They have been to great expense in procuring the exclusive right for making these celebrated Photographs on canvas, and having fitted up an entire new STUDIO for the execution of the Art, they are prepared to execute all orders sent to them by mail from Daguerreotypes, or any other kind of picture that may be sent. In copying from a Daguerreotype a lock of hair should accompany the picture, with a full description of color of hair, eyes, complexion, etc.—all pictures warranted perfect likenesses. This is the only opportunity of securing a life-like picture from a faint resemblance of a dear friend. Being colored in oil upon canvas it is imperishable. Persons visiting the city should not fail to visit PARK & PELOW'S Studio of FINE ARTS, where all kinds of PICTURES known in the art, are made in the most perfect style and finish. ONE MONTH LATER! FROM the "Photographic and Fine Art Journal," published in New York City, November number, page 352:

"THE MELANOTYPE. This style of picture we have spoken of in a former number, and we can only add here that our prediction as to their capability of superseding the Ambrotype, is fast becoming realized. There is a pleasing artistic effect about them that can never be produced by the Ambrotype. This, together with the perfect ease with which they can be made, the certainty of their everlasting quality, and the impossibility of their destruction by any of those accidents which would be the ruin of an ambrotype, will secure their general adoption."

W. H. DESHONG, 181 Main street, opposite Worsham House, Memphis, Tennessee, has the exclusive right of that city for the MELANOTYPE PATENT. They are much superior to the Daguerreotype, Ambrotype or Spherotype, and cost just the same. Give him a fair trial. n49-1y
