

Why Are Craig's photographs so far ahead of everything else in that line?

Because He has the largest and best equipped studio in South-eastern Ohio.

Because He has exceptional skill—a combination of natural ability and long and extensive experience.

Because His studio is conveniently located on Front street—on the ground floor.

H. W. Craig, The Marietta Picture Man.

BITS OF GLASS

Located in Sandow's Foot By the Roetgen Rays.

New York, March 15.—For an hour and 25 minutes yesterday afternoon the X rays generated by a static machine in the laboratory of Dr. William J. Morton, on East Thirty-eighth St., played upon the right foot of Eugene Sandow, and when an hour or so later the sensitized plate was developed it showed that there were in all probability three little bits of glass in the strong man's foot.

While Dr. Morton is assured that the shadows are in all probability made by bits of glass, he will confirm his belief by having Sandow sit again. This time the rays will be concentrated directly over the point where the shadows were revealed, and if they appear again, there will be no doubt about what produces them. Dr. Mercereau will then cut them out.

EDISON'S LATEST.

New York, March 15.—Thomas A. Edison has made the discovery that it is possible by the use of the Roentgen ray for the naked eye to see through solid substances.

Edison's possible plan has been evolved into a law of science. His own keen eye and that of others within the past few days have seen objects through a block of wood eight inches thick. Further efforts may mean more marvelous developments. The discovery he has already made promises to be the means possibly of saving human lives from maladies now considered incurable.

The Discovery Saved His Life.

Mr. G. Callouette, Druggist, Beaverville, Ill., says: "To Dr. King's New Discovery I owe my life. Was taken with La Grippe and tried all the physicians for miles about, but of no avail and was given up and told I could not live. Having Dr. King's New Discovery in my store I sent for a bottle and began its use and from the first dose began to get better, and after using three bottles was up and about again. It is worth its weight in gold. We want keep store or house without it." Get a free trial at W. H. Styer's Drug Store.

LONDON DOGS OUT CALLING.

Their Cards Go Up with Those of Their Mistresses.

It appears, from an article in the Figaro by M. Paul Megnin, that in London at the present time it is not only the fashion for a lady to provide her lapdog with a little wardrobe and even a handkerchief, but to have visiting cards made for it, too. When a fashionable lady pays a visit, taking her lapdog with her, she sends up the dog's card along with her own.

M. Megnin says he was visiting the editor of one of the leading sporting papers in London, when the servant brought in two cards, one that of a lady and the other as follows:

MRS. FRIVOLITY. Collie.

Asked if he knew the name on the card, M. Megnin said he presumed it was some dog fancier. He was greatly surprised to see a lady come in, accompanied by a handsome collie.

M. Megnin went to a stationer's shop and ordered 100 cards for his little dog. He was again surprised to find that the stationer had some ready printed, neatly packed in pretty little card cases.

A Ribbon Store!

This is a Ribbon Store in the sense that the great gathering of ribbons here would make a little by itself.

Lack of space prevents any adequate display of this stock. Most of the goods are hidden away in boxes, but since the new arrivals, you will hardly have a ribbon want that we can not supply, and you know by experience that there is usually a money-saving here, as compared with prices ruling elsewhere.

All widths and colors in plain Satin and all the novelties--Printed Warps, Persian, Dresden, Taffeta, Check Ribbons, etc.

But few Dresses or Waists will be finished this spring without the use of Ribbon. Remember, there is only one best place to buy them.
