

How She Economizes!

I study advertisements and I know where and when and how to purchase the household supplies. My husband used to laugh at me for reading advertisements so carefully, but he has long since learned that I save many dollars every month. I know of no better way to practice economy. It is a wonder how soon you learn to detect the real from the false—intuitively almost. I think I have never been "taken in" by an advertisement. This is the experience of a bright lady who has practiced what we preach from week to week in our advertisements. We have the goods at the very lowest prices made anywhere. How can you economize, save money easier, than by getting your supplies of all kinds below the regular prices.

TRADE REVIEW.

Failures increased Over the Corresponding Week Last Year.

The Great Crops Reported As Not Yet Wholly Beyond Danger.

There is a Better Demand for Wheat and Cotton—More Confidence in Monetary Circles—Boot and Shoe Industry Holds Up in Orders and Prices.

NEW YORK, June 20.—R. G. Dun & Co. says Saturday in their weekly review of trade:

Failures for the week have been 370 in the United States against 228 last year and 25 in Canada against 31 last year.

There are continued signs that a grain in business has begun. Stocks have gone higher than they were before the artificial break ten days ago. Wheat and cotton are in better demand; there is more confidence in monetary circles and the tendency toward shrinkage in some measure at least, to be checked. While the outcome of the democratic convention is uncertain and the great crops are not yet wholly beyond danger, a sure and strong improvement could not be expected, but the tone in business circles has grown distinctly more hopeful. Clearing house exchanges for the past week are 3.4 per cent. less than in last year, and only 5.2 per cent. less than in 1892.

The boot and shoe industry not only holds its place as the most prosperous of the great industries, but reports some gain in orders and prices.

Textile manufacturers do not gain. There is rather more hopefulness which is felt in the arrest of the decline of wool, prices average no lower than June 1 and sales do not decrease. Manufacturers await orders which clothiers hope soon, but are not yet ready to give and the only changes in prices are declines of five to ten per cent. in some very low grade goods. The only change in cottons is a reduction in beach shirtings in standards to the lowest price ever reached, though the change discloses no new weakness, but a belief that the time has come when sales can be effected by reduction, and large sales are now reported. Stocks of dealers are bound to be so low that replenishment would now make a great change in the condition of the industry.

The waiting in iron and steel brings a slightly lower average of prices, the lowest since April 1, and only 1.8 per cent. above the lowest of the year, though the combinations make no change in quotations. Beams are quoted delivered instead of at mill, but numerous contracts are kept back; consumption of wire nails at current prices has so declined that American wire rods are offered at competing prices in England; scarcely anything is done in iron bars because steel bars at 1.1 per cent. take the business and the billet pool is still undersold about one dollar by middle men, while many works are putting up steel plants of their own. Plates are weak and also sheets, and orders for rails, though numerous, are not large. Southern No. 1 is offered \$1 below Pennsylvania pig and grey forge is ten cents lower at Pittsburgh. Since coke was advanced to \$2 per ton, the ovens at work have decreased 33 per cent. and the weekly output 69,463 tons, or 35 per cent.

WITH OPEN ARMS.
Senator Teller Will Be Received by His Constituents.

DENVER, Col., June 19.—The news of the action of Senator Teller and the Colorado and Idaho delegations in withdrawing from the national republican convention has been received throughout the state with great enthusiasm. In Denver there will be a demonstration when Senator Teller returns, which will be by Thursday, and Senator Cannon, of Utah, will be the feature of another demonstration when he passes through. The mining camps are especially jubilant. At Aspen the hills vibrated with the boom of improvised cannon, and at Cripple creek the streets were thronged by enthusiastic crowds all night. At Pueblo the company of the national guard fired a salute of five guns when the news was received, and in the northern and southern Colorado towns the enthusiasm was unconfined.

THE YALE CREW.

The Englishmen Watch the Yankees as They Go Over the Course at Henley.

HENLEY ON THAMES, June 20.—The morning was dull and cloudy, with occasional sprinkles of rain. The Yale crew was up early and mustered at the boat-house by ten o'clock. All were in fine condition. Trinity Hall occupies the same boat-house as the Americans, and when the latter entered their shell, the English crew crowded near to the water in order to watch the start. The bridge was lined with spectators and many experts were noticed timing the Yale men. They pulled down stream and turned and went towards Temple Island. "Bob" Cook coached them on horseback, and was accompanied by Armstrong, who rode a bicycle. The start was made with a 24 stroke, which was increased when nearing the island. A strong wind was blowing and the water was rough.

A \$100,000 Fire at Bradford, Pa.

BRADFORD, Pa., June 20.—Fire broke out here about 9:55 p. m. in the Whitehead building, a wooden structure on the south side of Main street, between Kennedy and Chambers streets, burning everything between those points, including the Half-Dime restaurant, Bay Street hotel and the Sondheim building. Loss, \$100,000; insurance unknown. No lives were lost so far as known. The buildings were landmarks.

BIG AND GOOD.

Battle Ax PLUG

Sometimes quality is sacrificed in the effort to give big quantity for little money. No doubt about that. But once in a while it isn't. For instance, there's "BATTLE AX." The piece is bigger than you ever saw before for 5 cents. And the quality is, as many a man has said, "mighty good." There's no guess work in this statement. It is just a plain fact. You can prove it by investing 5 cents in "BATTLE AX."

Engineer Buried Under a Wrecked Train
CLEVELAND, O., June 20.—A special to the Press from Swanton, O., says The New York & Chicago limited of the Lake Shore, ran into a freight on siding at this place. Engineer Hoyes was buried under the wreck and seriously injured. The other train men saved themselves by jumping. The passengers were badly shaken up, but no one injured. The property loss is heavy.

He Thinks the Action of the Bolters at the St. Louis Convention Significant.

NEW YORK, June 20.—Senator Stewart, of Nevada, who is at the Hoffman house, regards the action of Senator Teller and the men who followed him out of the St. Louis convention as significant in the highest degree.

"Senator Teller represented the real sentiment of nine-tenths of the people west of the Mississippi river," said he, "and three-fourths of the people of the United States. To me it appears a hopeful sign and very remarkable, that 105 men could have been found in the convention to vote as they did against the consolidated bank officers of America and Europe. The friends of silver have succeeded in electing a majority of delegates in favor of the United States and against English rule and are anxious to make an honest effort to rescue the party, which Cleveland betrayed, from the control of Pierpont Morgan, the Belmonts and their associates. It remains to be seen whether politics and intrigue will detach the convention at Chicago."

Galusha A. Grow, congressman-at-large from Pennsylvania, says that the republican bolt will not mean a loss of more than 75 votes in the electoral college.
