

# MARIETTA DAILY LEADER

ESTABLISHED 1881.

GEORGE M. COOKS, EDITOR.  
JOHN W. LANSLEY, ASSOCIATE.

Published every day except Sunday, at the  
Leader Building, Putnam Street and  
Muskingum Avenue.

TELEPHONE. No. 3

We will consider it a great favor if  
subscribers will report any failure  
to get their Leader, or any carelessness  
on the part of the carrier.

Subscribers will please not pay the  
carriers unless the carrier  
presents his credit tag in subscriber's  
presence.

THURSDAY, JULY 9, 1896

For President,  
WILLIAM MCKINLEY,  
Of the United States.  
For Vice-President,  
GARRETT A. HOBART,  
Of New Jersey.

Republican State Ticket.

For Secretary of State,  
CHARLES KINNEY, of Scioto Co.  
For Judge of the Supreme Court,  
MARSHALL J. WILLIAMS, of Fayette Co.  
For Food and Dairy Commissioner,  
JOSEPH E. BLACKBURN, of Belmont Co.  
For Member Board of Public Works,  
FRANK A. HUFFMAN, of Van Wert Co.

Congressional Ticket.

For Congress, 14th District,  
H. C. VAN VOORHIS, of Muskingum Co.

County Ticket.

For Probate Judge,  
D. B. BOOD, of Belpre.  
For Sheriff,  
JOHN S. McCALLISTER, Fourth Ward.  
For Auditor,  
W. A. PATTERSON, of Watford.  
For Recorder,  
JOHN W. ATHEY, Marietta Township.  
For Commissioner,  
JOHN RANDOLPH, Wesley Township.  
For Intendant,  
WM. SCHNAUFFER, Newport Township.

## HOW SAVINGS WILL BE LOST.

Providing a Free Silver Law Goes Into  
Force.

There will be millions of mad farmers,  
workingmen, clerks and professional  
men when they go to draw their little  
savings out of bank after we have gone,  
or decided to go, to a silver basis, should  
we foolishly decide to go there via the  
sixteen to one short line. The \$475,519  
depositors, who have \$1,510,597,023 in  
savings banks, would all suddenly  
conclude to withdraw their savings and to  
convert them into gold before we should  
drop to the silver basis. Only a small  
percentage could obtain their deposits  
before the doors of the banks would  
close. The great majority of depositors  
would have to wait until we had actually  
reached a silver basis before they could  
withdraw their deposits, and this  
picture shows the kind of money they  
would obtain. It will not be the fault

of the bank officers if the banks are unable  
to return as good money as they  
received. They have loaned the banks'  
funds out at interest and, except in cases  
where officers have suspected the honest  
intentions of their country and inserted  
the gold clause in mortgages, the banks  
themselves will have to accept depreciated  
dollars in return for the full value  
dollars loaned. They will, therefore,  
have only cheap dollars to return to  
their depositors. These depositors, then,  
are the real creditor class of this country.  
Instead of being few and wealthy  
there are over 10,000,000 of them having  
deposits in all kinds of banks and  
in building and loan associations, and  
their average per capita deposits are  
only \$500. This country will not go to  
a silver basis without the consent of a  
large portion of these depositors. If  
they do vote to put it on a silver basis,  
several millions of them will be kicking  
themselves the next morning after they  
find out what they have done.

## ADVERTISE

It is safe to say that the successful  
men of your city are your largest ad-  
vertisers and that they never let up—  
E. A. Corbett.

If it be a wise policy to insure a stock  
against fire, it is surely equally as wise  
a policy to give the stock that measure  
of protection against moths which  
a liberal application of printer's ink af-  
fords.—Philadelphia Record.

According to London papers over \$4,  
000,000 are paid for advertisements in  
the metropolitan journals every year.  
This is equivalent to between four and  
five dollars per capita of the population.  
The more this amount is increased  
the more business will be done.  
—N. Y. Tribune.

