MAD STUDENTS.

University Boys Assemble in Large Numbers in Barcelona.

Officers Who Attempted to Disperse Them Met With a Volley of Missiles.

A Charge Was Made and the Students Retreated—Subsequently the Students Were Again Attacked, a Fierce Fight Ensued in Which Many Are Hurt.

BARCELONA, March 5.—A large number of students carrying banners assembled Wednesday morning at the doors of the university, where they were addressed by several speakers. The police attempted to disperse the gathering but were resisted by the students who met the officers with volleys of stones and other missiles. A charge was ordered and the officers advanced upon the students who retired and took refuge within the university building, closing the doors in the face of the police. The latter finally forced an entrance in the rear of the building, but were met by the rector of the university, who ordered them to leave the premises at once. The police retired, and the students emerged, when they were again attacked by the officers, and a fierce fight ensued, at the height of which a party of mounted gendarmes arrived and were greeted with cheers by the students.

The commander of the gendarmes ordered the students to disperse, which they did upon his promise that they should be protected against the police. In the encounter with the officers many persons were injured.

GREENHALGE DEAD.

Massachusetts' Governor Passes Away at Midnight—Sketch of His Career.

LOWELL, Mass., March 5.—Gov. Greenhalge died at 12:30 Thursday morning.

Frederick Thomas Greenhalge was born in Clifshire, Eng., July 10, 1842. He came to this country with his father, Wm. Greenhalge, who went to Lowell in 1844. He passed through the grammar and high schools of that city and entered Harvard college. In March, 1863, he began the study of law and was admitted to the Middlesex bar in 1865. In 1880 and 1881 he was elected Mayor of Lowell by large majorities. In 1884 he was sent as a delegate to the republican national convention and in 1885 he was elected to the legislature in a democratic district. In 1888 he was chosen a member of the 51st congress. Mr. Greenhalge at once took high rank as a debater and won high praise from his party associates by his conduct of contested election cases.

He was elected governor of Massachusetts to succeed Gov. Russell in 1893 and was re-elected in 1894 and 1895. No arrangements for the funeral of the late Gov. Greenhalge have yet been made. It is said at the residence Wednesday morning that none would probably be made until Friday. Hundreds of messages expressing sympathy have been received.

Assumes the Duties and Powers of Governor.
BOSTON, March 5.—Lieut. Gov. Wolcott Thursday issued an official proclamation announcing the death of Gov. Greenhalge and his assumption of the duties and powers of governor. He recommended that the people of the commonwealth take steps to properly observe the event of the governor's death.

TENTH DISTRICT.

A Clash May Result in the Selection of Two Sets of Delegates.

COLUMBUS, O., March 5.—The republican congressional committee in the Tenth district of this state has refused to withdraw its call for the selection of delegates to the national convention by popular vote and to issue a call for a convention in accordance with the ruling of National Committee Chairman Thomas H. Carter. This action was taken at a meeting of the committee held at Jackson Wednesday. The minority of the committee, following Mr. Carter's ruling, will call a convention at once. This will mean two sets of delegates to the convention and possibly two republican candidates for congress, though both factions now favor the return of Congressman Fenton.

Choked on a Piece of Meat.
CINCINNATI, March 5.—Jas. W. Campbell choked to death at the city infirmary Thursday noon. He was at dinner with other inmates, and a piece of meat which he was eating lodged in his windpipe. They tried to relieve him, and calling physicians, but the man died in spite of everything they could do. He was 58, and had been an inmate for some time.

TOLEDO, O., March 5.—At the republican convention of Lucas county, which includes Toledo, held Wednesday, Geo. H. WATERWAYS.

A Canal to Connect Lake Erie With the Ohio River.

Chief Engineer Makes His Report to the House of Representatives.

The Proposition is Feasible, But the Engineer Does Not Find the Proposed Improvements Advisable—The Cost of the Different Routes Selected.

WASHINGTON, March 5.—The river and harbor act of 1894, directed the secretary of war to have a survey made of the canals in Ohio with a view to ascertaining the feasibility and advisability of enlarging them into ship canals to connect the waters of Lake Erie with the Ohio. A report was made on the subject to the house Wednesday by the chief engineer. Three routes were surveyed along the line of existing canals or streams to make a continuous waterway and the report shows on either route the proposition is feasible, and that a sufficient amount of water can be secured. However, the necessity for transshipment at the Ohio river existing, the report does not find the proposed improvement advisable. The cost of converting the canals into ship canals 70 feet wide and seven feet deep, with necessary locks, etc., capable of carrying vessels of 280 tons burden, is estimated as follows:

Eastern route, Cleveland to Marietta, \$12,200,873; central route, Sandusky Bay to Portsmouth, \$18,094,165; western route, Toledo to Cincinnati, \$25,011,474. No recommendation is made.

