For Auditor, W. A. PATTERSON, of Waterford.

For Recorder, JOHN W. ATHEY, Marietta Towns p.

For Commissioner, JOHN RANDOLPH, Wesley Township.

For Infirmity Director, WM. SCHNAUFFER, Newport Township.

The Republican Party stands for honest money and the chance to earn it by honest toil. WILLIAM MCKINLEY.

THE DOLLIVER meeting last night more than filled the Auditorium, and demonstrated by the order maintained how just is the letting of the place for a big meeting.

SENATOR DANA organized a McKinley club at Murphy Monday evening; and it was most gratifying to see enrolled as charter members a number of Democrats of long standing.

THE Republican campaign managers in this county made a ten strike when they secured Hon. V. B. Dolliver to address the people hereabout.

Mr. Dolliver is a man of fine presence—a typical westerner in appearance, and he darts into the ramifications of his subject like a man who is impressed with the truth of his utterances and who has an earnest desire to lead the benighted into the broad day of Republican belief.

All along the shores of the latterday politics did he locate Democratic wrecks and he stopped at the worst of them to hold up to view some of the wreckage, and tell how they might have remained intact had the bargues been intelligently handled.

He referred to the incomparable condition of things in '92, when under our now much derided (by Popocrats) system of finance the country prospered as it never did before; and gave the true cause of the depression of '93 and since, which lies at the door of Wilson, Gorman and other bungling tariff tinkers, and which is not the slightest symptom of a degree was reflected upon by our money standard.

He wondered why the Silverites were constantly going back of several seasons of good times to dig up the great Silverite bluff, the "crime of '73," when silver practically had run itself out because of its scarcity and consequent premium.

Mr. Dolliver used many strong and unique figures of speech, and they had telling effect on the audience, who at the close called for him to "go on."

The chairman of the evening was Mr. William Kerns, of the Third Ward, and he very gracefully handled the meeting.

The "Glee Club" was of course in strong evidence, and it filled in the chinks in an entertaining way with sprightly songs.

What Stultification!

On June 24th the Democracy of New York in convention assembled, declared: "Free coinage of silver by the United States alone can have no other effect than to change our present standard to one of silver and to retard, perhaps destroy forever, the success of the movement now general throughout civilized countries for the restoration of free bimetallic coinage in the principal mints of the world. We believe that such bimetallicism, to which the nation is solemnly pledged, can only be safely secured and permanently maintained through the concurrent action of the leading nations of the world. Neither this country nor any other country, independent and alone, is able to maintain it, and it would be folly to attempt it. Being so convinced, we are opposed to the free and unlimited coinage of silver in the absence of the co-operation of other great nations."

Last week the crowd was bolted, head, feathers and all, in the following resolution, adopted at the State Conven-

tion: "The Democratic party of the State of New York, in convention assembled, unreservedly indorses the platform adopted by the Democratic party at the National Convention held in Chicago on July 7, 1896; cordially approves the nominations there made; pledges to William J. Bryan and Arthur Sewall its hearty and active support, and declares as its deliberate judgment that never in the history of the Democratic party has a platform been written which embodied more completely the interests of the whole people as distinguished from those whose legislation for private benefit than that given to the country by the National Democratic Convention of 1896." Can anything be more stultifying than such a complete somersault—believing even the semblance of principles! And now comes Senator Smith, of New Jersey. In May the State Convention met in Trenton, and made the following declaration: "We are in favor of a firm unvarying maintenance of the present gold standard. We are opposed to the free coinage of silver at any ratio, or to the compulsory purchase of silver bullion by the government." With such instructions Mr. Smith was sent to Chicago, where he and the true brains of Democracy were overwhelmed by the great tide Populism, Altgeldism, Repudiation and Anarchy. He returned home and now declares in favor of Bryan and Bryanism. Though still adhering to previous opinions, he "bows to the will of the majority", believing that even if Bryan may ruin the country, the people should give him the chance. And this man, a Senator of our common country sent to Congress to make laws for the best good of all the people!

In Maine the same thing took place, but the nominee for Governor had the conscientious decency to decline. The fact is, there is a great winnowing going on, and the Democracy is shaking out its populist and anarchistic elements, and its brains and intelligence and true patriotic adherents are standing firmly with the Republican party to crush out, now and forever, these crazy, unsound ideas of inflation, repudiation and dishonesty.

How Protection Was Overthrown in England.

