**THE PRICES DELIVERED ARE—**

Roadster	- - - \$545.98	Coupe	- - - \$837.53
Touring	- - - 592.84	Sedan	- - - 889.59
Ton Truck	- - - \$620.29		

**F**OR three years we have fought persistently and desperately to secure a sufficient number of cars for our territory. For three years you have been extremely patient and courteous with us, and no one could possibly appreciate it more than we do.

We know, oftentimes, you have thought it rather strange that deliveries could not be made in less than six or eight months. However, all the time we were putting forth every effort day and night to secure cars for you.

Our territory has always been underestimated, and through special effort we have been fortunate in getting the Ford Motor Co. to allow us a special allotment of cars for December, for which we guarantee immediate delivery.

We cannot, promise, however, a continuance of prompt delivery after this month, therefore, if you want a Ford Car, we advise placing your order at once.

PASCAGOULA, MISS.

**COMMISSIONER'S SALE.**

C. O. Grizzard vs. R. L. Scott and Lena Scott. No. 4027. In Chancery Court of Jackson County, State of Mississippi.

By virtue of the authority vested in me by a decree of the Chancery Court of Jackson county, Mississippi, rendered in the above styled cause on the 15th day of November, 1920, at the November, 1920, term of said court, I will sell at public outcry to the highest bidder for cash at the front door of the court house in the city of Pascagoula, Mississippi, on Monday, the 3rd day of January, 1921, within legal hours, the following described real estate in Jackson county, Mississippi, to-wit:

N<sup>1</sup>/<sub>2</sub> of the SW<sup>1</sup>/<sub>4</sub> of section 23, township 5 south, range 5 west and the NE<sup>1</sup>/<sub>4</sub> of the SE<sup>1</sup>/<sub>4</sub> of section 22, township 5 south, range 5 west, all subject to an easement of 20 feet in width off the north line of the N<sup>1</sup>/<sub>2</sub> of the SW<sup>1</sup>/<sub>4</sub> of section 23, township 5 south, range 5 west, for highway purposes, same being the land conveyed to C. O. Grizzard and R. L. Scott by W. H. Bouslog, president, and recorded in book 41, at page 219 of the Jackson county deed records.

Witness my hand this 4th day of December, 1920.

FRED TAYLOR,  
Special Commissioner

**An "Elevated" Railroad.**

The Utah railroad, from Mack, Colo., to Watson, Utah, a distance of sixty-two miles, runs over the Atchsee mountains, which are over 9,000 feet high, with 75 per cent curves.

**TWICE PROVEN**

If you suffer backache, sleepless nights, tired, dull days and distressing urinary disorders, don't experiment. Read this twice-told testimony. It's Pascagoula evidence—doubly proven. Mrs. Stanton Dean, Dupont avenue, gave the following statement May 8, 1911: "I can highly recommend Doan's Kidney Pills, because I found them entirely satisfactory. I have taken them occasionally for an aggravating pain across my back. Doan's have always cured it."

On January 4, 1918, Mrs. Dean said "It is seldom I ever need a kidney remedy now, but when colds settle in these organs, my back begins to pain. A box or so of Doan's Kidney Pills which I got at Young's Drug Store, soon corrects the disorder." Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Dean had. Foster-Milburn Co., Mrs., Buffalo, N. Y.

**Barcelona Once Great Seaport.** Until 1492 Barcelona was the New York of the Mediterranean. Its position in the northeastern coast of Spain, actually at about the same latitude as New York city, relatively is to the Mediterranean world what the western city is to Atlantic trade routes. Columbus' voyage was considered a bit of inexperience on the part of the Castilian government to upset the balance of trade in favor of cities in western and southern Spain.

When we mortals reach the jumping off point of life we immediately decide it is not time to jump.

**AUTOMOBILE OWNERS.**

Will please take notice that I have given the chief of police and his officers directions to strictly enforce the traffic ordinance, not only in the business part of the city but elsewhere.

After the closing of the shipyard and reduction of pedestrians and vehicles generally on our streets, the officers seem to have relaxed somewhat in enforcement of this ordinance, but the criminal careless and reckless manner in which some people drive, and the total disregard some show for human life for the empty pleasure of "speeding," compels me to direct the officers to strictly enforce this very proper and wise law, and to notify all concerned that those who are indifferent to the safety, and lives of others will be dealt with as the law directs.

The next victim of this criminal carelessness and wanton disregard of the law may be you, or it may be me; it may be your child, or it may be mine—precious life of a loved one. Dimming the lights of high powered cars and cars with bright lights must be observed. I suggest the reading of the ordinance which has heretofore been published several times in the local paper.

The officers are directed to make no exceptions, especially in the enforcement of this ordinance, as my observation is that some of our most prominent citizens are the chief violators. F. H. LEWIS, Mayor.