## ON BOARD THE SHIPS.

The width of the Suez canal is 825  
feet.

The ropes on a first-class man of war  
cost about \$15,000.

About 2,000 sailing vessels disappear  
in the sea every year, entailing the loss  
of 12,000 human lives.

The most famous English admiral  
was Nelson, who destroyed the French  
power at sea.

Both the French battle ships Brennus  
and Redoubtable have passed easily  
through the new channel into France's  
war harbor of Biscaya on the Tunis  
coast.

## IN THE OIL FIELDS.

Pittsburg, July 6.—The Bullman pool,  
the most promising development in the  
lower southwest, after holding out the  
most flattering promises to holders of  
territory in that and surrounding territory,  
seems to have changed its mind  
and is going to throw the whole lot of  
its late backers down. Its gusher record  
has been most creditable, but it  
has now taken a different turn and is  
delivering dusters.

The Kanawha Oil company has drilled  
its test well on the Adams farm, located  
only 500 feet east of its big No. 3,  
Griffin, 80 feet into the sand and has  
no show for a producer. Judging from  
its position, it looked to be a sure  
winner. This well coming in dry  
makes the Wick side of the pool look  
anything but encouraging. On the  
other side of the pool the Kanawha Oil  
company has drilled in its No. 2, W. E.  
Smith, and has the promise of a very  
light well.

On the Alkire lot, the Parks Drilling  
company has drilled in its test and will  
have a close call to getting a duster.

Hagan & company's well on the  
Chister lot, due west of Henderson No. 1,  
and south of No. 8, is in the sand  
and not showing for much of a well.

In the light of the developments of  
the past 24 hours it is not surprising if  
a cloud of disappointment has settled  
over the Bullman pool. It is almost  
certain, unless a new lead can be discovered,  
the end is not far away.

The big wells are slipping backward.  
Stealey, No. 4; Bullman, No. 1; Griffin,  
No. 3, and Feesher, No. 1 have now an  
aggregate production of 75 barrels an  
hour.

The South Penn's Henderson, No. 1,  
which was making 300 barrels a day a  
few weeks ago, has quit, and some of  
the other wells are down almost to  
nothing.

The development on Middle Island  
Creek, which was brought into promi-  
nence a month ago by Captain Jones  
drilling in a well on the Archer farm,  
is destined to be short lived. The oil  
was found in the Keener sand. Captain  
Jones has just completed a dry hole  
on the B. F. Gorrel farm, and one  
on the Craig farm, both of which were  
thought to be well located to catch the  
Keener sand. There are still six wells  
drilling in that locality.

There is nothing new to report from  
the well on the Suppes farm, near Cam-  
eron, Monroe county. The rig has  
been rebuilt and the owners are now  
fishing for the string of tools. It is not  
expected that they will have much  
trouble to recover them, after which  
the well will be drilled deeper and all  
speculation as to what it will be good  
for will then be at an end. An opera-  
tor who came from that county yester-  
day, had visited the new strike and did  
not think from its present showing it  
would be good for more than 10 barrels  
a day.

The present week will be one of im-  
portance in the Ogden pool. Several  
wells in advance of developments will  
be due and at least a half dozen inside  
of defined limits.

There were no new developments in  
the local fields.

In the Gibson third sand streak,  
north of Wildwood, two new wells will  
be due this week.

A telegram from the Kyle pool, on  
Indian Creek tonight, states that Shay  
& McMullen have completed their No. 6  
on the Alan Weekly farm and have a  
producer good for 130 barrels a day.

A correspondent writing under a  
Williamstown, W. Va., head, says the  
Big Nancy well, in the Berea grit, on  
the Johnson farm, in Washington county,  
over the river, made two fine flows  
last Saturday, and will be a much better  
producer than was originally ex-  
pected, the output now being estimated  
somewhere near 75 barrels a day.  
The well is located about 1,500 feet  
from the Hendershot producer, and  
opens up a big lot of new territory; its  
direction from the Hendershot making  
all the intervening territory desirable.

