Because of the fact that the sanitary inspector will not permit a pressing shop to be run in the same building with certain other businesses and that candy-making is one of these it is up to me to move or cease doing pressing work. So I will hereafter take no pressing work, but will continue to do tailoring and devote my time almost entirely to clothes made to measure. This change will enable me to devote my entire time to this class of work. Hodeck, the Tailor.

No Worms in a Healthy Child

All children troubled with worms have an unhealthy color, which indicates poor blood, and as a rule, there is more or less stomach disturbance. GROVE'S TASTELESS CHILL TONIC given regularly for two or three weeks will enrich the blood, improve the digestion, and act as a General Strengthening Tonic to the whole system. Nature will then throw off or disperse the worms, and the child will be in perfect health. Pleasant to take. 60c per bottle.
