

# Consistency's A JEWEL.

But Persistence as applied to advertising is a Whole Diamond. That applies to us; in that we advertise day after day, and week after week the great and good bargains we have, and all for good benefit and profit. Some bright thrifty people come and get them and save money; others who would if they knew how much they could save and how good quality of goods we sell would come, and still others who do not know a bargain when they see it would come if they knew, and so it gives thousands of dollars wasted every month in this community for the above reasons. Are you one of the class that needs to save your money and make every cent go as far as possible? See to it then that you investigate our offerings every week. That bogie of poor goods and low prices does not scare people who patronize our store, they see through it. Self interest of those who cry it. See the money savers for this week.

### Sound Money Democratic Conference Issues a Call

#### For a Convention to Nominate Presidential Candidates.

The Convention Will Be Held in Indianapolis on Wednesday, September 2, 1896—Thirty-Three States Represented—Gen. Palmer Not a Candidate.

INDIANAPOLIS, Ind., Aug. 8.—The large assembly room of the commercial club was packed to the door with about three hundred people at 2:30 o'clock Friday, the time set for the afternoon session. Congressman Bynum called the conference to order, explaining that he did so in the absence of Gen. Bragg, chairman of the executive committee who had been delayed on his way from the east.

A roll of the states was called and it was found that 33 states were represented by committeemen present, either in person or by proxy.

No time was wasted in determining the main question which had already been practically decided by a canvass of the members of the committee. Mr. Ewing read the resolutions adopted at the Auditorium conference in Chicago as the authority for the action of the present gathering.

"Mr. Chairman, in order to carry out the purpose set out in the resolution just read, I move you that a committee of five be appointed by the chair to prepare a call for national convention to nominate a democratic candidate for president and a democratic candidate for vice president (applause), and that that committee report its call to this committee at 8:30 o'clock this evening." Carried.

Mr. Bynum named the following committee: J. H. Outhwaite, Ohio; Charles Tracey, New York; J. M. Falkner, Alabama; L. C. Krauthoff, Missouri; F. W. M. Cateheon, Minnesota.

The main question of whether or not a convention should be called having thus been disposed of, the conference proceeded to select a local convention, and in this Indianapolis won right handily.

Gen. John M. Palmer, of Illinois, arrived in company with his wife at five o'clock Friday evening from Lawrenceville, Ill., where he had finished arguing a case at 11 o'clock. It did not take him long to take himself completely out of consideration as a possible candidate for president on the sound money ticket.

As soon as the evening session was called to order Mr. Bynum announced that the first business would be the permanent organization of the provisional committee by election of a chairman and other officers. Gen. Tracey, of New York, nominated Senator John M. Palmer, of Illinois, for chairman in a brief but stirring speech. The name of Gen. Palmer was greeted with loud applause and the selection was made by acclamation. Messrs. Tracey, Outhwaite and Hopkins were appointed a committee to escort him to the chair. His appearance was greeted with three cheers and a tiger. He bowed his acknowledgment and spoke very briefly, only in a few sentences.

John R. Wilson, of Indianapolis was made secretary upon motion of L. M. Martin, of Iowa, and John P. Frenzel, of this city, was made treasurer, on motion of L. C. Krauthoff. Mr. Outhwaite, chairman of the sub-committee, then presented the call for the convention as follows:

To the Democrats of the United States: A political party has always been defined to be an association of voters to promote the success of political principles held in common. The democratic party, during its whole history, has been pledged to promote the honor of the individual, the security of private rights and property and the supremacy of law. It has always insisted upon a safe and stable money for the people's use. It has insisted upon the maintenance of the financial honor of the nation, as well as upon the preservation of the institution established by the constitution. These principles, were abandoned by the supposed representatives of the party at a national convention recently assembled at Chicago. The democratic party will therefore, cease to exist unless it be preserved by the voluntary action of such of its members as still adhere to its fundamental principles. No majority of the members of that convention, however large, had any right or power to surrender those principles. When they undertook to do so, that assemblage ceased to be a democratic convention. The action taken, the irregular proceedings, and the platform enunciated by that body were and are so utterly and indignantly revolutionary, and constitute such radical departures from the principles of true democracy, which should characterize a sound and patriotic administration of our country's affairs, that its results are not entitled to the confidence or support of true democrats. For the first time since the national parties were formed there is not before the American people a platform declaring the principles of the democratic party as recognized and most courageously and consistently administered by Jefferson, Jackson and Cleveland nor are there nominees for its offices of president and vice president of the United States pledged to carry those principles into practical effect. The faithful and true democrats of the United States are determined that their principles shall not be ruthlessly surrendered, nor the people be deprived of an opportunity to vote for candidates in accordance therewith.