The new well is owned by Captain  
W. F. Noll, Henry Roeser, Kerr Bros.,  
George W. Haight and E. B. Rowe.  
The well is located directly in the center  
of a 175 acre lease. The strike was  
only made Saturday, but the vicinity  
has taken on new life and locaters and  
leases are making things hum.

The new McCary, over on the Mc-  
Cary farm, at Sand Hill, was put to  
pumping last Saturday and shows up  
better than 100 barrels a day. The  
well has greatly increased the value of  
nearby territory. It is owned by Roeser  
Bros., Judge Chamberlain and others.

The Brooks well on the Holdren  
farm, at Leith's Run, which was reported  
very small, not worth pumping  
when it came in and caused sore disap-  
pointment to many, was given a dose  
of 120 quarts of glycerine last Satur-  
day and is now doing very nicely, hav-  
ing flowed more than 50 barrels in the  
first 24 hours after it was shot. The  
well is owned by the Rock Oil com-  
pany and the Grafton & Noll Oil com-  
pany. The well is located east of the  
Stewart well on the Dye farm.

The Barnadall & Kahl well, on the  
Myers farm, on Carpenter Run, Wetzel  
county, and a half mile from Smith-  
field, has been drilled through the Gor-  
don and fifth sands to a depth of 3,100  
feet and found all formations dry.  
This was a wildcat of no ordinary im-  
portance, located one and a half miles  
east of the Kanawha Oil company's  
Gordon sand well on the Mills tract  
and was expected to show an exten-  
sion in that direction. The well pro-

ducing a duster in all sands gives a black  
eye to the eastern side of the Mills de-  
velopment.

F. M. Lowry, assistant superintendent  
for the Forest Oil company, left  
last Friday for a brief tour through  
England and France.

## Coal Run.

Mr. J. D. Beach has just returned  
from Zanesville where he has been  
spending a few days with his daughter,  
Mrs. Stevens.

Married, Tuesday evening, Mr. Print  
Rose, son of ex-Sheriff Rose, and Miss  
Florence Hamer, both of this place.

Mr. David Wagner, of Zanesville, a  
former resident of this place, after an  
absence of several years, brought his  
wife and spent the Fourth with his  
parents here.

Mrs. Mary Hickman and little son,  
Guy, of Gallipolis are visiting friends  
here.

Quite a number of persons from here  
spent the Fourth in Marietta.

Charlie Stewart and wife have re-  
turned from a few days' visit with  
friends in Zanesville.

Mrs. Elsie Phillips, an aged lady of  
this place, got up in her sleep a few  
nights ago, and starting down stairs,  
fell to the bottom, breaking two of her  
ribs and otherwise shaking her up  
badly.

I. R. Rose and wife have been spend-  
ing several days in Columbus.

Charles Ray and wife, of Marietta,  
are visiting his parents on Hibbs ridge.

Mrs. Clark Stewart and little sister,  
Bessie, of Marietta, are spending a  
few days with friends here.

Mrs. Melissa Sprague, an aged lady  
of Equity, is in a very precarious con-  
dition, owing to her great age.

Miss Nellie Shaw, who has been at  
Mt. Sterling for some time, has re-  
turned to her home on Cats Creek.

The glorious Fourth has come and  
gone and people hereabouts have set-  
tled down to the usual round of the af-  
fairs of life.

The corn and potato crop along the  
Muskingum valley is something pheno-  
menal and all kinds of vegetation is  
very much above the average. As to  
peaches, there is no end to them.  
Surely providence has smiled upon us  
this year.

Elmer Hughes and Morris Gray have  
bought a brand new steam thrasher and  
are doing a rushing business. The old  
firm of Stewart & Co. are at work with  
their machine in the Rainbow settle-  
ment in Muskingum township.

The Buckeye Pipe Line Co. are plac-  
ing a larger line near their old line  
which passes one mile north of this  
place.

