

HAS GOD A PLAN FOR EVERY LIFE?

SERMON THE SUBJECT OF REV. EUGENE R. PENDELTON AT THE FIRST BAPTIST CHURCH SUNDAY MORNING.

Rev. Eugene R. Pendleton had as his subject Sunday morning, "Has God a Plan for Every Life?" and spoke as follows:

Text: "We are God's workmanship." Eph. 2:10 (cp. Heb. 3:4; Psa. 100:3; 1 Jn. 3:2).

In the tangled web of human life there is a plan, a design by which every soul may shape his life? How can one know what is that plan...

First, that an uneducated child has one chance in 150,000 of attaining distinction.

Second, that a common school education increases his chances nearly four times.

Third, that high school training increases the chances of the common school child twenty-three times, giving him eighty-seven times the chance of the uneducated.

Fourth, that a college education increases the chances of the high school graduate nine times, giving him 219 times the chance of the common school child, and more than 800 times the chance of the uneducated.

This analysis is corroborated by the fact which has been tabulated by the colleges after careful observation, namely, that ninety per cent of the college bred men make a success in life work; whereas, among college bred, ten per cent fall while ninety per cent make good in their various occupations.

With such facts as these before him a young boy or girl might think that he would find the schools the key to unlock the golden chamber of success, but we must bear in mind these figures deal only with the outward life, the mere material, social phases.

Within the breast of some of those four hundred may be as much gloom, and great remorse, and dire anxiety as ever fell with blighting shadow over a human heart, and the outward success may be but a mask for a life of woe.

It is God who picks him up, and it is God who puts faith in him, and aspiration and impulses by which he may climb.

God's Skill Shown in Selecting the Blocks for His Temple.

He sees not as man seeth. God looks upon the discordant life and sees the possibilities for beautiful harmonies.

In the rough, jagged, and discordant, and in various other ways as a great master-builder engaged in constructing a temple, the blocks of which are human hearts, and human characters, which he takes out of the devil's quarry of sin as an artist might take a rough block and make an angel out of it.

It is God who picks him up, and it is God who puts faith in him, and aspiration and impulses by which he may climb.

God's Skill Shown in Selecting the Blocks for His Temple.

He sees not as man seeth. God looks upon the discordant life and sees the possibilities for beautiful harmonies.

and now he will play on his \$5,000 one. Why the potter takes some clay and not other and makes vessels of honor, is in part a mystery which belongs to him, but even the figure used sheds some light upon the problem.

God made a wonderful machine when he made man. Take the human hand alone—all the machines, the steam ships, the railroads, the beehing factories, the swift electric car, the aerial machines—all possible so long as the human hand remains the machine of all machines.

But the devil has gotten into this human machinery. It jumps and slips and is full of curious inconsistencies and weaknesses according to the purposes for which it was made.

This requires renovation or recreation by the same one who made it. You go to the typewriter or automobile factory and you are offered what are called rebuilt machines.

God's manufactory is full of rebuilt lives and is just as practical as the other, only it is a mystery to us, but so is the other. It's all recreated in Christ Jesus for good works.

God's Skill is Shown Even More in Shaping These Blocks for His Temple.

He sees every block that he can, and will not let the loss of any. There is room in His temple for every human life that ever came into being.

There seems to be so many blocks lying around lost to their use, but it is not so. It is in His hands.

For some time I had a very serious case of kidney trouble and I suffered with backaches and dizzy headaches. I had specks floating before my eyes and I felt all tired and miserable.

I saw Foley Kidney Pills advertised and got a bottle and took them according to directions and results showed almost at once. The pain and dizzy headaches left me, my eye-sight became clear and today I can say I am a well woman, thanks to Foley Kidney Pills.

W. A. D'Alemberte, Druggist and Apothecary, 131 S. Palafox St.

dent of Cleveland, was today cited for contempt. He is charged with having published the names of the men indicted in connection with the legislative bribery case.

YOUR NEIGHBOR'S EXPERIENCE How you may profit by it. Take Foley Kidney Pills. Mrs. E. G. Whiting, 369 Willow St., Akron, O., says: "For some time I had a very serious case of kidney trouble and I suffered with backaches and dizzy headaches. I had specks floating before my eyes and I felt all tired and miserable. I saw Foley Kidney Pills advertised and got a bottle and took them according to directions and results showed almost at once. The pain and dizzy headaches left me, my eye-sight became clear and today I can say I am a well woman, thanks to Foley Kidney Pills. W. A. D'Alemberte, Druggist and Apothecary, 131 S. Palafox St."