**Tax of Idleness.**

It would be thought a hard government that should tax its people one-tenth part of their time, to be employed in its service. But idleness taxes many of us much more, if we reckon all that is spent in absolute sloth, or in doing nothing; with that which is spent in idle employments or amusements that amount to nothing. Sloth, like rust, consumes faster than labor wears; while the used key is always bright, as Poor Richard says.—Franklin.

**How Rats Cause Fires.**

Rats are fond of eating the insulating material of electric wires, and are responsible for many of the fires ascribed to "defective insulation." They also gnaw holes in lead water pipes.

We always wish our friends a merry Christmas in time to get a few in return before it is too late. Here's yours.

The laws of this country were made to be enforced against everyone but you. But don't mention it. We knew you'd agree with us.

**Sod Filter for Sewage.** French experiments have found ordinary sod an efficient filter for sewage.

**"THE SCUTTLERS"**

William Farnum Presented in Role of Detective in Story of the Sea.

December 12 is the date set for the release of the next William Farnum screen production under the William Fox banner. The new entertainment is an original story by Clyde C. Westover entitled "The Scuttlers."

"The Scuttlers" is described as an absorbing deep sea mystery drama of dynamic power, in which Mr. Farnum portrays the character of a special investigator of Lloyds who allows himself to be shingled aboard an outgoing ship. The skipper has long been under suspicion of scuttling his vessels for the purpose of collecting the insurance not alone on the hulls, but "fake cargoes. In his effort to secure evidence against the kipper and his mate on board the bandit ship—behind his disguise as a seaman—the investigator runs afoul of many strange people and thrilling adventure. The hero meets the beautiful daughter of the suspected sea captain. The girl has been brought along to serve as a "blind." When the ship is scuttled at sea after a mighty battle between the investigator and the big brute of a mate, girl and man finally make their getaway in a life-boat, and land on a desert island where more scenes are enacted.

Mr. Farnum by plot and circumstance is enabled to show his histrionic powers to the best advantage, states William Fox. The "investigator" is sad to be the most daring type that has yet been attempted for the screen.

The megaphone was handled by the veteran J. Gordon Edwards, and "The Scuttlers" makes his forty-second production for William Fox. In the cast that supports Mr. Farnum are Jackie Saunders, Hershel Mayall, G. Raymond Nye, Arthur Millet and Harry Spangler. This picture will be at the Warfield Theatre tomorrow, Saturday, December 18.

**Where the Trouble Lies.**

If people really took each other for better or worse, it would be different. But they don't. They always take each other for better—for far better than the circumstances warrant.—Exchange.

Pascagoula merchants are enjoying a splendid Christmas business. The stores having big stock and prices are lower here than either New Orleans or Mobile.

We often wonder what will really happen when the world comes to an end, but we are so averse to being fussed up that we have decided not to wait the outcome.

Only eight more days till Xmas.

**Chinese Engineers Skillful.**

Chinese locomotive engineers have the gentlest sense of touch with the airbrake of any in the world. A break in two is almost unheard of, and there is very little damage to cars in shunting on Chinese railways.

When your friends begin to tutfully avoid you, stop and think. How many times have you inflicted your troubles upon them of late?

The wise man seldom fails to recognize the truth, but only a fool blurs it out at all times.

**Darkness Makes Goldfish Blind.**

Ogneff kept goldfishes for three years in absolute darkness, taking care to give them plenty of room and plenty of food. The result was total blindness; even the rods and cones of the retina disappeared.—New York Herald.

**First Idea of Sleeping Car.**

In 1851, on the 2d of December the first patent for a sleeping car was issued to Theodore Woodruff, the inventor. The idea was developed by Webster Wagner two years later, and by George Pullman in 1859.

**Shallowness.**

Shallow waters show a very clear bottom and but little intensity of light is needed in order to display the pebbles and clear sand. That must be a "purest ray serene"—a pencil of strongest light—which discloses the black, rich, wreck-strewn depths. For the clearness of depth is very different from the clearness of shallowness. The former is a positive quality. The latter is negative.—Charles Warren Stoddard.

**Emerald an Early Gem.** The emerald was prized as a gem as early as 300 B. C.

Let's settle this right now!

No man ever smoked a better cigarette than Camel!

You'll find Camels unequalled by any cigarette in the world at any price because Camels combine every feature that can make a cigarette supreme!

Camels expert blend of choice Turkish and choice Domestic tobaccos puts Camels in a class by themselves. Their smoothness will appeal to you, and permit you to smoke liberally without tiring your taste!

Camels leave no unpleasant cigarette aftertaste nor unpleasant cigarette odor!

You'll prefer Camels blend to either kind of tobacco smoked straight!

Camels are sold everywhere in identically sealed packages of 20 cigarettes or ten packages (200 cigarettes) in a glassine-paper-covered carton. We strongly recommend this carton for the home or office supply or when you travel.

R. J. Reynolds Tobacco Co.  
Winston-Salem, N. C.
