

Remedies are Needed

Were we perfect, which we are not, medicines would not often be needed. But since our systems have become weakened, impaired and broken down through indiscretions which have gone on from the early ages, through countless generations, remedies are needed to aid Nature in correcting our inherited and otherwise acquired weaknesses. To reach the seat of stomach weakness and consequent digestive troubles, there is nothing so good as Dr. Pierce's Golden Medical Discovery, a glyceric compound, extracted from native medicinal roots—sold for over forty years with great satisfaction to all users. For Weak Stomach, Biliousness, Liver Complaint, Pain in the Stomach after eating, Heartburn, Bad Breath, Belching of food, Chronic Diarrhea and other Intestinal Derangements, the "Discovery" is a time-proven and most efficient remedy.

The genuine has on its outside wrapper the Signature

You can't afford to accept a secret nostrum as a substitute for this non-alcoholic, medicine of known composition, not even though the urgent dealer may thereby make a little bigger profit. Dr. Pierce's Pleasant Pellets regulate and invigorate stomach, liver and bowels. Sugar-coated, tiny granules, easy to take as candy.

FELL 20 FEET BUT IS UNHURT

THRILLING DESCENT OF WOMAN WHO WAS CAPTURED AND SENT IN ON CHARGE OF BEING DRUNK AND DISORDERLY.

Georgia Wright, a woman of the red light section, was sent to the station last night on the charge of being drunk and disorderly. The arresting officer reported that she had taken a fall of about twenty feet while in her intoxicated condition, but after being locked up showed no signs of having been hurt. While she was awake, she prayed alternately to the Lord and Judge Johnson, who will sit on the case this morning.

DAMAGING FIRE AT WARRINGTON

RESIDENCE OF AARON HERSCOVITZ TOTALLY DESTROYED, WHILE STORE IN ADJOINING BUILDING WAS BADLY DAMAGED.

A destructive fire occurred at Warrington, starting at 11:30 a. m. yesterday. The fire started in the attic of the home of Aaron Herscovitz, who has a brother in this city, and before

it could be stopped the entire residence was burned and the store belonging to the same man in an adjoining building was badly damaged. The fire was discovered at the hour named and spread with great rapidity. Able assistance was given from the Warrington fire department and marines and employees at the navy yard, a block or two distant. The stiff wind then prevailing served to fan the flames into a fury and the home was soon doomed to destruction. The loss was given as about \$18,000, with very little insurance. People who were in the city last night and who saw the fire said that they never saw a fire spread with such rapidity.

UPON REQUEST, SOLDIER GAVE OFFICER GUN

SUSPECTED OF CARRYING CONCEALED WEAPONS, ARTILLERY MAN SURPRISED POLICEMAN WHEN LATTER ASKED ABOUT PISTOL.

"Ain't you got a gun in your pocket?" asked Officer Allison last evening when he met E. R. Dillup, an artilleryman from the post. "Oh, yes, here it is," replied Dillup, and pulling the gun from his pocket, so the report went, he handed it to the officer. The latter then arrested Dillup for carrying concealed weapons.

The incident, which had a tinge of humor about it, was reported from one of the lower seats yesterday afternoon. Dillup, it seems, had been pointed out as a man who was armed. The officer walked up to him, and the question and reply quoted above was said to have occurred. Dillup, unable to furnish bond in the sum of \$150, spent the night in a cell at the police station.

The pistol which was taken from him is a cheap one, and when the officer received it, the weapon was unloaded. He was not drunk when locked up, but when he reached the station it was seen that he had been having a good time with a number of his companions, who were in the city following the distribution of monthly pay at the post yesterday. He has never been in the city court before, it was stated.

There were a number of soldiers from the post in the city last night, and three had been arrested up to the hour of midnight. The only one having a charge of serious nature against him, however, was Dillup, who was said to have produced the pistol from his pocket when the officer asked him the question.

FATAL AFFRAY NEAR BONIFAY

EMORY WILLIAMS SHOTS AND KILLS SEAB, CRUTCHFIELD—HAD HUNTED TOGETHER ALL DAY AND QUARRELED AS THEY SEPARATED.

