Merritt, Baldwinsville, Mass., says that he has used and recommended it and never knew it to fail and would rather have it than any doctor, because it always cures. That hideous and deathly demon of sickness—constipation, is an easy enough thing to cure if you take the right medicine. Constipation is one of the commonest things in the world. It is really one of the most serious things. Fully nine-tenths of all the ordinary sickness of mankind is due to this one cause. If you place an obstruction in the gutter, it will stop the flow of water, and gradually a mass of poisonous, putrefying matter will accumulate. That is exactly what happens in the digestive organs when constipation begins. Poisonous matter accumulates and is forced into the blood. It goes all over the body and causes all sorts of symptoms. A few of these are dizziness, flatulence, heartburn, palpitation, headaches, loss of appetite, loss of sleep, foul breath, distress after eating, biliousness and eruptions of the skin. These things are unpleasant, but they are not serious. The serious things come afterward. Doctor Pierce's Pleasant Pellets are for the cure of constipation. They are tiny, sugar-coated granules, easy to take, mild and efficient in their action. One is a gentle laxative, two a mild cathartic. There is nothing else in the world like them. There is nothing that takes their place. There is nothing "just as good," although lying and unscrupulous druggists may sometimes tell you so for their own profit. Do you want to lose your health so that the druggist can get rich?