A lot of old newspapers, tied up in neat bundles, for sale, 5c a bundle, at The Journal office.

The block of marble lying peacefully in its mountain quarry may rebel against hammer and chisel, and cry out in protest against the work of the sculptor, but the artist sees a divine madonna in it and chips away until the future ages stand in rapt amazement at the workmanship.

We may be sure God is a workman who never makes a mistake. Somewhere in London, an artist was laughed at for making a great mistake. He made a female angel. He did not know that all the angels in Heaven are male. He was a critic, a skeptic and a skeptic are on God's work and sometimes things are charged to him he did not do. He never allows sin nor dwinks at evil, and if any man thinks he is led into temptation by the Lord, he is making him better, he is deceived. God is no Jesuit.

He sees things in our lives which need to be corrected, a growing arrogance, it may be, a self conceit which needs to be disappointed; a wrong ambition which needs to be checked; a secret sin which needs to be chastened by suffering to overcome it; and all the time the block cries out against the chisel but the work goes on, apparently without regard to our wishes. Our life plan is ruthlessly ruined, but in place of our there comes up God's though we may rebel against it all our lives, and in the end we are obliged to see that this is the better for us. Christ is for all.

God's skill cannot be judged by fallible men, especially during the process of manufacture.

The church is so to speak the manufactory of saints. Here are made the church of Christ chosen all sorts of promises. "He shall give His Angels charge over you." No temptations shall overtake you but He shall make a way of escape."

But to look upon the church with unsympathetic eyes and pass judgment upon the work before it is completed is as foolish as to judge an architect by the scaffolding and debris and piles of material as he is working on it. He says: "That doesn't look much like a fine house to me." He is unable to comprehend, lacking in ability to understand. It would be just as foolish for the Lord to make him looking on the church. You do not expect to hear music in a piano factory. The church is a place for folks and not angels, and as long as it has folks in it there will be discord in its music. However, he loves the sea, and is haunted by adventures of his kind. He has recently published a pamphlet consisting of the story of his life. In this pamphlet are published a number of his poems, which he has written on the subject nearest to his heart, the sea.

"The Lone Mariner" has been here before and is well remembered by a number of people who are glad to see him again.

If Your Head Aches You should Take the Sure Remedy HICKS' CAPUDINE

There's a cure for every headache—Capudine. It's the only remedy that cures quickly, whether it be head, tooth, ear, or stomach troubles—and cures even though it be sick or nervous headache.

Capudine is the surest remedy for Colds and Grippe. Feverishness, Aches and Nervousness disappear and normal conditions are restored.

Capudine is liquid—easy and pleasant to take—note immediately.

By Associated Press, Columbus, Ohio, June 12.—J. C. Madara, of Cleveland, indicted for offering a bribe to a senator in connection with the loan shark bill, which passed the cent legislature, appeared in common pleas court today and gave bond for \$1,000.

Success in Strength Not in Brains

Many men with ordinary brains make huge successes, while many brilliant men are failures because they lack the nerve, motive power—otherwise called steam, vim, snap. Most men and women should take a safe and effective nerve-investigator and blood purifier every once in a while to "recharge their batteries," for what can you do when your strength vanishes, no matter how brainy you may be?

If you have Nervous Trouble of any sort, tired, you cannot sleep, no appetite, Kidney or Liver Trouble, or Rheumatism, you should take a course of Make-Man Tablets at once.

Make-Man Tablets are wonderful builders of nerve-strength and purifiers of the blood. The first box will do you a lot of good. They are absolutely the best medicine for men and women and children, because they give a splendid, youthful tone to the nerves, quicken the brain, dispel worry, give a keen edge to the appetite and sound refreshing sleep. Trial treatment free on request. Make-Man Tablet Co., Dept. 14, Chicago. Sold at 50c and recommended by The Crystal Pharmacy, 25 South Palafox street.

New York, June 12.—William Randolph Hearst, proprietor of the New York Journal, through his attorney, Clarence J. Shearn, has brought suit for libel for \$100,000 against Robert J. Collier, proprietor of Collier's Weekly, because of an article appearing in the magazine which says in part: "Every manager knew that the Journal offered a page advertisement and a Tribune editorial for \$1,000. Eriehane is an employee. Whatever blame there is in this policy must rest on Hearst."

