

DR. HULL'S FEVER AND AGUE PILLS

A certain and speedy cure for Fever and Ague. THE extensive prevalence in this country of that troublesome disease, FEVER AND AGUE, or, INTERMITTENT FEVER, and the vast amount of suffering and distress which it has occasioned, has naturally led to the adoption of many compounds and mixtures for its mitigation and relief. Among these some few have been found temporarily beneficial in particular cases while the great majority are not only utterly useless, but absolutely deleterious—in many instances operating as stimulants to the disease intended to be cured. In other cases the deleterious nature of the ingredients used in these empirical compounds, has been found extensively prejudicial to the constitution, not unrequently in other affections of a highly dangerous character.

It must be evident to all persons of reflection, that FEVER AND AGUE, to be treated successfully, must be approached scientifically, and with a full knowledge of the peculiar character of the disease, and particularly of the leading causes of its appearance. Though differing materially in many of its features from other fevers, INTERMITTENT FEVER, OR FEVER & AGUE, is almost always accompanied by a deranged and sometimes an irritable condition of the digestive apparatus. This condition is indicated by a quick pulse, thirst, pain in the head and loins, and other evidences of fever.—To afford the desired relief by the adoption of a medicine calculated to operate upon the digestive organs, remove the afflicting disease, and correct and improve the tone of the stomach, the most earnest attention has recently been directed by several medical gentlemen of extensive experience, and the result of the investigation is the adoption of the preparation here recommended as HULL'S PILLS, which having been prepared with sole reference to this particular disease, and with strict regard to medical science, is admirably adapted to restore the deranged organs of the system to a healthful state, & of course to remove, simultaneously, both the disease and its causes.

In renewing the health actions of the digestive organs the effect of this medicine is, to operate in a highly beneficial manner, upon diseases originating in similar causes with Fever and Ague. Among these may be classed, Bowel Complaint, Dysentery, Heartburn, Flatulency of the Bowels, Want of appetite, Night Sweats, Water Brash, and that most obstinate complaint, DYSPEPSIA: the extensive prevalence of which affliction, in this country, has become a matter of serious alarm. For all these diseases, these Pills are an excellent remedy. Each box contains 30 doses. Price, only one dollar.

For sale at the LEXINGTON DRUG STORE, Lexington, April 30, 1842. 21—ly

DR. SPENCER'S VEGETABLE ANTI-BILIOUS AND ANTI-DYSPEPTIC PILLS.

THE universal estimation in which these celebrated Pills are held, is satisfactorily demonstrated by the increasing demand for them in every State and section of the Union, and by the voluntary testimonials to their remarkable efficacy which are every where offered. It is not less from a deeply gratifying confidence that they are the means of extensive and inestimable good among his afflicted fellow creatures, than from interested considerations, that the proprietor of these pre-eminently successful medicines is desirous of keeping them constantly before public eye. The sale of every additional box and bottle is a guarantee that some persons will be relieved from a greater or less degree of suffering and be improved in general health; for in no case of suffering from disease can they be taken in vain.—The proprietor has never known or been informed of an instance in which they have failed to do good.—In the most obstinate cases of chronic disease, such as chronic dyspepsia, torpid liver, rheumatism, asthma, nervous and bilious head-ache, costiveness, piles, general debility, scrofulous swellings and ulcers, scurvy, salt rheum and all other chronic affections of the organs and membranes, they effect cures with a rapidity and permanency which few persons would theoretically believe, but to which thousands have testified from happy experience. In colds and coughs, which, if neglected, superinduce the most fatal diseases of the lungs, and indeed the vicia in general, these medicines, if taken but for three or four days never fail. Taken at night, they so promote the insensible perspiration, and so relieve the system of febrile action and febrile obstructions, as to produce a most delightful sense of convalescence in the morning and though the usual symptoms of a cold should partially return during the day; the repetition of a suitable dose at the next hour of bed time will almost invariably effect permanent relief, without further aid. Their effect upon fevers of a more acute and violent kind is not less sure and speedy if taken in proportionable quantity; and persons retiring to bed with inflammatory symptoms of the most alarming kind, will awake with the gratifying consciousness that the fierce enemy has been overthrown, and can be easily subdued. In the same way, visceral torpidity, though long established, and visceral inflammations, however critical, will yield—the former to small and the latter to large doses of these Pills: and so also hysterical affections, hypochondriacism, restlessness, and very many other varieties of the Neurotic class of diseases, yielded to the efficacy of these pills. Price, 25 cents per box, with full directions. For sale at the LEXINGTON DRUG STORE, Lexington, April 30, 1842. 21—ly

