The business failures occurring throughout the country during the last seven days number 404, as compared with 374 last week.

The preparations to make the Farmers' Institute, which is to assemble at Memphis, January 6, 1891, a success are being vigorously pushed by the managers.

THE Idaho Legislature on the 18th elected Gov. Shoup, W. J. McConnell and Fred T. Dubois, United States Senators. Shoup and McConnell short term, and DuBois the full term.

THE December returns to the Department of Agriculture on the value of the plantation are nearly the same as last year. But puts Mississippi on top. The figures are as follows:—Virginia, 8.7 cents per pound; North Carolina, 8.7; Georgia, 8.6; Florida, 8.6; Alabama, 8.6; Mississippi, 8.8; Louisiana, 8.8; Texas, 8.4; Arkansas, 9.5; Tennessee, 8.8.

THE United States Supreme Court by its recent decision has settled one of the most important questions before the American people, and removed all doubts concerning the authority of States, and municipalities to regulate or even prohibit the retail liquor traffic. It says, in effect, that the right to sell intoxicating liquor by the glass is not an inherent and inalienable right of citizenship but a privilege which may be given, denied, withdrawn or restricted according to the interests of the community.

The Manufacturers' Record of December 13, says: The organization of new manufacturing enterprises in the South goes steadily on, notwithstanding the severe financial stringency which restricts all business operations throughout the country. The indications are favorable for an early improvement in money matters, and then we may look for a very decided increase in activity throughout the South. With money troubles promptly settled, the coming spring would show great developments than have yet been seen in this section.

The issue of standard silver dollars from the mint during the week ending Dec. 20, was \$705,535.

FOR CHANCERY CEERK

HERNANDO, MISS., Dec. 23, 1890.

CAPT. SLADE:—I desire space in your paper, to say to the good people of our county, that I have decided to submit my name for their consideration, in connection with the office of Chancery Clerk. Now, I am due an explanation, to several gentlemen whom I have told that I would not be in the "scramble". For ten years I have been closely confined to the work in this office, and denied, the pleasure, of going out and mingling with the people, as I often desired to do. My duty to my employer, and the public, will demand my constant presence and services here, as in the past, until the expiration of Judge WEST's term of office. I had been advised, that it would be folly, to announce myself a candidate, and then stay at home, and stick to business. Now, I think this a reflection upon the intelligence of our people. I am not a stranger to this people. They know of my services in this office, and can judge of my qualifications and efficiency. I have no other claims to offer; neither appeal upon personal grounds, nor assumption of obligations, pertaining to organized brotherhoods—sectarian or secular; only submitting myself, to the action of the Democracy, of the county, to cheerfully abide its decision.

It is essentially a business matter. The office is to be filled by a servant elected by the people. I am an applicant for the position; but have neither the time nor inclination, to make a house to house canvass, and beg, bore, or importune my friends, for their votes—I will not believe they desire this. If I am shown to be the choice of the majority, I shall feel highly honored and truly grateful; otherwise, no bitterness shall rankle in my bosom—no soreness under my hat. I am in to stay, but no scramble in mine. I have business—work to perform, every day.

My formal announcement will appear in due time. This is rather previous, but I must set myself right, and get even with the boys.

Yours truly,  
J. M. CLARK.

A good egg food for feeding once or twice a week is to boil a quart of beans to a thick soup. Then thicken with ground oats, wheat bran and fine meal, with a little salt and pepper. Feed warm these cold mornings the fowls will eat it greedily, and the beans furnish quite a large proportion of nitrogen for the albumen of eggs.—Fancier's Journal.

WELLINGTON'S MODESTY.

The Unostentatious Way in Which He Announced the Victory at Waterloo. Earl Stanhope's volume of "Notes on Conversations with the Duke of Wellington" furnishes many interesting anecdotes, which are not yet familiar to the reading public. Lord Stanhope tells the following story of Daniel Webster:

I breakfasted this morning with Hallam, and met Mr. Webster, the justly celebrated American, whose acquaintance I had already made the day but one before at a dinner at Lord Stanley's. He told me that on his way out he had been reading two or three odd volumes of the Duke of Wellington's dispatches, and had been greatly struck at their total freedom from any thing like pomp or ostentation, even in moments of the greatest triumph. The Waterloo dispatch itself contained nothing about "victory and glory." So unpretending was it, said Mr. Webster, that Mr. Quincy Adams, who was our Minister at London at the time, and who had a good deal of bitter feeling against this country, with which peace had only just been concluded, declared, on first reading the dispatch, that it came from a defeated General, and that in real truth the Duke's army must have been annihilated at Waterloo. This he seriously believed for some time. What a contrast, continued Mr. Webster, to Napoleon's rhetorical bulletins. One day one read in them: "We have thrown Blucher into the Bober!" and a few days afterward one found that Blucher had somehow got out of this Bober and defeated Napoleon himself at Lepsic.

Lord Stanhope gives the Duke's version of the way the news of Waterloo was brought to England, thus: "The news of Waterloo was first brought over by a Jew in the service of Rothschild. He embarked at Ostend, and nobody on board the vessel knew of it but he. The way he got at it was this: He was at Ghent, looking in with a crowd at the window, when a messenger arrived to the King of France, and he saw that the King, after reading the letter, embraced the messenger and 'kissed him all around the room and all about the house.' Upon this the Jew felt sure that the news was a victory, and without an instant's delay set off upon his journey to England. At Ostend he saw Malcolm, but told him nothing, nor did he to any one until he reached Rothschild's house in the city. He afterward went to Lord Liverpool. Lord Maryborough added that before they sailed from Ostend they saw a dragon run down to the beach, take off his cap and wave it in the air. The other people on board all wondered what it could mean, and none guessed; but the Jew had still the composure to keep his secret."

A Wonder Worker.

Mr. Frank Huffma, a young man of Burlington, Ohio, states that he has been under the care of two prominent physicians, and used their treatment until he was not able to get around. They pronounced his case to be Consumption and incurable. He was persuaded to try Dr. King's New Discovery for Consumption, Coughs and Colds and at that time was not able to walk across the street without resting. He found before he had used half of a dollar bottle, that he was much better; he continued to use it and is to-day enjoying good health. If you have any Throat, Lung or Chest Trouble try it. We guarantee satisfaction. Trial bottle free at J. T. M. Smith's Drugstore.
