Beyond Description

Intense Suffering With Muscular Rheumatism.

"I hereby certify that for seven years I was troubled with my knee. I used prescriptions and liniments but all to no purpose. The trouble kept growing worse and the joints began to enlarge. My knee became almost stiff and pained me so I could not rest day and night. I had to use

Crutches at times and often it would seem as if I would have to have my leg amputated as the pain became almost unendurable. I suffered beyond description. Finally, hearing of Hood's Sarsaparilla I concluded to try it. After I had taken one bottle I felt much better and after taking several bottles can say I am well, and that I can walk and go around as well as any one of my age. I am 63 years old and work my farm, and my ability to do so I attribute to the beneficial effects of Hood's Sarsaparilla. I advise all who are afflicted with rheumatism in any form to take Hood's Sarsaparilla." EZRA BENEDEICT, Stromsburg, Nebraska.
