, the number of pages will be increased to accommodate The Journal's advertisers. Advertisers are again urged to send in their copy early to insure proper attention.