The steamer Sonoma took a very  
large trip of passengers down to Mari-  
etta on the Fourth, returning in the  
evening.

Miss Emma Starling has been em-  
ployed to teach the fall and winter  
term in Sub District No. 11 of Adams  
township.

Some of the "Demmys" here who  
are constantly advocating free silver  
will be compelled to hunt their holes if  
the Chicago convention should fail to  
adopt a free silver platform, for, as usual,  
they would try and get the pill  
down somehow. It would seem to a  
man up a tree that it would be safest  
for the pine box brigade to keep quiet  
till the bosses have staked off the  
ground and then throw up their hats  
and shout themselves hoarse.

## TESTS THE HUNTER.

A Man's True Temperament Brought Out  
by Bad Luck in the Woods.

There are days that bring out the  
hunter's true temper. When the sun  
shines and the crack of the rifle brings  
success any man can be gentle tem-  
pered, and offer consolation to less for-  
tunate companions. Anyone can be a  
good fellow sitting before a big sapling  
fire after a day of success, and he can  
laugh when anyone laughs; but let  
there come days when the rain pours  
down from low-hanging clouds and the  
sun positively refuses to shine at all.  
The deer lying snug back on the moun-  
tains refuse to appear, and the rust  
gatherers on the hunter's rifle in mel-  
ancholy breeding spots. The drip, drip  
of water from leaf to leaf, says the New  
York Sun, is a sound that brings one's  
true nature to the surface.

Some men cannot be happy under  
adversity in camp who in ordinary life  
are the best of good fellows. The rain  
seems to wash all their good qualities  
into their shoes, and they make life  
miserable for their companions with  
their grumblings.

On the other hand there are men  
sour tempered, with faces as cheerful  
as raspas when in their home region,  
who mellow down in the most congen-  
ial of spirits when in a camp in the  
woods in spite of cold rains and cheer-  
less lack.

An unfailing specific for cholera mor-  
bus, cholera infantum, diarrhea and  
all those other dangerous diseases in-  
cident to the summer season, is found  
in Dr. Fowler's Ext. of Wild Strawberry.

Hives are not dangerous to life, but  
they are a prolific breeder of misery  
and profanity. Doan's Ointment gives  
instant relief, even in the worst cases  
of this and other exasperating diseases  
of the skin.

Pure blood and a good digestion are  
an insurance against disease and suffer-  
ing. Burdock Blood Bitters keeps the  
blood pure, the digestion perfect.

"If taken into the head by the nos-  
trils two or three times a week, Thom-  
as' Electric Oil will positively relieve  
the most offensive case of catarrh."  
Rev. E. F. Crane, Dunkirk, N. Y.

## PIPES and Tobacco Pouches FREE in exchange for coupons with Mail Pouch TOBACCO.

Chewing and Smoking  
The only NEGATIVE NEUTRALIZED  
TOBACCO.  
● A Genuine FRENCH BRIAR PIPE and  
● Self-closing Rubber TOBACCO POUCH

● "Illustrated Catalogue" of other Valuable Articles  
● with explanation how to get them, mailed on request.  
● The Bloch Bros. Tobacco Co., Wheeling, W. Va.  
● No Coupons exchanged after July 1, 1897

## Rockland.

Yesterday two young boys who were  
out gathering berries went to a well  
on the back of Mr. Tiffany's farm for a  
drink and were surprised at the discov-  
ery of a young babe floating on the  
water. They went home and notified  
their father, who, with a neighbor,  
hastened to the well, taking from it a  
well developed newly born child wrap-  
ped in paper. As to who is the mother  
or other parties who could do such a  
brutal act is all a mystery as yet.

The Fourth of July passed off very  
quietly. A church social for the bene-  
fit of the Epworth League was held at  
the Gilbert homestead, and was large-  
ly attended by old and young.

