A KENTUCKY LESSON.

Kentucky receives considerable
censure for what are considered
shortcomings in its system of jurisprudence,
or connivance on the part of its most
respectable citizens at gross violations
of the criminal statutes of the common-
wealth. Shooting and cutting in the
Bourbon State are of almost every day
occurrence, and the guilty are permitted
to go unpunished and even unprosecuted,
in many instances.

That this is not because of the
inability of the courts to secure speedy
trials to accused persons, the Scott
Jackson murder case, now being heard
at Newport, is an example. The jury
was impelled without unnecessary
delay and captious challenges. Witnesses
have been subject to no badgering.
Irrelevant questions have not
been put to them, as a rule. The
prosecution has elicited what was material
and pertinent, and then stopped, while
the defense has not cross-examined for
the simple sake of doing so.

In many respects the trial has been
a novel one. It might have been made
more dramatic. This, however, would
not have enlightened the jury or aided
the court more than plain statements
of facts. The lawyers are not men
with national reputations. They appear
to comprehend what they are
about and do not under estimate the
duties they owe both to society and to
the prisoner. The lesson is one which
might be studied with profit on this
side of the river.—Courier.

December and May.

Zanesville, Ohio, April 30.—It develops
that the "December and May"
marriage in which Charles Gorsuch,
who is a prominent and wealthy
resident of this county, and Miss Maud
Corder, of Flemington, W. Va., were
the contracting parties, contains
elements of love, sympathy and the "I
will" kind of Americanism.

Mr. Gorsuch is County Infirmary
Director, is well off and last summer his
maiden sister, who is his housekeeper,
had as a guest Miss Corder, who spent
most of her time away from home
because of her inability to get along
with a step-father. Love and sympathy
were blended in Mr. Gorsuch, and
although he is seventy and his
sister became a suitor and won his suit.

Gates Post Resolution.

The following resolution was passed
by a unanimous vote at the regular
meeting April 27th.

RESOLVED, That C. B. Gates Post No.
452, G. A. R., approve of the sentiment
expressed by the Buell Post No. 178,
G. A. R., to the Lobdell Bicycle Club
published April 25th.

Have You Tried the Cocoa?

If not call at Wehrs & Son this week,
Walter Baker & Co.'s delicious
Breakfast Cocoa is being served free and
the public is cordially invited to call
and try it.

Try Superior Sugar Corn if you want
the best.

IN THE OIL FIELDS.

The Rogerson well and vicinity
continues to attract attention and a
number of ventures are due in a few days.
They will to a large extent show the
size of the pool. The Thompson estate
on the Ohio side has been leased by
Sistersville people and a well is to be
drilled there. There have been several
fair Cow Run wells found on the farm,
but as the ones testing were in search
of a deep sand no attempt to develop
was made. The last of these was drilled
by the Bridgewater Gas Co. in 1893
and made good showing. So Belmont
county may have another oil pool
before long.—Spirit.

THE CAIRO FIELD.

The following notes are taken from
the Lever:

McMann's No. 2, on McKinney farm,
came in Thursday and will make about
three barrels of oil per day. This was
quite a surprise as the location was
between wells on the east and west that
were doing from 20 to 25 barrels per
day.

The Lee well north of the railroad
came in Wednesday last, practically a
duster, being not more than two barrels
per day.

The Cairo Oil Co.'s wells Weaver No.
2 and Yockey No. 3 came in Sunday
and are good for 50 barrels per day.

T. A. & R. G. Gillespie's well on the
Clark farm, on the ridge between Elm
run and Devil Hole is expected in by
Friday or Saturday.

A. C. Hawkins who has the McGregor
farm leased, has let the contract for
putting down a test, located about one
fourth mile north of town. The
contractors are now at work, and will be
pushed as rapidly as possible. The
general opinion is that it will be a
producer.

The South Penn Oil Co. have let the
contract for putting down a well on
McFarland.

Barnsdall Co. are drilling for the
Berea grit, on John Marshall's farm on
Devil Hole, their well making only 2
barrels in the Salt Sand.

Ellenboro, W. Va., April 30.—The
report that the Barnsdall well on the
John Israel farm, on Rock run, was in
and a duster was incorrect, as the tools
have been fast for a week and the well
is not due until the latter part of this
week.

The Hamilton No. 2, on Whisky run,
is still afflicted with a fishing job.

The Cairo Oil Company's Yockey No.
2 and Weaver No. 2 are now thought
to be good for 50 barrels a day. This
holds nearly all the gilt-edged territory
in the Cairo field.

A. C. Hawkins is building a rig on
the MacGregor farm and will put
another test well down at once.

The South Penn Oil Company have
made a location at McFarland, the
terminus of the C. K. & V. railroad, and
will put down a well at once.

T. N. Barnsdall's well on the J. W.
Marshall farm, on Devil Hole, is only a
two-barreler in the salt sand where oil
is usually found in the Cairo district,
and is being drilled to the Berea grit.

Another well is due in to-morrow
at Hebron, and is likely to be as good
as any drilled there, as the territory in
this section is developing into a cinch
Cow Run producing field.

The Rock Oil Company have had a
derick completed and the machinery
on Col. J. M. McKinney's farm, on
Black's run, for several months, but
for some reason do not begin work.

There is a great need of telephone
connection with the various fields near
here, and a movement is now on foot
to erect lines to connect the principal
points with the railroad.

Major A. S. McDougal, of Harrisville,
has taken up a large block of leases on
Lost run, about one and a half miles
southwest of here, and it is said he has
interested parties who will put down a
test well soon.

C. B. Pattrell, representing the
firm of C. B. Pattrell & Co., who are to
furnish the incandescent plant for the
lighting of this place, was in town Sat-
urday; and all matters pertaining to
the plant was settled and by this time
the dynamo has been shipped. Work
will begin Monday preparatory to plac-
ing the water wheel and it will only be
a few weeks until the plant is in oper-
ation. We understand that Mr. Hum-
phrey has made the town the very lib-
eral proposition of furnishing 14 arc
lights for \$500, which would be \$35.71
per light. The price is exceedingly low
as we know of no place that pays less
than \$50 per light. A rough estimate
of the cost of lighting our streets with
the lamps, which are at present in use,
and the service of which is very unsat-
isfactory, places the cost at between
\$350 and \$400 making the difference
rather nominal; and when a fair com-
parison is made between the service of
the two modes of lighting we do not
believe any person can raise a reason-
able objection to the town accepting
Mr. Humphrey's offer.—Beverly Dis-
patch.
