### Later Accounts of the Terrible Storm in Florida.

#### The Property Damaged in the State Will Foot Up a Million Dollars.

##### Fully One Hundred Lives Were Lost and Perhaps Ten Thousand People Were Rendered Homeless—Fire Broke Out at Cedar Keys.

JACKSONVILLE, Fla., Oct. 3.—The West India hurricane struck Florida Tuesday and though it lasted but three hours at each point visited, was the most disastrous storm experienced in Florida. The damage to property in the state alone will foot up a million dollars. Fully a hundred lives were lost and perhaps ten thousand people were rendered homeless. The course of the storm was from Cedar Keys on the gulf coast, north by northeast and through the thriving town of Lake City. Through a path fifty miles wide, few houses were left standing, the wind at times blowing at the rate of one hundred miles an hour, averaging 80. In this city, distant from storm center fully fifty miles, the wind for a minute blew one hundred miles an hour and for five minutes seventy miles an hour. In Jacksonville scores of buildings were unroofed and trees blown down. The storm had the characteristics of a tornado. It skipped some places in its path, bounding over to others where ruin was wrought. Cedar Keys was exposed to the full force of its fury. There a score of fishermen on the sponge banks were drowned and their vessels were wrecked. A tidal wave visited the town and inundated it. During the tidal wave a fire broke out and an unusual spectacle was witnessed of firemen fighting flames almost shoulder deep in water. Four miles of trestling of the Florida Central and Peninsular railroad, entering the town was wrecked. Lake City had almost every tree in town blown down, and for two days the streets were impassable. Two people were killed—a prominent lady, Mrs. Frazier, and a Negro boy. Here many houses were razed, while roofs of others went whirling through the air. Lake City is in Columbia county, which has great lumber interests. Half the yellow pine timber was blown down and lumber and turpentine men lost thousands of dollars, as the lumber is badly splintered and will soon be attacked by worms.

In Baker county, which adjoins Columbia, not a score of houses out of a thousand were left standing. Grain

## THREE ROBBERS

### Hold Up a Train on the Atlantic and Pacific Road.

#### One Desperado Shot and Killed by a United States Marshal.

##### The Bandits Then Began an Indiscriminate Fire—The Express Car Safe Was Blown Open and Ripped, But the Robbers Secured No Money.

ALBUQUERQUE, N. M., Oct. 3.—Atlantic and Pacific officials in this city have been advised that the westbound passenger train, No. 2, due here at 8:45 p. m., has been held up by five outlaws near Rio Puerco bridge. U. S. Marshal Loomis, who was a passenger on board, is reported to have shot and killed Cole Young, one of the robbers, directly after the train was stopped. Young's companions thereupon began shooting indiscriminately. After terrifying the passengers and train hands into submission the robbers cut the express car and engine from the train and ran them up the track a few hundred yards. An explosion followed and it is supposed that the express car safe was blown open. A special train has been dispatched from this city to the scene of the hold up. No further information is to be had at this hour.

The held-up passenger train from the west just came in at midnight. Conductor Sam Heady states that when the train reached the Rio Puerco tank Engineer Ross said that a pin in the engine was out of gear, but he thought he could go up the divide. The conductor thought not, and just as the engine was about to fix the pin three masked men jumped on the engine, when the shooting commenced.

A lantern was shot out of the hands of the brakeman, after which the engineer was told to uncouple the engine and express car from the train.

Deputy United States Marshal Loomis, who has been down in Arizona on the trail of Southern New Mexico bandits, was on his return to this city, and he left the smoking car when the first shot was fired. He took deliberate aim at one of the robbers, shooting him through the head. The man ran 100 yards and dropped dead. The other robbers retreated to the Malpais, where their voices calling for their comrades could be heard.

Conductor Heady states that Loomis remained at Rio Puerco, expecting the robbers to return for their dead companion, while Selve met the posse of officers at Atlantic and Pacific Junction, and returned with the party to Rio Puerco.

The hold-up was a failure financially, the robbers securing no money. Loomis thinks that the hold-ups are the same gang that robbed the Separatist office a few weeks ago and have been terrorizing the southern part of New Mexico, and that Young was the leader.

## NINETY PER CENT.

### Of the Timber and Fifty Per Cent. of the Buildings in the Sawanee River Country Destroyed by the Late Storm.

#### SAVANNAH, Ga., Oct. 3.—A letter from Gainesville, Fla., dated October 1, says:

B. F. Hampton and Maginnis, who have just returned from the Sawanee river country tell a dreary story of the devastation there. Fully 90 per cent. of the timber is down and 50 per cent. of the residences and farm buildings have been destroyed. The damage does not stop there. In Lafayette county the valuable cedar forests are lost. Stock has been killed by hundreds. All crops have been destroyed. Hundreds of people are in distress, no home and nothing to eat.

## DELEGATES

### To the National Association of Democratic Clubs Gathering at St. Louis.

St. Louis, Oct. 3.—All the hotels were filled Friday with delegates to the second quadrennial convention of the national association of democratic clubs and the gathering Saturday promises to exceed the expectations of the local committee of entertainment. Vice President Stevenson was an early arrival and is quartered at the Southern hotel. He will be temporary chairman of the convention which assembles at 11 o'clock Saturday morning. President Black had not arrived at 11 p. m. Congressman McMillan, of Tennessee, who will deliver an address to the convention, arrived here Saturday morning, on an earlier train than that of Candidate Bryan. Secretary McKean has established headquarters at the Southern, where all the delegates report. He states that of the 10,000 democratic league clubs in the country, 3,000 were represented Saturday by from one to five delegates.

