

TROOPS TO BE HOME ON EARLY SPECIAL TODAY

CAMP WAS BROKEN SATURDAY NIGHT AND TRAIN WITH WEST FLORIDA SOLDIERS LEFT JACKSONVILLE YESTERDAY.

Company I, Florida State Troops, of Pensacola, should arrive from the encampment near Jacksonville, early this afternoon. A special train bearing the companies from the western part of the state left Jacksonville yesterday afternoon about 5 o'clock and is expected at the passenger depot in Pensacola this morning about 9:30 o'clock. Twelve days ago the local company left this city the first of ten or twelve companies to board a special train bound for Jacksonville. Practically every West Florida company boarded the special at the respective home points between here and River Junction, where the train of a dozen cars was turned over to the S. A. L. by the L. & N. railroad company. The S. A. L. will handle the special to River Junction, and a double header will probably be used to pull the special in this direction, dropping car after car at the home stations of the respective companies. The encampment this year was held at Black Point, about seven miles from the city of Jacksonville, and the Pensacola boys have shown in advance of arrival that they have enjoyed the outing very much. Regular soldiers have been encamped with the state troops as "instructors," which was an added attraction and interest to the state troops.

MADE A RECORD IN DISCHARGING CARGO OF ORE

OVER SEVEN THOUSAND TONS OF IMPORTED PRODUCT WERE UNLOADED WITHIN LESS THAN A WEEK AT PENSACOLA.

Employees of the Gulf Transit Company and officers of the steamship concerned are yet talking about the quick dispatch which was given the big steamer Kalimba, which arrived Saturday, a week ago, from India, with a cargo of 7,500 tons of manganese ore, for inland points. Although the steamer reached here on Saturday, not a great deal of work was done until Monday, and the following Saturday, July 18, the steamer had been emptied and steamed up to another wharf, where the big vessel is today loading a cargo of timber and lumber. The entire lot was discharged from the Kalimba at a berth on the west side of Commandancia wharf, and the consignment of 7,500 tons was piled 30 gondola cars. When it is considered that this product is heavy and must be handled carefully, the feat of loading the entire lot of cars in sufficient number to make up ten long trains, is all the more remarkable. The entire shipment was consigned to importers at Birmingham, and the statement was authorized that more than one cargo will be routed through the port of Pensacola once the Panama canal is opened and ready for business. This steamer, leaving the port of Bombay, was routed through the Suez canal, stopping but at one point during the long voyage, this being at Algiers, in the northern part of Africa, for coal and supplies.

CHINA TAKING AN INTEREST IN FIELD SPORTS

EVIDENCES OF GREAT AWAKENING OF INTEREST IN ATHLETICS THROUGHOUT CELESTIAL KINGDOM BECOMING KNOWN.

BY ASSOCIATED PRESS. Shanghai, July 19.—Evidences of a great awakening of interest in athletics throughout China have been reaching Shanghai, which is to be the place of holding the Far Eastern Olympic games next October. Enthusiasm is at such a pitch in some quarters that it is said to be only a matter of years—perhaps only a few Olympiads—when Peking shall be the scene of the world's Olympics. It was a striking instance of the new order of things when, from May 13 to 22, last, the historic Temple of Heaven grounds, for centuries past dedicated to the exclusive use of the emperor, were thrown open for a national athletic meet at Peking. This was preliminary to the organization of a strong team for the Far Eastern meet of Shanghai next fall. To facilitate the organization, the empire was divided into four sections, north, east, south and west, with each section represented by an athletic association. The competitors were for the most part from mission colleges, government schools, and the Young Men's Christian Association. The honors showered upon the students who led the field in the mar runs or did the 100-yard dash in ten seconds, recall the fact that it was only a few years ago that the scholastic ideal in China was altogether that of the long-gowned youth with hares in sleeves and philosophic countenance bent to the ground. Government officials, from President Yuan Shi Kai down, have expressed their hearty interest in the games. An appropriation of \$5,000 has been authorized for them, and the president will offer a trophy for the winner of the Decathlon. The first Far Eastern Olympic meet was held at Manila in February, 1913, when the Philippine athletes under American tutelage won the greatest number of points. But the Chinese delegation was second, and there is seemingly a good chance for their winning first place this year. The Philippines, however, are to send a force of 65 athletes to Shanghai, and the Japanese, with their characteristic energy are busy developing men worthy of the island empire. The picture of the Philippine state of Siam is also to be represented with swimmers, tennis players and track men. While the International Olympic Games Committee is inclined at first to view the Far Eastern Olympic games idea as that of a conflicting organization, the Far Eastern Association has since become affiliated with the International games committee, and has asked China to send a representative to the next meeting of the committee at Berlin. A further bond has been established by the presentation on behalf of the Olympic Games Committee of a perpetual trophy to be held by the nation winning the greatest number of points in the Far Eastern championships.