A CUBAN KILLED.

By a Spaniard at Tampa, Fla.—Trouble Expected.

TAMPA, Fla., March 5.—Maximo Pruitt, a Spanish bartender of Port Tampa City, shot and killed a Cuban at that place over a disputed bar bill. The tragedy has excited the Spaniards and Cubans in this city to a considerable extent, and it is feared there will be serious trouble. It is understood that the Cuban authorities of this city have employed counsel and declare that the Spaniard shall not live under any circumstances. Pruitt gave himself up and is now in jail. He has employed counsel. The hot-headed element of the Cubans say that they will kill him if he is taken out of jail, but it is thought that good judgment will prevail, and that he will get a fair trial.

McKinley Delegates From Florida.

TALLAHASSEE, Fla., March 5.—The friends of McKinley won a notable victory in the state convention which met Wednesday, to select delegates to the national republican convention to be held at St. Louis. The friends of Reed, Morton, Quay and other candidates combined against the Ohio man, made a hot fight, but to no avail. The first fight was for control of the state committee, and McKinley won, though they claim that combined agents offered as much as \$300 for a single vote. It is claimed that eight of the delegates will be for McKinley.

The Judgment Sustained.

ENGLAND'S SIDE.

Of the Venezuela Boundary Dispute—A Forecast of What They Claim.

LONDON, March 5.—The Daily News Thursday publishes a column forecast of the British case in the Venezuela dispute, from which the following is taken:

The strength of the British case lies in the abundant historical proof of British possession of the whole of the disputed territory and much that besides before Venezuela existed. The results of a search of the Spanish archives will be likely to prove a surprise to both Venezuela and the United States, and will be of great interest to students of history. It is proved by the clearest of documentary evidence that the first settlement of the Spaniards on the Orinico was made in 1590, and was organized with the object of forestalling the arrival of Sir Walter Raleigh, who had been surveying the regions, and had not concluded to return and settle the republic in regard to the founding of the Dutch West India is also a direct consequence of British contention. The greatest surprise for Venezuela will be the publication of secret papers exposing the intrigue between Spain and Portugal in 1830 having for its object the driving out of the Dutch or of the hemming them in.

If the Dutch were not in possession, asks the News, where was the necessity for intriguing to get them out.

The News intimates that the negotiations of the limits upon which Venezuela now bases her title was the outcome of this intrigue. The paper also gives details of subsequent matters which prove, according to the British contention, the government's right of conquest over both the Spanish and Dutch, and concludes:

Upon this part of the case the government mainly relies. It diminishes the helps of the long diplomatic correspondence onwards and shows that Lord Salisbury really occupied a strong position on historical ground.

GEN. WEYLER.

Indulges in Threats Against the United States.

NEW YORK, March 5.—According to a dispatch from Havana, Capt. Gen. Weyler is very mad. He is quoted as saying:

"I can not understand the sentiments which led the United States congress to do what it has done. If the recognition of belligerency is formally declared American property will lose the legal rights of protection by my soldiers it now enjoys. There are extensive American interests here, and if the United States recognizes the rebels they relieve my government and myself from responsibility."

Metric System of Weights and Measures.

WASHINGTON, March 5.—The house committee on coinage, weights and measures Thursday ordered favorably reported the bill of Mr. Hurley (Wis.), fixing the standard of weights and measures by the adoption of the metric system of weights and measures. NEW DISCOVERY.

Excellent Photographs of Hidden Things Taken by the Aid of a Horse Shoe Magnet.

BALTIMORE, March 5.—Prof. Wm. C. A. Hamet, of the department of physics of the Maryland state normal school, claims to have secured perfect photographs of hidden objects with the aid of an ordinary horse shoe magnet. The results of his experiments, he claims, are far superior to those attained through the use of the cathode rays, in that he secured a perfect photograph of the objects, light and shade included, instead of the rough outline as produced by the X rays process. Prof. Hamet says the new photography is not due to cathode rays, but to a new force of a magnetic nature.

Two Sets of Delegates.

MONTGOMERY, Ala., March 5.—The first district convention in Alabama to elect delegates to St. Louis took place at Calera Wednesday. It was the convention for the Fourth district and was called to nominate congressmen also. There was a split in the convention and two sets of delegates and two nominations for congress were made.
