

The gold reserve in the United States treasury is down to \$72,000,000.

Judge Thos. L. Nugent, of Fort Worth, the Populite leader of Texas, died at his home Dec. 14. He was a brother of Judge W. L. Nugent, of Jackson, Miss.

Josiah Quincy, the recently elected Democratic Mayor of Boston might well be called Josiah III, his father and grandfather having in years past held the same position.

The National Democratic Executive Committee has been called to meet in Washington on the 16th day of January next to fix the time and place for holding the national convention to nominate candidates for President and Vice-President.

The Clarion-Ledger says that it has been suggested that all the county superintendents of education meet in Jackson on January 14th to consider certain very important matters bearing upon the educational interests of the State.

Secretary Carlisle has sent in his report to Congress on the financial condition of the country, which is but a re-statement of what Mr. Cleveland said in his message on the opening of Congress, and which all of our readers are familiar with.

Judge Allen G. Thurman died at his home in Columbus, Ohio, on the 12th of this month at the age of 81 years. He was one of the ablest jurists and statesmen this country ever produced, and his private and public character was without a spot or blemish. The whole country has sustained a great loss in the death of A. G. Thurman.

Representative Barrett, of Massachusetts, created quite a sensation in the lower house of Congress by introducing resolutions demanding the impeachment of Ambassador Bayard, representing this government in England, for certain language used by Mr. Bayard in a recent speech delivered by him in England and Scotland which language Mr. Barnett claims was an insult to the American people. The resolutions are generally regarded as buncombe and that probably nothing more will be heard of them.

Mr. Cleveland has sent a special message to Congress with reference to the trouble between England and Venezuela concerning certain territory now in the possession of the latter country and which the former claims as belonging to her, in which he vigorously sustains the Monroe Doctrine, which means that England must submit to arbitration or fight. Every true American citizen will sustain the President in this position even if it results in war, which event, however, we do not anticipate, as we believe that when England sees that the American people stand firmly on the Monroe doctrine and are willing to fight for its principles she will consent to an equitable adjustment of the ownership of the disputed territory.

As will be seen elsewhere in our columns, the Board of Mayor and Aldermen have taken steps to issue interest bearing bonds, for the purpose of erecting a new and commodious brick building for the graded white school of our town. That such a building is absolutely needed will not be denied by any one who has at heart the welfare of our children and the upbuilding of our town. The present building is entirely too small and in such a dilapidated condition that it is hardly fit for use. The increased taxation that will be necessary to pay off the bonds will be so small that it will hardly be felt, and in fact, as we believe the erection of such a building will so increase the population and thereby increase the value of our real estate, that by the time any tax would have to be collected to pay off the maturing bonds that the present rate of taxation would not have to be increased at all. Therefore we hope our people will unanimously endorse the action of the Board, and show to the world that we are fully abreast with the progress of education and that we want good people who are deprived of school facilities to move in among us, buy property, become identified with our interests, and it won't be many years before we will have the best town in the State. No school in the State has an abler faculty than the Kosciusko white Graded School, and with a proper building there is no reason why we could not build up one of the largest graded schools in the South.

In the Times-Democrat of Monday under the head of "What May be Done in Congress" this week its Washington news says that speeches are promised on different subjects before the Senate, and among others on Senator Peffer's bill relating to funerals. We suppose that bill has reference to the death and burial of the Populite party, and we think that the Senate chamber of the United States a very proper place for the funeral of the deceased to be preached.

A fire in Greenwood last Monday night destroyed the Delta Bank building and several stores.

DIED.

Mrs. Mary C. Moore was born in Anderson District, S. C., in Nov. 1831, and married Mr. H. F. Moore in this county in 1848, and died in Kosciusko Dec. 17, 1895. Mrs. Moore was a sister to M. A. and B. A. Clark, of this county, and has several brothers living in Texas. She united with the Methodist church in 1843 and from that time to the day of her death never swerved from the path of a faithful, dutiful Christian life. She was deeply loved by all who knew her as truly a mother in Israel. To her aged and sorrowing husband and relatives we offer our deepest sympathy in this sad affliction. The funeral services were held in the Methodist church here, conducted by Rev. J. C. Park, and the body laid to rest in the city cemetery Wednesday evening.

"A spirit pure as hers
Is always pure, even while it errs—
As sunshine broken in the rill,
Though turned aside, is sunshine still."

Last Thursday night, Mrs. Lucy J., wife of W. S. Ritnour, died after a lingering illness of two months.

Mrs. Ritnour was about 24 years old and had been married about two years. She was a most devoted wife and zealous christian, being a consistent member of the Baptist church of this place. In her last moments she said that the future was clear before her, and showed by unmistakable evidence that she had made no mistake in putting her trust in her Saviour, and no doubt she could have truly said as the life tide was fast ebbing out "it is well with my soul." To her sorrowing husband we extend

our deepest sympathies and commend him for strength to support him in his sad affliction to the same Saviour in whom she so lovingly trusted.

The burial took place at the city cemetery Friday evening, Dec. 13th. Rev. T. N. Rhymes performing the funeral services.

The Play.

The play last Wednesday evening by the Conway Dramatic Co., was largely attended by the pleasure loving people of this city and was heartily enjoyed by all those present. The play was a five act comedy entitled "Under the Laurels," followed by a very laughable farce in one act. We judge from the hearty laughter and frequent applause that the talent was appreciated and the play enjoyed by the audience. The company has decided to remain over and will play at the Opera House tonight (Thursday.) All those desiring to attend can secure seats at Crowder & Edmunds.

Deafness Cannot be Cured

by local application, as they cannot reach the diseased portion of the ear. There is only one way to cure Deafness and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing and when it is entirely closed Deafness is the result and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces. We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free. F. J. CHENEY & Co., Toledo, O. "The Common People."

As Abraham Lincoln called them, do not argue about their ailments. What they want is medicine that will cure them. The simple, honest statement, "I know that Hood's Sarsaparilla cured me," is the best argument in favor of this medicine, and this is what many thousand voluntarily say.

Hood's Pills are the best after-dinner pills, assist digestion, cure headache, 25c.