At the Putnam homestead there was  
a gathering of the young and some  
older friends to celebrate the 13th  
birthday of their grandson. Large  
quantities of fire crackers, torpedos,  
sky-rockets and other inflammables  
which helped to make a noise, fire and  
smoke, were fired until quite late in the  
evening. Among other amusements,  
there was a three-legged race by the  
boys. Two couples entered for the  
prize—a bunch of fire-crackers. The  
first was an even race; second, a draw,  
as both parties did some hard falling.  
The third was won by the younger  
boys. It was both novel and consider-  
able fun for the lookers on. Then  
came the potato race, which was very  
much enjoyed. This was all for the  
entertainment of the young who wish-  
ed to celebrate the Fourth in that way.  
Everything passed off nicely and the  
children enjoyed themselves hugely.

W. P. Putnam dropped in at his old  
home on Friday night, unexpected by  
his parents. He is on his way to Jack-  
son, where he expects to take charge  
of the Chemical Laboratory of a large  
blast furnace.

The wheat crop is being threshed  
and stacked. Those who have thresh-  
ed wheat find it in bad condition, on  
account of wet weather. Corn crop  
does not promise as well as a few weeks  
ago, the under blades turning red, in-  
dicating a small grub worm at the  
roots. Hay crop is improved some by  
the rains, but not up to an average  
crop. Oat crop ripening. Some crops  
will be cut this week. FARMER.

## A Valuable Prescription.

Editor Morrison, of Worthington,  
Ind., "Sun," writes: "You have a valu-  
able prescription in Electric Bitters,  
and I can cheerfully recommend it for  
Constipation and Sick Headache, and  
as a general system tonic it has no  
equal." Mrs. Annie Stehle, 3025 Cot-  
tage Grove Ave., Chicago, was all run  
down, could not eat nor digest food,  
had a backache which never left her  
and felt tired and weary, but six bot-  
tles of Electric Bitters restored her  
health and renewed her strength.  
Price 50 cents and \$1.00. Get a Bottle  
at W. H. Styer's Drug Store.

## My Baby.

What shall I call her when we meet?  
She knew no other name on earth  
Than that which mothers find so sweet;  
Though words be cold and little worth,  
"Our baby" seemed a name complete.

But now, so many years have flown  
Since from my tearful gaze she part,  
How shall I, in the great unknown,  
Where all is new, and strange, and vast—  
How shall I there reclaim my own?

What sweet, rare title does she bear?  
For when I meet her on that shore,  
Grown wise and great as she is fair,  
"My baby," I can say no more,  
For I shall be the infant there.  
—C. S. Stowell, in Youth's Companion.

## What the Lovers Said.

Shall I tell you what the lover said,  
As closely by her side he sat,  
And stroked the curls upon her head?  
There is no need to tell you that.

Shall I whisper what she said to him,  
As at the door the lovers stood,  
While somewhere near her papa grim  
Drew closer? No! I never could.

And when at length her pa abused  
With kicks the youth—and did not stint  
—em—  
Shall I write the words that lover used?  
I'd like to, but they wouldn't print 'em.  
—N. Y. World.

### EXPECTANT MOTHERS, "MOTHERS' FRIEND"

Robs Confinement of its Pain, Horror and Risk.

We Offer You a REMEDY which INCLUDES Safety of Life to Mother and Child.

My wife used "MOTHERS' FRIEND" be-  
fore birth of her first child, she did not  
suffer from CLAMMY PAINS—was quickly  
relieved at the critical hour, suffering but  
little—she had no pains afterward and her  
recovery was rapid.

E. E. JOHNSON, Eufaula, Ala.  
Sent by Mail or Express, on receipt of  
price, \$1.00 per bottle. Book "To Mothers"  
mailed Free.

BRADFIELD REGULATOR CO., Atlanta, Ga.  
SOLD BY ALL DRUGGISTS.

Knights of Labor, and all fair minded people notice that all the  
first class Clothiers and Furnishers of the city close at 5:30  
o'clock, Tuesdays and Saturdays excepted.
