Found dead! There is something so shocking about sudden death that the mere mention of it wreathes the nerves of sensitive people. Millions of people pray for deliverance from it. Every Sunday in every Episcopal church in the world, these words are said: "From battle, and murder and sudden death, Good Lord, deliver us."

Just why sudden death should be shocking, and death after lingering disease easy to bear, would puzzle any one to tell. It would seem that it would be more terrible to see some loved one wasting away, daily becoming weaker—daily slipping toward a death no less certain because it was slow in coming. Consumption causes more deaths than heart disease—more than cholera—more than yellow fever—more than any other disease the world has ever known. And yet people care less about it. A man in danger of sudden death from heart disease can avoid the danger simply by keeping quiet and avoiding excitement. Consumption goes right on with its deadly work, no matter what the man does or how he conducts himself, if he doesn't take the right medicine to cure it. Consumption affects the whole body. It is a blood disease. It permeates the whole system. It shows in the lungs because the blood goes to the lungs for purification. It carries impurities there to be made pure. If there is too much impurity, the lungs are over-worked—overloaded—the impurity stops there. The germs of disease stop there. They develop and multiply and then consumption takes definite form. Dr. Pierce's Golden Medical Discovery cures 98 per cent. of all cases of consumption, lingering coughs, throat and bronchial diseases if it is taken according to directions. Get it at drug stores; learn all about it in Dr. Pierce's great 1000 page work, "Common Sense Medical Adviser," sent FREE on receipt of 21 one-cent stamps to cover cost of mailing only. It contains 1008 pages, profusely illustrated. It is a veritable medical library, complete in one volume. Every family should possess a copy for ready reference in case of sudden sickness or accidents. World's Dispensary Medical Association, Buffalo, N. Y.

MUST HAVE LIFE BOATS.

The New Order Will be Rapidly Enforced. Captain E. P. Chancellor, Chief Inspector of steam vessels for the Pittsburgh and Cincinnati districts is in the city, on his quarterly tour of inspection. He will remain here several days and will take part in some of the inspections now being conducted by Captains Atkinson and Phillips, the local inspectors. Captain Chancellor said yesterday that the order concerning life boats issued recently had met with prompt obedience in his district. Every boat must be equipped with the regulation life boat according to the established government rules, and unless the order is obeyed promptly, Captain Chancellor said, the boat owners may find themselves in collision with federal law. But no trouble is anticipated in this district.—Pittsburg Post.
