River Intelligence.

The river at this point last evening was at the 15-foot stage, full of ice and falling.

The Allegheny ice, which reached here Monday evening, was running all day Tuesday and the river will not be clear until this evening, the streak of moving ice being 120 miles in length.

The Raymond Horner passed down Tuesday with a big tow, and although the ice was piled up in front of her fleet for a hundred feet, she was making good time.

The shipment of coal to the south from Pittsburgh commenced at day-break yesterday morning, and this morning there will probably be no loaded barges or boats in the harbors in the harbor or pools. Last night the following Associated Press telegram was received:

Pittsburg, Pa., Jan. 27.—The harbor is now practically clear of coal. Almost 6,000,000 bushels of the dusky diamonds were started south today, requiring every available towboat here. What little coal remains can be shipped as soon as some of the returning fleet can get through the ice, which is being followed closely by the boats going out today.

The ice, which has been running out of the Allegheny, had nearly all disappeared yesterday morning, and caused very little inconvenience. There was a great jam when the boats started, in the harbor, and at Lock No. 1, but no accidents resulted.

LOWELL.

Twice last week the Angel of Death entered our midst, on Tuesday morning spreading his dark pall of sorrow over the home of Louis and Maggie Henniger while the spirit of their bright, intelligent daughter Alma, aged 13 yrs., winged its flight to that "mansions more precious than silver or gold" prepared for the pure in heart. Again on Thursday, wafting over the dark river the infant daughter of Martin and Lalie Augenstein. The bereaved families have the heartfelt sympathy of the entire community. "Their's is the sorrow who are left behind."

The Lowell Schools were closed last week because of the sickness of so many pupils.

Electric Bitters.

Electric Bitters is a medicine suited for any season, but perhaps more generally needed, when the languid exhausted feeling prevails, when the liver is torpid and sluggish and the need of a tonic and alterative is felt. A prompt use of this medicine has often averted long and perhaps fatal bilious fevers. No medicine will act more surely in counteracting and freeing the system from the malarial poison. Headache, indigestion, Constipation, Dizziness yield to Electric Bitters. 50c and \$1.00 per bottle at Styer's Drug Store.

The U. S. Gov't Reports show Royal Baking Powder superior to all others.

ELECTRIC STREET RAILROAD.

Special Committee of Council Recommends Granting a Franchise to Gracey, Kaiser & Moore.

Council met in regular session Tuesday evening with nine members present.

A petition was presented by Miss Bailey asking the opening of Mulberry street so that it may be of a uniform width of 30 feet throughout. Upon motion the matter was referred to City Solicitor and City Engineer.

The Street Committee reported that the amount required to grade Marion street as proposed would largely exceed the amount contemplated, but that a fair road could be made for \$50. Upon motion the City Solicitor was instructed to prepare a deed for the purchase of part of a lot necessary to make such road.

The Clerk read the report of the Committee on electric light plant. The report stated that Messrs. Gracey, Kaiser & Moore stood ready to put in electric street railway without incandescent light plant and recommended the granting of the franchise asked at once. By resolution the City Clerk was instructed to give the required three weeks notice of the application for such franchise in the newspapers of the city.

Building permits were granted to J. D. Cadwallader, on corner of Wooster and Seventh; Hathaway and Turner on Sixth between Washington and Warren, L. S. Dunbar, on Harmar street between Maple and Putnam, and to Myra Finch, Gilman street between Maple and Putnam avenue.

The matter of protecting the sidewalk of J. C. Goldsmith from injury by teams was referred to Committee.

Attorney J. H. Hamilton, appearing for Z. T. Darrow, asked that \$625 retained from the amount due Mr. Darrow pending suit of E. Clark, Jr., against the latter be put in shape to pay over, the suit having been settled. He also asked that porportion of expense to be borne by city and Mr. Darrow in relaying street be determined by Council. Referred to Committee and City Solicitor, with power to act.

Mr. Davis, of Charleston, interested in the Marietta street railway, presented a proposition to Council, offering \$12,500 for the city light plant, asking a franchise for electric railway, and requiring the city to purchase at least 130 arc lights at \$60 per year. He desired to meet the Committee on Lights and Streets to offer a full explanation. Thursday evening of this week was decided upon as the date of the meeting.
