

CITY AND STATE NEWS.

FIRE IN THE DIMSAL SWAMP.—The most extensive fire which ever swept over the Dimsal Swamp, is now raging in that locality. The smoke arising therefrom, is so dense, as to compel the citizens of Suffolk to keep their doors and windows closed.

THE great regularity with which the Railroads in North Carolina are being run, the system observed by employees, is the secret to their success, at all. We have fewer accidents, and there are fewer lives lost by accidents on North Carolina roads, than by accidents in any other State with the same number of miles of rail. This good luck is not the result of chance, but of the superior skill of our presidents, superintendents and employees—they all work together, looking to the same end, a successful running of their respective roads. We take pleasure in referring to this fact, and hope, that the diligence of the officers will increase, rather than diminish.

POOR HORSE THIEVES.—Three suspicious characters, hailing from Johnston county, visited Smithfield, in Johnston county, having in charge two black horses. Moore, one of the parties, seemed desirous to effect a sale of one of the horses at a rather low price, which gave rise to the suspicion that all was not well.

MR. C. H. SNEAD was proceeding with his agents for an investigation, whereupon Moore mounted one of the horses and fled. He was pursued so closely, however, that he left one horse and fled to the escape of the other.
