LEHIGH VALLEY PEOPLE

Negotiating for the Valuable Coal Lands Recently Discovered in Western Ontario.

NEW YORK, Nov. 2.—A Sun special from Toronto, Ont., says: Four months ago there was a discovery of coal in a fertile district of Algoma, Western Ontario. It did not take long for the report to spread, and in a very short space of time the Lehigh Valley people had dispatched experts to the scene of the discovery with instructions to test the coal thoroughly, and if it was, in their opinion, of the quality represented, to at once buy up the surrounding country and secure an option on the district.

But when the Lehigh Valley people had made up their minds to buy it they found Canadian capitalists had got in before them and got a claim on the property. The Lehigh Valley combine has not given up the hope of securing the coal mines.

A proposition is now before the syndicate in which the combine offer to pay more than \$1,000,000 if the present holders of the options will sell out to them the whole district which the syndicate has now secured. The advisability of accepting the offer is being considered. The syndicate would prefer to start a Canadian company with \$1,000,000 capital stock.

Mr. William Wilson, a representative of the Canadian syndicate, has gone to New York to meet capitalists there who may offer more for the property than the Lehigh Valley. The coal is of good quality and its discovery in Algoma is considered even more valuable than that of the gold mines.

THERE ARE

Two ways to make an overcoat—a Right way and a Wrong way. There is more than one way to make it wrong. One is to have a cheap tailor make up a good piece of goods; another way is to have a good tailor make up a poor piece of goods. There is but ONE way to get up a GOOD overcoat, and that is to have a good tailor make up a good piece of goods, but if you go to a tailor, how are you going to tell what you will get till you get it? A good way to get a good Overcoat is to come where they are.

WE HAVE GOOD OVERCOATS I

They were made by good tailors and were made RIGHT. You can come here and look at them, and if you don't like them you "don't have to" take any of them—all you are out is a LITTLE time. When you go and get measured you are out your time, ("in a measure") getting measured; trying it on to see how it fits, and after that trying it on to have the mistake remedied.

At the "BUCKEYE" you can get one that fits at first.

One of the swellest overcoats in Marietta is a blue or black Kersey. WE HAVE THEM. They cost you \$7.50, \$8, \$9, \$10. One of the best VALUES in overcoats that was ever shown is our strictly all wool Kersey overcoats in black, blue or brown at \$6.00. Men have told us that they don't see how we can do it. Didn't expect to a year ago, but things are unsettled this year and MONEY talks. Bring yours in and hear it.