Therefore, the national democratic party of the United States, through its regularly constituted committee, hereby calls a national convention of that party, for the announcement of its platform and the nomination of candidates for the offices of president and vice president of the United States and the transaction of such business as is incidental thereto, to be held at Indianapolis, on Wednesday, the second day of September, 1896, at 12 o'clock noon, and hereby requests that the members of the party in the several states who believe in sound money and the preservation of law and order, and who are unalterably opposed to the platform adopted and candidates nominated at Chicago, will select in such manner as to them shall seem best, a number of delegates to the same, equal to twice the number of electoral votes to which such states are respectively entitled. Such delegates shall be duly accredited, according to the usages of the democratic party. Their credentials shall be forwarded or delivered to the secretary of this committee with all convenient speed. The committee will make up and announce the roll of the delegates entitled to participate in the preliminary organization of the convention.

## LOWLANDS FLOODED.

Thirty Houses in "Happy Hole," Richmond, Covered—The Inmates Rescued With Difficulty.

RICHMOND, Ind., Aug. 8.—The greatest flood that eastern Indiana ever witnessed occurred in this city and county Friday, and the total damage will exceed \$70,000, while by some it is believed that it will be more than \$100,000. At four o'clock a terrific storm struck the city, accompanied by the most brilliant display of lightning and a cloudburst. Five residences in the city were struck by lightning, and the cloudburst completely flooded the city. The White river, which has been swollen by recent rains, could not remain within its banks, and at 6 o'clock the overflow commenced. The driving rain continued, and at 8 o'clock the great stone dam at the Nixon Paper mill gave way and the rushing torrent of water poured into the low lands in the north end of the town.

"Happy Hole," a section of the city in the river bottom, was completely covered. Thirty houses were flooded, and the inmates were forced to flee to the upper stories. The fire companies, three in number, were called to the scene, and they, with great crowds of shopmen, who were at work in the vicinity, succeeded in rescuing the women and children, although the task was a difficult one. The Nixon paper mills were almost hidden from view, only the top story appearing above the raging water. The machinery was damaged to a great extent and the large stock of paper on hand ruined. The loss could not be estimated Friday night. The Richmond Light, Heat and Power Co.'s plant suffered greatly. Water rose to the depth of three feet on the floor, covering the machinery and rendering it unfit for use. The damage done will amount to \$20,000.

The city Friday night was in darkness, and it will be a week before the electric plant is started again. The Star Piano Co., whose factory is in the river bottom, was also flooded, and the damage is quite severe. The Hoosier Drill works were damaged considerably by the heavy rainfall, the basement being flooded and great quantities of material being soaked.

Richmond park (Glen Miller) was a scene of ruin Friday night. Roadways had been washed away by the rain and bridges were torn from their abutments. At Hagerstown, this county, where the Wayne county fair was being held, great damage was done. The levee at the canal gave way, flooding the fair grounds to a depth of several feet. The large number of horses and cattle on the grounds were rescued, but they were compelled to swim to the hillsides. A bad washout on the Pan-Handle occurred six miles east of here, and reports received Friday night from all portions of the country show that much more damage was done than was anticipated earlier in the day.

The total rainfall for the 24 hours ending Friday night at 11 o'clock is five inches, which is unprecedented in this location.