The issue in which this article appears has for its cover a portrait of Hearst on a yellow background. Mr. Hearst states in his complaint that the attack on him is the outcome of a legal dispute in which Collier's sued him for alleged breach of contract and for which settlement was urged, though it never came to trial, although Mr. Hearst claims to have been willing to go to trial with the suit. Failing to settle what he claimed to be an unjust demand, Hearst alleges that Collier employed Will Erwin to write attacks on him and that the paragraph referred to was written to injure him.

CENTRAL FIGURE IN LIBEL SUIT FOR HALF A MILLION DOLLARS

WILLIAM RANDOLPH HEARST

New York, June 12.—William Randolph Hearst, proprietor of the New York Journal, through his attorney, Clarence J. Shearn, has brought suit for libel for \$100,000 against Robert J. Collier, proprietor of Collier's Weekly, because of an article appearing in the magazine which says in part: "Every manager knew that the Journal offered a page advertisement and a Tribune editorial for \$1,000. Eriehane is an employee. Whatever blame there is in this policy must rest on Hearst."

Failing to settle what he claimed to be an unjust demand, Hearst alleges that Collier employed Will Erwin to write attacks on him and that the paragraph referred to was written to injure him.

Here's a Lesson on the Fly.

- 1. Do you want to see flies again? No. Why not? 2. Can you prevent the coming of flies? Yes. How? 3. Where do flies live? In filth. 4. Is there anything too filthy for a fly to eat? No. 5. (a) Where does the fly go when it leaves the manure heap, the cesspool and other filth? Into the kitchen and dining room. (b) What does it do there? It walks on the bread, fruit and other food; it sticks in the butter and bakes in the milk. 6. Does the fly visit the patient sick with typhoid fever, consumption and cholera infantum? It does and may call on you next. 7. What diseases does the fly carry? It carries typhoid fever, consumption and other diseases. How? On its wings and hairy feet. 8. What names should be given to the fly? Typhoid fly; filthy fly; dangerous fly. 9. Did the fly ever hurt any one? It carried typhoid fever and other diseases to a large number of people last summer and it will do it again this summer if we are not very careful to kill the fly first. 10. (a) Destroy all the filth about the house and yard. (b) Put lime into the cesspool every day. (c) Cover the manure bin. (d) Screen the house. 11. Kill the fly in any way, but kill the fly. 12. If there is filth anywhere that you can not remove, call the office of the board of health.

JUNE WILL BE BUSY MONTH IN SHIPPING

Forty-Five Steamers to Load or Discharge Cargoes During This Period.

These are in addition to a number of sailing vessels, which are under charter to load—over fifty million feet of lumber and timber to be moved—July will also be good month.

June will be one of the busiest months in shipping circles in the history of the port. Forty-five steamers and a number of sailing vessels, including a few which have already arrived, are to load cargoes or discharge them at this port during this period.

Eight vessels are coming with cargoes, mostly of kauri from Germany, leaving thirty-seven steamers to take cargoes out. There are a number of sailing vessels also under charter and they will arrive during this month to load lumber and timber.

It is estimated that the movement of lumber and timber from the port during June will exceed 50,000,000 superficial feet, the largest outward movement for one month to be made in number of years, and will afford plenty of work for a large force of baymen and others who make a livelihood along the waterfront.

July will also be a good month for work, but not as many vessels are under charter as for this month.

5 or 6 doses "666" will cure any case of Chills and Fever. Price, 25c.

A CURE FOR ECZEMA

What Lenoir's Eczema Remedy did for Mr. Allen it will do for YOU.

LENOIR'S ECZEMA REMEDY

It is an absolute and positive cure for Eczema and all skin diseases. It relieves immediately, supplies the skin with nourishing food and builds up new healthy tissue.