Hull's Worm Lozenges, PROVED in more than 15000 cases to be infallible, the only certain Worm-destroying medicine in use, and are the greatest discovery ever made for dispelling the various kinds of worms, that so frequently and distressingly annoy both children and adults. Many diseases arise from worms, and occasion long and intense suffering and even death, without their ever being suspected: grown persons are very often afflicted with them and are doctored for various complaints, without any benefit; when one dose of these Lozenges would speedily cure them. They are an infallible remedy, and so pleasant to the taste that children will take them as readily as a common peppermint Lozenge.

SYMPTOMS OF WORMS.—Pain in the joints and limbs, offensive breath, picking at the nose, grinding of the teeth during sleep, and at times a paleness about the lips with flushed cheeks; bleeding at the nose, a gnawing sensation at the stomach, flashes of heat over the surface of the body, slight chills or shiverings, head-ache, drowsiness, vertigo, torpor, disturbed dreams, sudden starting in sleep with fright and screaming; with a troublesome cough, feverishness, thirst, pallid hue, fits, bad taste in the mouth, difficult breathing, pain in the stomach or bowels, fatigue, nausea, squabbishness, voracious appetite, leanness, bloated stomach or limbs, gripings, shooting pains in various parts of the body, a sense of something rising in the throat, itching of the anus towards night, a frequent desire to pass something from the bowels, and sometimes discharges of slime and mucus.

READ THE FOLLOWING LETTERS.
New York, September 13th, 1841.
Dear Doctor.—According to your request, we have used your Lozenges in several cases of worms, and found them uniformly successful. We have no difficulty in getting children to take them, as they are perfectly pleasant. We shall use them in our practice whenever occasion offers believing them to be the best vermifuge medicine in use. We have also used your cough Lozenges very extensively, and find them fully to answer the purposes you recommend them for.
We are yours, respectfully,
ZACHARIAH B. LANE, M. D.
W. E. PLEASANT, M. D.
GREEN H. BARRY, M. D.

Dr. Smith knew a child that was cured of fits by these Lozenges, after three Years suffering and when nothing else would give for the least relief.—He has used them in his practice for the last two years in several hundred cases, and always with success.—A boy on board of one of the N. O. packets was cured of fits by only one dose thereof.

Mr. Fulsom of Spring street, cured three of his children of worms by only one box.
Captain Griffin cured his child 8 years old, by only three doses: she had been given up by the physicians as incurable, and was fast wasting away, being almost reduced to a skeleton. The doctors could not tell what ailed the child, and the father, in reading the symptoms of worms, thought possibly they might be cause of all the difficulty, and consequently applied to Dr. Hull, who gave her a box of his Worm Lozenges; after the first dose the child ran to her father, frightened at the large quantity of worms that came from her. She is now as well and as hearty as any child, and no doubt has been saved from an early grave by only three doses of these Lozenges.

Mr. W. Hopewell, East Broadway, gave them to his child and they brought away worms by hundreds.
Parents should always keep these Lozenges in the house, for they are the best medicine that can be administered to children afflicted with worms. Children will take them as readily as the most delicious sugar candy. Price, 25 cents a box, with full directions. For sale at the LEXINGTON DRUG STORE, Lexington, April 30, 1842. 21—ly.

DR. HULL'S WORM LOZENGES.
WORMS! WORMS! WORMS!!!—To remove these troublesome and dangerous inhabitants of the stomach and bowels, which so often impair the health and destroy the lives of CHILDREN use Dr. Hull's Worm Lozenges a certain and safe preparation for the removal of the various kinds of Worms, Dyspepsia, Sour Stomach, Want of Appetite, Infantile Fever and Ague, and debility of the Stomach and Bowels and organs of Digestion. Price, 25 cents a box, with full directions. For sale at the LEXINGTON DRUG STORE, Lexington, April 30, 1842. 21—ly.