U. S. Senator McKelley Dying. UPPER SANDUSKY, O., Aug. 8.—Hon. R. McKelley, ex-state senator and ex-president of the new Pittsburgh, Fort Wayne & Chicago railway, is very low. He was United States land register under President Polk.

Damaged by Hail. CAMDEN, O., Aug. 8.—One of the heaviest rainstorms for years visited this place at 5 a. m. and it was still raining at 10 a. m. There is nearly five inches of rainfall. All streams are full and overflowing. Gardens are damaged.

## A BIG SCHEME.

The State of Kentucky May Go Into the Electric Light Business.

FRANKFORT, Ky., Aug. 8.—It has been about definitely decided by the sinking fund commissioners to carry out a supposedly economic enterprise by which the state will light its own public buildings, offices and the public square, and unless present intentions are changed a big electric light plant, to be operated by a trained engineer with the assistance of prisoners, will be placed in the penitentiary, while the wires will be run in to the public buildings and grounds. It is claimed that the state, which uses a great deal of light, will save much by gas and electric light bills by this means, and that the original cost of the plant will soon be more than saved.

The local Gas and Electric Light Co. is supposed to have exclusive privileges in Frankfort, and it does not seem to have occurred to the state officials that the council and object to the council permitting the poles and wires of any other lighting concern being run through any of the streets of the city. None of the officers interested in the local lighting company has been asked about the matter, and what is said about their possible fight is only conjecture.

## INTENSE HEAT.

Outdoor Work in St. Louis Abandoned Owing to the High Temperature.

ST. LOUIS, Aug. 8.—There is no cessation of the intense heat from which St. Louis has suffered during the past few days. At noon Saturday the mercury registered 98 degrees on surface thermometers. Nearly all contractors have abandoned outdoor work. Owing to the high temperature work in the quarries and other exposed places about the workhouse has been suspended. In the 24 hours ending at noon Saturday 47 cases of heat prostration were reported at the city hospital.

Reports Saturday morning from nearby points in Missouri, Illinois and Arkansas state that the mercury is close to the 100 mark and in many sections harvesting has suspended.

Block Destroyed by Fire.

PANA, Ill., Aug. 8.—At 12:15 o'clock Saturday morning fire was discovered in the rear of Sharrock's cigar manufactory, in the Glasgow block, and in a short time the whole block was a mass of flame. The fire originated from a defective flue. Sharrock's cigar manufactory, Rankin's grocery, Ford's bicycle depot, McClung's candy manufactory, and Ford's gallery were wiped out. The buildings are a total ruin. Loss about \$27,000; partially insured.

Who is "Ballard, of Atlanta?"

ATLANTA, Ga., Aug. 8.—"Ballard, of Atlanta," has figured prominently in the press reports of the sound money democratic convention at Indianapolis. The most persistent inquiry in Atlanta fails to locate the identity of this mysterious Georgia representative. T. B. Neal, national committeeman for Georgia of the sound money movement, says he never heard of Mr. Ballard and has no idea who he is. Interest in "Ballard, of Atlanta," is widespread in Georgia.

Forest Fires in the Choctaw Nation.

PARIS, Tex., Aug. 8.—Forest and prairie fires are raging throughout the Choctaw Nation, doing immense damage to timber, and in many instances to farm property, by destroying fences, causing the destruction of crops by stock. The burning of the grass at this season of the year means a loss of thousands of head of cattle from starvation.

Through the St. Louis Tornado.

Here is an illustration of the way the wind handled things during the big St. Louis tornado. This bicycle,

owned in East St. Louis, was struck by three barrels of syrup, a tierce of lard and one barrel of vinegar. Absolutely the only uninjured parts are the saddle and the Morgan & Wright quick-repair tires, which were full of air when the machine was found. Even if these tires had been punctured, unless severely torn, any one of the holes could have been repaired by the quick-repair device in them, without trouble. Riders of these tires, when they have a puncture, need only be careful to pump as much air as possible into the tire before inserting the quick-repair tool. The repair can be made in two minutes, at the roadside, without taking the tire off the rim.