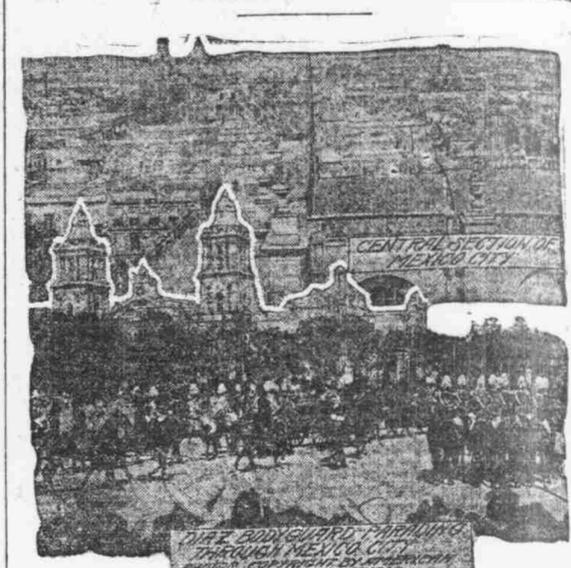

Cleanses the affected parts of fat tar or pure castile soap and wash with dry purity and apply the remedy. Avoid friction caused by rubbing or scratching.

Price 50c and \$1.00 at all drug stores. The \$1.00 size contains 3 1/2 times the quantity of the 50c size.

Prepared by CRYSTAL PHARMACY, Pensacola, Florida. Prepared Only by CAWTHON-COLEMAN CO., Selma, Alabama.

A RUSH FOR GOLD. Nome, Alaska, June 12.—A rush has begun from here to Ruby Creek, Melot and the Kuskowin river districts, where gold strikes are reported. The spring clean-up in the Nome district is estimated at \$400,000.

CENTRAL SECTION OF MEXICO CITY

CITY BOARD OF HEALTH HELD A BRIEF MEETING

GREATER PORTION OF BUSINESS WAS LAID OVER UNTIL NEXT MEETING WHEN BOARD WILL BE COMPLETED AND REORGANIZED.

The city board of health held a brief session last night in the office of the city clerk, but did not dispose of much business, almost everything being deferred until the next meeting which will be held as soon as convenient after the meeting of the council Wednesday night and the meeting of the board of public works the latter part of the week. This was done because the new board will not be completed until after the meeting of these bodies.

Those present last night were: Mayor Frank Rielly, chairman, Dr. Blocker, Dr. Hargis, Dr. Nobles and W. L. Moyer.

The dairy ordinance which was referred to this board by the city council at its meeting of March 8th, was laid over until the next meeting, in order to allow the new board to discuss it and make whatever recommendations the members see fit.

W. L. Moyer called the attention of the board to the need of an amendment to the ordinance relating to the removal or hauling of slops, fish heads, etc., through the city and stated that he would request the city attorney to draw up an amendment to the ordinance.

Dr. Blocker directed the attention of the city health officer to the fact that in the vicinity of the distillery on West Wright street, just inside the city limits, breeding places for mosquitoes are being caused on account of the slops, etc., being thrown out by the distillery.

Dr. Blocker also asked the health officer to require the property owners in the neighborhood of St. Michael's cemetery to clean up their property, the city having done its part toward the clearing up of the swamp just south of the cemetery.

A communication from Dr. E. F. Bruce, former health officer, was read. The communication stated that in accordance with the resolution of the city council, the largest outward movement for one month to be made in number of years, and will afford plenty of work for a large force of baymen and others who make a livelihood along the waterfront.

July will also be a good month for work, but not as many vessels are under charter as for this month.

NEWS AND VIEWS OF THE STATE PRESS

We Respectfully Object. In the discussion of available candidates for governor of Florida, the Tribune has noted, with much interest, the favorable and frequent mention of the name of Hon. R. Hudson Burr, chairman of the State Railroad Commission. The Tribune does not know Mr. Burr's personal opinion in the matter, whether or not he desires to be considered in this capacity. But the Tribune does know that Mr. Burr's change of base from the State Railroad Commission to the governorship would prove disadvantageous to the best interests of the people—not that he would not make a good and an acceptable governor, but because his value to the state in his present position is so great that it would be a distinct loss to Florida to have him change to any other sphere of action.

Mr. Burr has made the State Railroad Commission a vital and an effective force in Florida. He has made it a valuable asset of the people and, by dint of keeping strictly "on the job" with an ever-vigilant and ever-watchful regard for the interests of the commonwealth, the railroad commission has at last become a power in the development of Florida. The Tribune has had occasion to know the sort of work that Mr. Burr does for the people in his present capacity. The people of Florida never had a stronger or a more faithful champion than the chairman of the railroad commission. We want to see him remain there and continue the good work he has been doing. We

Correct—Attest: C. BRENT, WM. H. KNOWLES, THOR. W. BROWN, J. J. FORTNER, W. J. FORTNER, My Commission expires April 13, 1914.
