THE YAZOO DEMOCRAT

Samuel L. Lewis, — Editor.

YAZOO CITY:

TUESDAY MORNING, DEC'R 17, 1844.

R. M. Winn, Esq. of this city, is authorized to receive and receipt for subscriptions and advertising in the office of the "Yazoo Democrat."

It is not because we are opposed to long established and existing precedents that we inserted the above notice. Experience, and but unfeeling monitor of truth has long before this indelibly impressed upon our doubting faculties the correctness of the saying, "that printers have no use for money."

Our Relations with Mexico. It is a lucky thing that these unruly children or the tropics have knocked up a war between themselves, the result of which, we hope, will be to prevent from inextricable embarrassment our Minister there.

What sum of money shall the United States pay you for Mexico's claim on Texas? Oh, Wilson Shannon!

you for Mexico's claim on Texas? Oh, Wilson Shannon! We will hazard a guess that Shannon is recalled, and a portion if not the whole of his proceedings, disavowed by our government.

What authority has he in thus compromising his government in an attempted explanation of his preceding note? He should have remained silent, and let Mexico frame what construction of his language as best suited her—or, rather Santa Anna.

A Whig Lie, struck while Flying. The following we copy from the N. Y. Plebeian. We hope that our friends will for the future agree with us in paying no attention to the numerous lies with which the whig papers at the present time, are filled:

Mr. Levi D. Slamm, Esq., Editor of the Plebeian—Dear Sir: Please pronounce the statement made in a slanderous Whig paper of Saturday morning, that the Democrats of the Sixth Ward displayed in the procession, on Friday night, a banner bearing these words—"AMERICANS SHALL NOT RULE OVER US!"

A report had currency at New Orleans on the 10th inst., that the Hon. Caleb Cushing, our Minister to China, had arrived at the city of Mexico, on his way home. The Bulletin supposes the person alluded to to be a messenger sent by Cushing to this Government.

Moses Dawson, a gentleman for many years connected with the political press, recently died in Cincinnati. He was a native of Ireland, and was a member of the association of United Irishmen during the rebellion.

The Senator from Virginia, we feel certain of—JOHN TYLER.

Correspondence of the "Democrat."

NEW ORLEANS, Dec. 11, 1844. DEAR SIR:—The placard at our Post Office has informed us daily, for some days past—"no mail east of Charleston; no mail from beyond Columbus, Ga.; no mail east of Mobile;" and to-morrow it will be—"no mail west of Sunrise."

The weather—yes, that ever fruitful theme for remark, has for the past five days been clear, cool and favorable for business: our Cotton market appears to have felt the bracing qualities of the atmosphere, the sales for the past three days and to-day amounting to over 13,000 bales, at prices from 32 1/2 to 63 1/4 cents, and sellers appear to be firm in their prices.

There has been some racing or walking over the Belknap course this week. A nag of Col. Minor, from Natchez, took the stakes yesterday, and Ho-Penny out of Mr. Kenner's stable walked over on Monday and received the purse, or stake, \$1,250; and same day, second race, Beethers from same stable, sweepstakes, mile heats—subscription \$200—won the race, and this is about all the information I can give you about races.

PROVISION MARKET. Flour, \$4 25 to 4 50. Pork, prime, 7 25 to 7 50. Lard, 9 50. Salt, coarse, 1 35 to 1 50. Fine, 1 70 to 1 75.

NEW ORLEANS, Dec. 5, 1844. Sir: The electors of Louisiana for President and Vice President yesterday assembled in this City and carried out the wishes of the people in casting their ballots for James K. Polk and George M. Dallas; immediately after a grand salute of 170 guns was fired from the Place d'Armes, and the day closed with a grand Torch Light Procession, for a description of which I refer you to the Jeffersonian.

The great question being now settled we can now turn our attention to Commercial affairs, the most interesting of which is the sales of Cotton in this market the present week which reach, up to this time, nearly 18,000 bales, at a small decline, say 1-8c. from last week's quotations.

I avail myself of the correspondence of the "New York True Sun," to send you the most important of the recent English news: "The great Pageant on the occasion of opening the Exchange in London, went off with great eclat, as was expected. (The Queen attended the ceremony.)

"There is a mania in England and France just now for making rail-roads, and all sorts of people are gambling in rail road SHARES." Annexed is quotations of Cotton in this market, as received from an authentic source.

Respectfully, JOHN SMITH, X. Ordinary, 4 a 4 1/2. Middling, 4 1/2 a 5 1/4. Fair, 6 a 6 1/2. Good and Fine, 7 1/2, 8 a 9, 10.

By Steam Ship New York, Capt. Wright arrived at New Orleans on the morning of the 4th inst., in 40 hours from Galveston, we have our files of Texas papers to the last day of November.

The U. S. Schooner Woodbury had reached Galveston from Vera Cruz, having on board Gen. Duff Green, bearer of despatches to the Texian government, and his son, Hon. E. Green Esq. Secretary of the American Legation in Mexico from the American Minister to the government of the United States.

The result of the election clearly indicates to the world, says he, that we have a friend and ally, willing and able to assist us in any future difficulty. It will give confidence to Texas investments and induce many emigrants and much capital to find their way into Texas.

Gen. Parades has revolted against the general government at Guadalajara, Department of Jalisco. It is not known what force he has with him, but it is currently believed even in the city of Mexico, that the movement in Jalisco will be sustained by the northern departments, Zacatecas, Durango, &c.

The proclamation of Parades contains various charges against Santa Anna, of misgovernment, tyranny, embezzlement of public funds, &c. &c. The most important topic touched for our readers is the reconquest of Texas. Parades is scarcely less bitter towards us than Santa Anna, both agreeing to denounce us as the robbers and usurpers of their territory.

Santa Anna replies in a proclamation, and gives Parades as good back as he sends—calling him "a disloyal and habitually insubordinate chief." Santa Anna states that the Supreme Government had ordered him to suppress the rebellion by force.

It is the opinion of Gen. Green that Santa Anna will probably sustain himself in the present struggle. [From the N. O. Picayune of the 10th. LATER FROM MEXICO. p. From the completion of verbal reports and the papers we have received, it would seem that Santa Anna, although still at the head of a numerous army and on the march towards the disaffected districts, is still surrounded with difficulties and with a Congress little disposed to show him much favor or lend him that assistance his exigencies demand.

supremacy, and may yet be able to crush the revolution unless Parades has very powerful support in the revolted provinces as well as great influence in Congress. We have heard it rumored that Santa Anna had executed several officers known to be leagued against him; but this we can hardly credit. In the mean time, we give a short abstract of the more important items we see in our papers.