Free trade was brought about in England in 1846 by deception, as it was in the United States in 1892. This is shown fully and clearly in "Protection and Prosperity," the great tariff work. Speaking of the causes that led to the overthrow of protection in England, Mr. Cartiss says:

Had the real purpose of the Anti-Corn League been disclosed to the agriculturists, protection could never have been overthrown. Had they claimed or admitted what they believed the result would be, the sense of fairness pervading the masses of the English people would have made their triumph impossible. Had they told the farmers what they knew to be a fact, that the land would go out of cultivation, and that the food supply of the English people would be brought from foreign parts, their speakers would have failed in their efforts. The blackest page in the history of the whole movement is the campaign "of education," as they called it, which was carried on among the farmers from 1842 to 1846, to convince them of the advantages of free trade. While deliberately plotting for the ruin of the tenant farmers, the Manchester manufacturers were professing to be their friends. The rural districts were flooded with the literature of the League. Richard Cobden, John Bright, Colonel Thompson, and many other speakers, were going from place to place, addressing meetings and arousing the people against protection. It would not do to tell the farmers that their land would go out of cultivation; that cattle, sheep, hogs, wheat, barley, rye, oats, and even butter, cheese, eggs, poultry, and in fact nearly everything which they were producing, would be shipped into Manchester and the great commercial centres of England from other countries. Their mission was to get the farmers' votes, procure their signatures to petitions to parliament, asking for the repeal of the Corn Laws. The means used to accomplish this were most discreditable.

Oil at Coal Run.

A party of gentlemen who are organized under the name of the Marietta Oil Co., are congratulating themselves upon the success of a wild cat venture back of Coal Run. They drilled a test well to the Berea sand and shot it Monday. After the shot the hole filled up 300 feet with a good quality of oil and the well is certain to be a producer, though small. It is located on the Chas. Taylor farm, and a mile and a half back of Coal Run village and is in the purest kind of wildcat territory. The discovery of the Berea with oil in it in that section will stimulate further drilling, and a valuable new field is one of the possibilities. The owners of the well have 1300 acres under lease.

Republican Meetings.

Wednesday evening, at Northland school house, R. C. Dawes.

Wednesday evening, at Tick Ridge school house, W. H. Leeper and D. H. Merrill.

Thursday evening, at King's school house, R. A. Underwood and C. S. Dana.

Friday evening, at Knob's school house, R. S. Gage and B. E. Guyton.

Friday evening, at Mile Run, Col. J. H. Riley and W. H. Leeper.

Council Proceedings.

Council met in regular session Tuesday evening with all members present except Brennan.

Mr. Price moved to refer the grading of Lord street back to Street Committee.

A statement from the management of the Woman's Home, denying that German women were discriminated against, as had been intimated during a discussion in Council, was received and read by the Clerk. It was shown that the first lady admitted to the Home was a German woman. Upon motion of Mr. Moore, the application of the Home management for free use of the Auditorium one evening in October for the purpose of an entertainment to raise money for paying paving assessments, was granted by unanimous vote.

Bids for repairing the Putnam street bridge, according to specifications were received and opened, being as follows: J. B. Thorniley, \$307; R. R. Thorniley, \$380; Z. T. Darrow, \$341; E. B. Henderson, \$336. Upon motion, the bid of the first named, being the lowest, was accepted and the matter of inspection was left to the Bridge committee, with power to employ an inspector if needed.

Upon motion of Dr. McClure, the matter of removal of poles obstructing the alley between Third and Fourth streets above Scammel, was referred to Supt. Hancock, of the Electric Light Plant. Upon suggestion of Mr. Ridge the Superintendent was also instructed to take notice of unsafe pole at the corner of Montgomery and Fifth streets.

Judge M. D. Follett appeared before Council with a request for the filling of the low place in the alley between Front and Second street above Putnam with the surplus dirt from the street railroad trench on Second street. Upon motion of Bachman the matter was referred to the Street committee, with power to act.

Marshal Parlin requested Council to make arrangements for police use of the long distance telephone. Referred to the Police committee.

William Hoppman, who owns property on the west side of Third street above Wooster, appeared with a protest against the street being paved on the grade as at present proposed, which is fourteen inches higher than the grade given him when he built his house in 1885. After some discussion Bachman moved that the Engineer be instructed to run a grade that will place the west curb of the street three inches below the sidewalk and bring the east side of the street down to the same level. The motion was carried by unanimous vote, and it was decided to hold an adjourned meeting at 7 o'clock Wednesday evening.

Mr. Dale reported, in the matter of paving Butler street, that the railroads were favorable to the proposition of the city, the Terminal Co. and the C. & M. each paying one-third of the cost. The Solicitor was instructed to draw up a contract to that effect. Council thereupon adjourned.

Two Lives Saved.

Mrs. Phoebe Thomas, of Junction City, Ill., was told by her doctors she had Consumption and that there was no hope for her, but two bottles of Dr. King's New Discovery completely cured her and she says it saved her life. Mr. Thos. Eggers, 139 Florida St., San Francisco, suffered from a dreadful cold, approaching Consumption, tried without result everything else, then bought one bottle of Dr. King's New Discovery and in two weeks was cured. He is naturally thankful. It is such results, of which these are samples, that prove the wonderful efficacy of this medicine in Coughs and Colds. Free trial bottles at W. H. Styer's Drug Store. Regular size 50c. and \$1.00.