DR. LACOUNT'S VEGETABLE TOOTH-ACHE ELIXIR.
A certain and immediate cure.
DR. LACOUNT, having appointed several agents for the sale of his valuable Drops for the cure of the Tooth-Ache, can with confidence recommend it as an infallible cure in all cases, however severe; giving relief in a few minutes, and that too without any injury to the Teeth or Gums; it possesses property of enlivening the Gums when in a morbid state, and of restoring a healthy and vigorous action. Price, 50 cents a vial. For sale at the LEXINGTON DRUG STORE, Lexington, April 30, 1842. 21—ly.

ONLY ONE DOLLAR A YEAR!
The cheapest newspaper in the world!—The miracle of the nineteenth century!

The Great American Newspaper Dollar Weekly!

Edited by T. L. NICHOLS, published by Herrick & Ropes, No. 163 Nassau Street, New York.
Every number of the Dollar Weekly contains twenty-eight columns of choice reading matter, or equal to one hundred and fifty duodecimo pages, illustrated by three to six splendid original engravings.
Each volume of the Dollar Weekly, will contain one thousand four hundred and fifty six duodecimo pages, or fifty volumes of the choicest reading, illustrated by more than two hundred superb engravings, of scenes and characters in American life, by the best Artists. All for One Dollar.
To give an idea of the astonishing cheapness of the Dollar Weekly, the Publishers have made the following estimates: The original matter of each volume, at the most moderate price paid to writers of established reputation, will cost not less than five thousand dollars—the bare composition, or setting of type, will cost, two thousand. Without reckoning rent, materials, paper, press work or incidentals, the publishers incur an outlay of over

TEN THOUSAND DOLLARS.
The talents and character of Mr. Nichols, are familiar to the American people, and a sufficient guarantee of the sterling ability, the exciting interest, the high toned morality, and perfect independence of the Dollar Weekly, upon all subjects, and all occasions. Splendid Tales, Choice Essays, Brilliant Sketches, and an infinite variety of articles, of Poetry, Wit, Humor, and Intelligence, will fill its varied columns, giving the bright and dark shades of our Social System. Its grand tendency will be toward reform, progress, individual enjoyment, and social happiness in every thing, the elevation of many, and "the greatest good of the greatest number." The Complimentary Notices of the whole American press, afford the strongest evidence of its real merit, and the surest indication of unparalleled success.
The Dollar Weekly will be mailed to subscribers in any portion of the world, for \$1 a year in advance.
All letters to be addressed to
HERRICK & ROPES,
163 Nassau Street,
New York City.

QUARTO NEW WORLD. PROSPECTUS OF FOURTH VOLUME.

Commencing January 1, 1842.
EDITED BY PARK BENJAMIN.
DURING the two years which have elapsed since "The New World" was begun, it has been the effort of the Editor to render it the most readable newspaper of the day. To this end the proprietors have liberally courted. Neither trouble nor expense has been spared. The most popular books and periodicals have been purchased. The best contributors have been engaged. A correspondence with the most interesting parts of the world has been established. In short, the best arrangements have been made to publish an independent literary journal, acceptable to all classes of readers. The editor can think of nothing which has been left undone to enhance the value and to elevate the character of the New World.

Its success has been most encouraging. It will commence the new year with a circulation of about TWENTY-FIVE THOUSAND COPIES, a larger number, it is believed, than is issued of any other weekly paper in Great Britain or the United States. This success is imputed chiefly to two reasons: first, to its having contained an unprecedented number of excellent articles by the most popular authors; second, to its having assumed and observed an elevated and moral tone. Its columns are uncommingled with party politics, and its simple pages unsoiled by profane and improper jests, vulgar allusions, or irreligious sentiments; and therefore it finds its warmest welcome by the domestic hearth, and receives its highest approval from that sex, whose rights it has maintained, in whose delicacy it has never offended, and whose mental and social superiority it has labored to vindicate.

