My reputation for fair dealing and reliable goods, coupled with the De Laval record of service and durability, has made the De Laval Cream Separator the leader in this community.

COST—That's what you put into a cream separator.
VALUE—That's what you take out of your cream separator.

Value in a cream separator depends upon the amount and the quality of service you get out of it.

Because it lasts fifteen to twenty years the De Laval is the most economical cream separator to buy. If you consider its cleaner-skimming, easier running, greater capacity and less cost for repairs, the price of the "cheapest" machine on the market is exorbitant in comparison.

With present high butter-fat prices and the scarcity of labor this is truer than ever.

We'll sell you a De Laval on such easy terms that it will pay for itself out of its own savings. We want to see you the next time you're in town.

SOONER OR LATER YOU WILL BUY A

BONDS ARE APPROVED.

Mr. W. A. Deale, secretary and treasurer of the city, received a telegram from Mr. John C. Thompson on yesterday, stating that the bonds which the city issued for the purpose of refunding the seventy thousand dollars for water and sewerage bonds, were ready for final approval by the bonding company upon receipt of a few official certificates which Mr. Deale prepared to forward.

The bonds were bought by the First State Bank here and were resold to northern bonding companies.

ST. PATRICK'S DAY.

Monday was St. Patrick's day, observed all over the world by loyal sons of Old Erin in honor of Ireland's patron saint. The element of our population here which is of Irish descent, is small and there was no celebration or observance here, other than the wearing of the green in honor of the occasion by those who are Irish and those who revere the history and achievements of that country and its people. Boutonnaires and green carnations, shamrocks, etc., were generously worn by our people.

ATTENDING GROUP MEETINGS.

Mr. Gaston presided at the Tupelo meeting yesterday and goes with his group to Laurel and New Orleans today. The bankers will spend several days in the Crescent City, which will be a rendezvous for the various group sections.

Turn One Bag of Feed Into 50 Lbs. of Pork

One 100-lb. bag of International Makmeat Hog Feed costing about \$3.25 should put 50 extra pounds on a shoat. To make the same gain with corn would require 6 1/2 bushels and cost about \$10.00. So, every bag of Makmeat Hog Feed saves you \$6.50, because it makes your hogs ready for market thirty to sixty days earlier.

INTERNATIONAL MAKMEAT HOG FEED

Sell grain at the present high prices. Then buy Makmeat, the cash will buy twice as much nutriment as is contained in a shoat. The world needs grain. It is high in price. But, International Makmeat Hog Feed is made of materials which are not needed by man—tankage, flaxseed meal, middlings, wheat bran, corn feed meal, rice bran, velvet bean meal and salt.

For growing or fattening pigs—for brood sows—it has no equal. Contains more than twice as much protein as corn; costs less.

Used as a part-ration, it reduces your feeding costs, makes your hogs ready for market earlier, saves corn, keeps hogs in condition. Ask your dealer. If he cannot supply you, write us direct.