Watertown.

Thrashing all done and wheat sowing well under way. This is the week to put in the wheat and corn in shock. It was slow cutting, so much being down and tangled from wind. No apples. Fall pastures good. Stock in good condition. In the midst of the agricultural fair season.

Some correspondents are saying hard things of the Washington County Fair. Amusements and fairs often receive admission through misrepresentation and when once admitted and admission money passed to the Treasurer, they are set up within the grounds, it is difficult to have them removed and the Fair Board is excusable, but should be watchful of the imposition the next year. The objective points of an Agricultural society should be education, pleasure and profit.

This week the Barlow Fair will be held in Ford's Grove. The Board consists of farmers and in an agricultural district the Fair will be a success. Before this is read the wedding bells will ring out their merry strains to the marriage of two of our most esteemed young people, Mr. B. J. Hoon to Miss Esabella Pryor. The wedding will occur at the home of the bride on Tuesday September 22nd. Our best wishes go with you.

Grandma Armstrong and W. G. Woodford are quite feeble of old age.

Mrs. Wm. Schilling is spending a few weeks with friends at Pittsburg.

A daughter was born to Mr. and Mrs. Bark Burchett.

First frost Sunday morning.

Joe Alexander has gone to Cutler and will erect a planing mill.

The Republican meeting at this place last Saturday was very well attended. Messrs. Henning of Marietta and E. D. Davis of Hillsborough, Ohio, laid the subject very plainly before the audience.

R. W.

DELICATE WOMEN SHOULD USE BRADFIELD'S FEMALE REGULATOR.

IT IS A SUPERB TONIC and exerts a wonderful influence in strengthening her system by driving through the proper channel all impurities. Health and strength are guaranteed to result from its use.

My wife was bedridden for eighteen months, after using BRADFIELD'S FEMALE REGULATOR for two months, is getting well.— J. M. JOHNSON, Malvern, Ark. BRADFIELD REGULATOR CO., ATLANTA, GA. Sold by all Druggists at \$1.00 per bottle.

Epidemics Prevailing.

Dr. C. O. Probst, secretary of the state board of health, has returned from Buffalo, where he attended the annual meeting of members and officers of state boards of health. He found reports awaiting him indicating an alarming prevalence of typhoid fever and diphtheria in certain quarters of the state. Thirty cases of typhoid fever and 12 of diphtheria are reported at Conesville, Coshocton county. At Byre, Ross county, 27 cases of diphtheria are reported, with eight deaths. An epidemic of typhoid fever is raging at Gibsonburg, Sandusky county, and the local authorities have requested Dr. Probst's presence. There is also an epidemic of scarlet fever in Athens county, occasioning a postponement of the opening of the schools.

Bucklen's Arnica Salve

League Games.

Table with columns for City, W, L, Pr. Rows include Cincinnati, Cleveland, Baltimore, Philadelphia, Boston, Brooklyn, New York, Washington, St. Louis, Louisville.

An Ordinance

TO IMPROVE PART OF THE FIFTH SEWER DISTRICT, IN THE CITY OF MARIETTA, OHIO.

Be it Ordained by the City Council of the City of Marietta, Ohio, two-thirds of the whole number of the members elected thereto concurring as follows:

Section 1. That the improvement of the following part of the Fifth Sewer District in the City of Marietta, Ohio, be proceeded with in accordance with the resolution to improve the same, passed by the said Council August 4th, 1896, by constructing sewers and drains, with their necessary appurtenances, including man-holes, lamp-holes, and flush-tanks, and house-connections every forty-five (45) feet from the main to the curb in and along said street, in accordance with the plans, specifications, and profiles, relating to said improvement on file in the office of the Civil Engineer of said City, to-wit:

Franklin Street, from the northerly line of Lancaster Street to the Ohio River.

Section 2. That the cost and expense of said improvement, less the cost and expense of so much of said improvement as may be included in the crossings and intersections of any streets and alleys, and less one-fiftieth of the entire cost and expense thereof, shall be assessed per front foot, according to law, upon the lots and lands abutting thereon: said assessments shall be payable in twenty semi-annual installments, and the same collected as provided by law, and in the assessing ordinance hereafter to be passed, and bonds shall be issued in anticipation of the collection thereof.

Section 3. That this ordinance shall take effect and be in force from and after the earliest period allowed by law.

Passed Sept. 15, 1896. S. J. HATHAWAY, President of City Council. CARL BECKER, City Clerk.

WHEELS!
