AMUSEMENTS.

It is an unusual thing to see a theatrical attraction in Columbus in August, but Mr. Locke, the lessee of the local theatre, is a progressive manager, and when Messrs. Thurner & Gorman, managers of Herrmann the Great, who opens most of the principal theatres in this section of the country, expressed a desire to include Columbus in the list, he accepted their proposition, and the opening occurred last Tuesday night in the presence of a large audience, the lower floor being well filled and the gallery being taxed to its utmost capacity.

Herrmann has appeared here before, and while some of his tricks were seen on the occasion of his former visit, he performed a number of feats and presented several illusions which were entirely new, among them being the Asiatic Miracle of the Orient and the Ariel Mystery, the Levitation of Princess Mahomeda. Both of these were received with much applause, and even the tricks which the magician had previously performed here seemed to greatly please the audience. The specialty of the Musical

Goolmans was fairly good, and the music furnished by the house orchestra, consisting of Prof. Levin, Mr. J. T. Champneys and Miss Claudia Blumh, added materially to the pleasure of the occasion.

MALARIA AND YELLOW JACK

From N. Y. Herald, January 14, 1902. "The widow of Dr. Lazare, who, in the employ of the Government, went to Cuba, was inoculated with Yellow Fever through mosquito bites, and died, applied to Congress for relief to-day." The above tells of the sad culmination of a series of experiments by the Government, all of which proved conclusively that the familiar mosquito is a dangerous vehicle for carrying malaria, "Yellow Jack," and other malarial fevers.

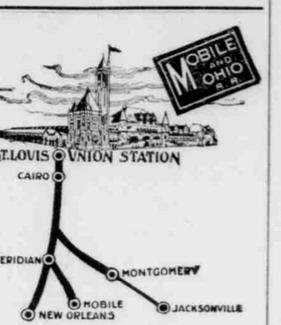

Those who are exposed to mosquitoes or other malarial influences should take warning. Iron is the fighting element in the blood and provides nature with sufficient resistance to ward off disease. But if the blood is impure or impoverished, or if there is weakness, it means that the fighting qualities of the blood have been lowered, and consequently there is danger. If you would escape, keep the blood pure and properly nourished with

Dr. Harter's Iron Tonic

It supplies the blood with iron in a natural way. It is recognized everywhere as the best blood purifier and tonic in use, and it has been used for half a century. Houston, Tex., Aug. 1, 1901. "I have used Dr. Harter's Iron Tonic myself and in my family for over twenty-five years, and can heartily recommend it. I regard it as particularly valuable to ward off malarial and other fevers." J. H. HAYES, Land and Emigration Agt., Frisco Line. (\$5,000 guarantee that above testimonial is genuine.)

The Love Story of Michael Angelo.

Had Michael Angelo not been the world's greatest sculptor he would still have been preeminent in all times as one of its supremely great painters, and apart from either of these things, he is the most sublime architect of modern times at least, and a poet so great, so deep delving in his vision, so mighty in his spiritual conceptions, so great in his use of language that even Wordsworth confessed himself unable to grasp his sonnets sufficiently to render them in English rhyme. Into the life of this sad old man of sixty-four years, the greatest of all Italy, but the loneliest, came Victoria Colonna, one of the most beautiful and cultured women of all time. Their love story is an exquisite idyl and is told with infinite grace and charm by Clara E. Laughlin in the Delineator for September.