Special to The Journal.

Bonifay, Dec. 9.—A killing occurred about 7 o'clock Tuesday night, about ten miles north of Bonifay, near the Williams school house, when Emory Williams shot Seab, Crutchfield, who died immediately. Both parties were said to be under the influence of whiskey. They had been hunting together all day, and when about to separate began to argue and each offered and did put away their guns to fight fair. Crutchfield advanced on Williams, it is said, with a knife, when Williams shot him with a pistol.

Judge Turner of Noma, was notified, proceeded to the scene and held an inquest over the dead body of Crutchfield. The jury returned a verdict that Williams was not justified.

Today Williams was given a hearing before county Judge Hathaway, who discharged him.

CHARLESTON'S WAR ON LOTTERY OPERATIONS

Special to The Journal. Charleston, S. C., Dec. 9.—The lottery war is waging. With the arrest by the police of a negro on the charge of vending police tickets the struggle was begun. A noon day the day they reached the police station an attorney appeared, promptly putting up a cash bond and demanding trial by jury. This confirms the rumors that the lottery operators intended to carry the matter to the courts, claiming, it is said, that if the illicit liquor dealers and gamblers are allowed to forfeit bail and depart, they are entitled to like treatment. An interesting struggle between the police and lottery operators and vendors seems to be close at hand.

NO ACTION IS GIVEN IN CASE OF TREASURER

PUBLIC DEEPLY INTERESTED IN MATTER BROUGHT PROMINENTLY BEFORE COUNCIL BY THE FINANCE COMMITTEE'S REPORT.

Although action was looked for, expected and anxiously awaited, the mayor did not take any in the case of the city treasurer yesterday, following the report of the finance committee transmitted Wednesday night by the finance committee chairman to the council.

Mayor Reilly fully understood the way the council stood on the matter. It was he who first brought to the attention of the body the fact that the treasurer was under no bond and that the city was uninsured by virtue of that fact. Inquiry at the city hall at the closing hour last evening, however, elicited the information that the mayor had taken no steps in the matter.

The case, however, will not be allowed to drop. Of course, the council will again hear from it. The mayor is empowered to prefer charges against any officer pending his removal, or two members of the city council may prefer charges. These allegations will be investigated at a sitting of the council, either in regular or called session. The city attorney has advised that this will be the procedure in case of the final removal of the officer.

The full resume as transpiring in the council chamber and as printed in The Journal Thursday morning was read with close interest. The treasurer got much sympathy because of his physical condition, but the majority of people maintained that the city should by all means be secured. The law requires it, and it should be done, was one frequently expressed opinion.

It was said in some quarters that the treasurer would be able to make a bond if the present sum were cut in half, and if the same arrangement for the handling of funds exists in the future as is now the case there will hardly be any opposition, it was asserted, to the lowering of the bond. This, it was stated, will have to be done by ordinance, in the same manner as the increase was made a few months ago.

NO HOOKWORMS IN THE U.S. ARMY

By Associated Press. Washington, Dec. 9.—"In spite of its vast economic importance in the Southern states, the hookworm disease does not affect greatly the health and efficiency of the army."

That is the conclusion of Surgeon General Thorne, who makes the disease the subject of considerable comment in his annual report to the secretary of war. More than 50 per cent of the Southern bred recruits were infected, but on second or subsequent enlistment only 15 per cent were infected.

CITY OF AUGUSTA SUES THE SOUTHERN RAILWAY

Special to The Journal. Augusta, Ga., Dec. 9.—The city council of Augusta today entered suit for \$50,000 against the Southern Railway company for the destruction of a city bridge which spanned the Savannah river. The suit was filed in the federal court.

The city bridge was destroyed by the flood of 1908, and the city alleges in the petition that an old bridge, spanning the river just above the city bridge, which was the property of the Southern Railway and which had been condemned by the federal officers of this district, was first washed from its piers and hitting against the city bridge caused the city bridge to be washed off its piers also.

The Southern Railway bridge had been abandoned by the road, and it was in bad repair. The suit will be heard next April before Judge Emory Spear.