About to enter upon a new year, and to commence another volume, we proceed to mention a few inducements for old friends to continue with us, and for new friends to join their company. No change whatsoever will be made in the manner of editing and conducting the New World; but it will receive in all its departments fresh accessions of ability. Many able writers will grace our columns. Permanent arrangements have been made to secure the literary services of Donald McLeod, Francis J. Grund, and Brantz Mayer, Esquires.

Mr. MacLeod, resident in London, will keep our readers fully informed of all events of interest that transpire in England, Scotland and Ireland. Being in constant personal intercourse with the best known authors, he will maintain from them manuscripts, proof-sheets and early copies of the latest publications. Thus shall we be enabled, as we have hitherto done, to give in the New World their latest works in advance of any other newspaper in America.

Mr. Grund, resident in Bremen, will, by a regular and copious correspondence, advise our readers of the social, literary and religious condition of continental Europe.
Brantz Mayer, (whose name we introduce with great pleasure as that of one of the most accomplished young men of our country,) resident in Mexico, will send us letters, descriptive of that unexplored portion of the Western Hemisphere, of its inhabitants, their manners, laws and of all objects of curiosity, whether ancient or modern. His letters will be accompanied illustrative drawings, which will be engraved and presented in our columns.

ORIGINAL ARTICLES, by the best American writers, will enrich our pages in the coming volume. Among the attractive features of this description, we have the pleasure to announce that early in January will be commenced, A NEW NOVEL, by an American, written expressly for the New World, and entitled *Abel Parsons, a story of the Great Fire*. It possesses a deep local interest, and will be read with great pleasure, as it is replete with incident, and beautifully written.

"OUR MESS"

Under this title, a new work by the author of Cha's O'Malley, will be commenced in the 1st No. of the new volume. It will be given to our readers simultaneously with its publication in England.—The first story of "Our Mess" is called "Jack Hinton, the Gas-man," and is every way worthy the reputation of its distinguished author.

Original Discourses, by ministers of the Gospel, to be presented during the next year, practical sermons from every Bishop in the United States, as well as from eminent clergymen of all denominations.
To add to the attractiveness of the New World, it will continue to be decorated by ELEGANT ENGRAVINGS ON WOOD, from the most spirited designs. Two or three of these will be often given in a single paper. It is also intended to appropriate a column for the special entertainment of juvenile readers, so that the New World shall be in every respect, the very best family Newspaper in America.

CHARLES O'MALLERY.

All subscribers who order from the commencement of the third volume (July 3d 1841), will obtain the whole of this popular story, which is alone worth the price of a year's subscription.
TERMS:—The New World [folio or quarto] is forwarded by mail for \$3 a year, payable invariably in advance. For \$5 it is sent to one person two years, but not in any future instance to two subscribers one year. Notes of solvent chartered banks only should be remitted, and those which are nearest par in New York.

No article now in progress of publication in the New World, will be continued in the 4th quarto volume; but it will be commenced with fresh and original works.

Postmasters are legally authorized to remit money for subscriptions, under their franks.

Any individual procuring Five new subscribers, and remitting \$15 in N. York or Eastern Funds, free of postage, shall receive a sixth gratis one year.

WINCHESTER, Publisher,
30 Ann street, New York.

NOTICE.

THE copartnership heretofore existing between the subscribers is (by day dissolving by limitation. All persons having claims against the subscribers will please present for payment, and all persons owing said subscribers will please call and settle as soon as practicable. It is hoped that the indulgence shown will be sufficient for our friends to adjust their accounts as soon as possible; Caleb Worley, is fully authorized to close all business of the late firm of Elliott & Worley,
G. J. ELLIOTT,
CALEB WORLEY,
Tchula, January 1842.

The subscriber will continue the Grocery and Commission business as usual and hopes by strict attention to business to merit the patronage of the public. A general stock of Plaquemine supplies always on hand.
CALEB WORLEY,
Tchula, January 5th 1842. 6—tf

GODEY'S Lady's Book.

EDITED BY
MRS. S. J. HALE, MRS. L. H. SIGOURNEY
M. MICHAEL & L. A. GODEY.
Each number embellished with splendid STEEL & MEZZOTINT ENGRAVINGS FASHION PLATES, MUSIC, &c.