Beautiful autumn weather greeted the delegates and visitors to the second quadrennial convention of the national association of democratic clubs which assembled in the auditorium building Saturday morning. The spacious structure was profusely decorated with flags, banners and bunting, interspersed with pictures of men celebrated in the history of democracy. A notable exception in the gallery of portraits was the absence of President Cleveland's well known lithograph.

On account of delayed trains and late arrivals there was no meeting of the executive committee Friday night. Early Saturday morning those members of the executive committee who are in attendance at the convention met informally and ratified the program of the proceedings as prepared by Secretary McKean. This provides for three sessions—preliminary organization at 11 a. m., address by President Black and Vice-President Stevenson, the appointment of committees, etc.

The afternoon session was scheduled for 2:30 o'clock, but on account of a parade by "King Hots and his funny fellows" it did not begin until an hour later. At this session the resolutions will be adopted and officers elected for the ensuing four years.

An evening session was scheduled for 7:30 p. m., at which the principal attraction was a speech by Presidential Nominee Bryan. The only city making a bid so far for the next convention of the clubs is Detroit, and the chances favor the selecting of that city.

## ATROCIOUS MURDER

### And Outrage of a Lone Woman Near St. Joseph, Mo.

ST. JOSEPH, Mo., Oct. 3.—News reached this city at an early hour Saturday morning of an awful tragedy Friday evening near Arkie, Mo., nearly five miles north of St. Joe, on the Hopkins branch of the Burlington road. Some unknown man, presumably a tramp, entered the house of John Bomley while he was away and murdered his wife, who was alone at home. After a hard fight and the breaking of considerable furniture the man finally overcame Mrs. Bomley, who was a strong woman, and beat her brains out. All the rooms in which the struggle took place are covered with blood. No cause can be assigned for the terrible crime other than that the tramp found Mrs. Bomley alone and attempted to assault her. Posses are scouring the country and if the man is caught he will be lynched.

### An Arizona Mining Town Nearly Destroyed by a Cloudburst.

TUCSON, Ariz., Oct. 3.—A report has just been received here that the mining town of Bisbee, Ariz., containing 2,500 inhabitants, has been almost entirely washed out by a cloudburst. The telegraph wires are down and the report can not be verified, but a serious disaster is feared as the town is located in a narrow canyon, which offers little chance of escape from floods.

Further meager reports from Benson confirm the death of Mrs. Ashburn and her children, Mrs. Zok and her two boys and four Mexicans.

## Money in Circulation.

WASHINGTON, Oct. 3.—The treasury circulation statement issued Friday places the aggregate of all kinds of money in circulation October 1 in the United States at \$1,859,992,439, or an increase during September of \$43,132,653. The per capita circulation is stated at \$22.05. The statement increases the gold coin issued or in "general stock" from \$370,557,053 on September 1 to \$600,544,257 on October 1.

## A BABY SHOT

#### By His Mate Brother, While Playing With a Gun, Near Zanesville.

ZANESVILLE, O., Oct. 3.—Two children of Andrew J. Andrews, at Iruille, this county, were playing with a gun Friday morning. The elder boy secured the ammunition from a drawer in a cupboard, and after several vigorous efforts loaded the weapon. He then pointed it at the head of his little brother, and pulled the trigger. The aim was only too true, and the charge of shot entered the baby's head, virtually blowing it off. Fragments of flesh and blood and bones were scattered the walls of the room. The little eight-year-old boy who killed his brother is both deaf and dumb and is not accountable for the terrible deed. As there was no one who witnessed the accident, the only details of the tragedy are obtainable from the boy, who is laboring under terrible excitement and has told different stories.

## CAN'T PAY RENT TO FAIL.

CINCINNATI, Oct. 3.—The net income of the C. N. O. & T. P. Railway Co. for the months of July, August and September, exclusive of rent, is about \$173,000. This is \$75,000 short of the rent due to the city and will have to be made up by the receiver in one way or another. The new annual rent of \$1,000,000 begins on the 1st of this month and is payable in January of 1897. In April, 1897, three months after, it will be in default, if not paid. The quarter just ending is usually the most prosperous in the year's business of the railroad. The prospect for the coming quarter therefore is not very reassuring.

Hoadly was adjutant general of the state.

## In the Recent Attack on the Trocha Infantry Terrible Losses on the Spaniards.

NEW ORLEANS, La., Oct. 3.—A special dispatch from Key West says: Advice received here from Havana state that Antonio Maceo in a recent attack on the Trocha inflicted terrible losses on the Spaniards, more than 1,000 being killed and wounded.

The attack was made at night, and was carefully planned. The fighting was general all along the line, but was fiercest near Artemisa, where Antonio Maceo led a picked force of insurgents against the Spanish column, commanded by Gen. Aralaz. The Spaniards were taken completely by surprise. The insurgents had several dynamite guns, and these were used with terrible effect.

It is said many Spanish officers were killed and that Gen. Aralaz himself was slightly injured.

The insurgents captured six pieces of artillery, many thousands cartridges and several hundred stands of arms. A large section of the Trocha fortifications were demolished with dynamite.

## DESTRUCTION

### Wrought by Recent Typhoon Floods and Earthquakes in Japan.

TACOMA, Wash., Oct. 3.—Japanese advices to September 10, received by the steamer Braemar, give graphic details of the widespread destruction wrought by the recent typhoon floods and earthquakes. Many of the most important silk factories were so damaged that they were compelled to close. The cotton crop of Yamashiro and Settsu was damaged one-half, and in Yamato and Kawachi provinces 30 per cent. Owing to the flood a partial vegetable famine exists in Niigata prefecture. In Rakuga, Akita province, over one hundred houses were destroyed by the earthquake.
