

CLEVELAND

Polishing Up His Annual Message to Congress.

The President is Now Considering the Financial Portion of It.

He Will, as Heretofore, Recommend the Retirement of the Legal Tender Notes, the Banks to Issue a Larger Volume of Currency Redeemable in Gold.

New York, Nov. 10.—A Herald special from Washington says:

President Cleveland is considering the financial portion of his annual message to congress. He has been in consultation with Secretary Carlisle and Postmaster General Wilson regarding the prospective revenues and expenses of the government, as well as the reforms that are necessary to the present monetary system, and his last annual message to congress will discuss these matters in detail.

The president will as heretofore recommend the retirement of the legal tender notes of the government, so as to take the government out of the banking business and make it impossible for speculators to drain the treasury of gold by means of an endless chain of greenbacks and Sherman notes, which must be reissued as fast as they are redeemed.

In order to avoid any contraction of the currency it is part of the administration's plan to have this redemption of legal tenders accompanied by amendments to the banking laws, so as to enable the banks to issue a larger volume of currency, which they will be compelled to redeem in gold, on demand.

Whether the president will make any recommendations regarding increased revenues is uncertain but he will thoroughly discuss the revenue situation and will doubtless take occasion to point out that the principal reason for the failure of the present tariff law to produce sufficient revenue is that it has been in operation during a period of great business depression, when the country was under the constant threat of a depreciated currency.

Although an effort is to be made to pass the Dingley tariff bill through the senate at the coming session, there is great difference of opinion among republicans as to the wisdom of this policy.

WASHINGTON, Nov. 10.—Nearly every senator or representative who has thus far returned to Washington, expresses a belief that an extra session of both houses of the Fifty-fifth congress will be called to deal with the financial question. Prime Minister Salisbury's Explanation of the Matter Satisfactory.

The Graphic Holds That the Solution of the Venezuelan Question Reflects Credit Upon All Concerned—Dignity of Both Countries Unimpaired.

LONDON, Nov. 10.—The Daily News, commenting upon Lord Salisbury's speech at the Guild hall Tuesday, says in reference to his explanation of the Venezuelan matter that the terms of the settlement as stated by the prime minister are perfectly satisfactory, involving no surrender of essential principles. The solution arrived at will enable each side to claim a victory. Lord Salisbury can justly say he succeeded in protecting the rights of the British settlers, and Mr. Olney can claim with literal truth that he succeeded in bringing Great Britain to consent to arbitration.

The Post will say that the settlement of the Venezuelan dispute is wholly satisfactory to Great Britain and the United States.

The Daily Graphic holds that the solution of the vexatious question reflects the highest credit upon all concerned. It fully justifies the intervention of the United States.

The Standard will briefly welcome "the auspicious announcement."

The Daily Telegraph says the terms of settlement leave the dignity and interests of the United States and Great Britain unimpaired.

The outlaws, with drawn revolvers, ordered them into one corner of the room and then bound and gagged both. While one robber watched over them with his pistol in readiness his companion rifled the safe of its contents and slipped a quantity of gems into his pocket. Mr. Hermann's watch was taken from him. THERE ARE

Two ways to make an overcoat—a Right way and a Wrong way. There is more than one way to make it wrong. One is to have a cheap tailor make up a good piece of goods; another way is to have a good tailor make up a poor piece of goods. There is but ONE way to get up a GOOD overcoat, and that is to have a good tailor make up a good piece of goods, but if you go to a tailor, how are you going to tell what you will get till you get it? A good way to get a good Overcoat is to come where they are.

WE HAVE GOOD OVERCOATS

They were made by good tailors and were made RIGHT. You can come here and look at them, and if you don't like them you "don't have to" take any of them—all you are out is a LITTLE time. When you go and get measured you are out your time, ("in a measure") getting measured; trying it on to see how it fits, and after that trying it on to have the mistake remedied.

At the "BUCKEYE" you can get one that fits at first. One of the swellest overcoats in Marietta is a blue or black Kersey. WE HAVE THEM. They cost you \$7.50, \$8, \$9, \$10. One of the best VALUES in overcoats that was ever shown is our strictly all wool Kersey overcoats in black, blue or brown at \$6.00. Men have told us that they don't see how we can do it. Didn't expect to a year ago, but things are unsettled this year and MONEY talks. Bring yours in and hear it.