The July number of this elegant periodical, will commence a new volume, and the publisher takes this opportunity to assure the public, that he will exert no effort to keep it, where it is now acknowledged to be, at the very head of American periodicals. No expense has been spared, and none will be, to make its embellishments of the most splendid description, and in proof of what he has accomplished in this respect, the publisher refers to the series of brilliant engravings, both line and mezzotint, which he has recently given; while in regard to the future, he thinks it sufficient to say, that he has now ready for publication numerous plates, even surpassing in beauty and interest those which he has already issued. These will be given in the course of the coming volume.

As to the Literary Department of the Lady's Book, the publisher pledges himself, that it shall continue to merit the superiority which has been awarded to it already. Nearly every American writer of eminence contributes to its pages occasionally, and in each number, besides articles from the Editors, there are contributions from MISS SEDGWICK, MISS LESLIE, N. P. WILLIS & F. S. ARTHUR. A combination of talent which cannot be found elsewhere.

The Lady's Book is published monthly at \$3 per annum, payable in advance.

Address,

IMPORTANT WORK.

Now in press, and will shortly be published a Dictionary of Arts, Manufactures and Mines, by Andrew Ure, M. D., F. R. S., &c., illustrated with 1,241 engravings.

THIS is, unquestionably, the most popular work of the kind ever published, and a book most admirably adapted to the wants of all classes of the community. The following are the important objects which the learned author endeavors to accomplish:
1st. To instruct the Manufacturer, Metallurgist, and Tradesman, in the principles of their respective processes, so as to render them, in reality the masters of their business,—and to emancipate them from a state of bondage, so such as are too commonly governed by blind prejudice and a vicious routine.

2dly. To afford Merchants, Brokers, Drysalters, Druggists, and Officers of the Revenue, characteristic descriptions of the commodities which pass through their hands.
3dly. By exhibiting some of the finest developments of Chemistry and Physics, to lay open an excellent practical school to students of these kindred sciences.

4thly. To teach Capitalists, who may be desirous of placing their funds in some productive branch of industry, to select judiciously, among plausible claimants.
5thly. To enable gentlemen of the law to become well acquainted with the nature of those patent schemes which are so apt to give rise to litigation.
6thly. To present to Legislators such a clear exposition of the staple manufactures as may dissuade them from enacting laws which obstruct industry, or cherish one branch of it, to the injury of many others!

And lastly, to give the general reader, intent, chiefly, on Intellectual Cultivation, views of many of the noblest achievements of Science, in effecting those grand transformations of matter, to which Great Britain and the United States owe their paramount wealth, rank and power among the nations of the earth.
The latest statistics of every important object of Manufacture are given from the best, and usually from Official authority, at the end of each article.
The work will be printed from the second London Edition, which sells for \$12 a copy. It will be put on good paper, in new breviter type, and will make about 1400 pages. It will be issued in twenty or semi-monthly numbers, (in covers,) at twenty-five cents each, payable on delivery.

To any person sending us five dollars, at one time, in advance, we will forward the numbers by mail, post paid, as soon as they come from the press.

To suitable agents, this affords a rare opportunity—as we can put the work to them on terms extraordinarily favorable. In every manufacturing town, and every village throughout the United States and Canada, subscribers may be obtained with the greatest facility.
Address, (post paid),
LA ROY SAUNDERLAND,
126 Fulton Street, New York.

To every editor who gives this advertisement entire, twelve insertions, we will forward to order, one copy of the whole work, provided the papers containing this notice, be sent to the New York Watchman, N. Y.

INSOLVENCY.

THE undersigned having been appointed by the Hon Probate Court of Holmes county, commissioners of Insolvency, on the Estate of Lowellen Lewis, deceased, will meet on the 2nd Saturday in each month, for the next 6 months at the office of J. M. Dyer, Esq., in Lexington for the purpose of receiving, examining, auditing and allowing claims against said decedent's estate.

S. H. BAUGHN,
R. H. SPIVEY,
J. M. HOLLINGSWORTH,
Commissioners.
