

LEASE OF LIFE.

Walling Respited for Four Days by Gov Bradley.

The Governor is of the Opinion That Scott Jackson Will Make

Some Statement Before His Execution That Will Throw More Light on Walling's Connection With Miss Bryan's Murder, as He Promised to do.

FRANKFORT, Ky., March 13.—Gov. Bradley has decided to grant a brief respite to Alonzo Walling.

This determination was finally reached Saturday morning.

It is supposed that this action is for the purpose of solving, if possible, the mystery that still surrounds the Pearl Bryan murder.

The governor is of the opinion that Jackson will make some statement which may throw more light on Walling's connection with the murder.

Alonzo Walling, as he appeared when arrested.

It is understood that the respite is until March 24 or 25, the exact date not yet having been made public.

ALEXANDRIA, Ky., March 13.—A reporter informed Walling by note of the respite he had received.

The prisoner called back: "Well, that's a good start, anyhow. I think my life will be saved."

Then he passed the note to Jackson, who read it and turned away without a word.

Mrs. Walling was greatly agitated when apprised of her son's respite.

Then she said: "I thought I was hoping against hope, but light seems breaking at last. My son has told all he knows, is no more guilty than he has confessed himself to. I believe now that his life will be saved."

Mrs. Jackson's condition is critical. She refuses to believe the worst about her son until she shall hear it officially. It is feared that the truth, thus presented, will cause a serious attack of nervous prostration. Dr. Youtsey, for this reason, has been asked to remain at Alexandria.

Jackson will surely hang Saturday, and every effort will be made to get him to confess before he meets his death. Jackson undoubtedly holds the life of Walling in his hands.

DR. HUNTER

Receives the Republican Caucus Nomination for United States Senator.

FRANKFORT, Ky., March 13.—It was 9:15 when Chairman Jones called the republican caucus to order Saturday morning. On roll call 62 members were present. All but six legislators were either present in person or by proxy.

Chairman Jones stated: "A quorum is present and the caucus is now ready to ballot."

Senator Deboe, a Hunter man, moved the previous question.

Representative Burnam called for the yeas and nays on the question, and pending the roll-call, Representative Burnam raised the point that proxies could not be voted in caucus. The chairman ruled to the contrary. It was decided to go ahead and ballot by vote of 40 to 25.

After a lively tilt, engaged in by Burnam on one side and Jones, Deboe and others on the other, Chairman Jones ordered the ballot. Senator Hisssem rose to a question of privilege and the ballot proceeded.

The ballot resulted: Hunter, 38; Holt, 16; Lewis, 5; Boyle, 4; and Yerkes, 2. Necessary to nomination, 35. Hunter was declared nominated.

Representative Ashcraft moved to make Hunter's nomination unanimous. It was seconded by Representative Rice. A shout went up and Representative Bailey moved that the chair appoint a committee to notify Hunter of his nomination.

The chair appointed Bailey, Blanford and Deboe as the committee and there was a wild scene of enthusiasm as Hunter came through the door and was escorted to the speaker's stand.

The nominee then made a short speech, in the course of which he said: "For those who opposed me I have no unkind feeling. A great deal has been said in this campaign about me, and a great deal has been charged to me which I never said. I want to say now that I have never said an unkind word of any member of this body. Again thanking you most sincerely for this great honor, I accept the charge and shall always do everything which I can to prove worthy of it."

The Blackburn men have sprung a new scheme to beat Hunter. On the first ballot the silver and sound money democrats will vote for Gov. Bradley and so may a dozen republicans.

A DECREASE

In Immigration During the Past Seven Months.

Many Deportations and Strict Examinations the Cause.

Republican Members of the Ways and Means Committee Working on the Pottery and Woolen Schedules—Officers of Executive Committee.

WASHINGTON, March 13.—There has been a decrease in immigration during the past seven months compared with the same period last year of 45,525. Commissioner Stump explains the decrease as follows:

The many deportations and strict examinations of the immigrant to the United States, has caused a large increase of immigration from Europe to Brazil, Argentine Republic and other South American countries, where inducements are held out for their migration. Italian immigration will be seriously checked by the proclamation of the Marquis di Rudini, minister of the interior for the kingdom, warning undesirable classes from embarkation and refusing passports.

WASHINGTON, March 13.—Hon. Benton F. McMillin of Tennessee, has been appointed chairman of the executive committee of the national association of democratic clubs of which Hon. Chauncey Black, of Pennsylvania, is president. The other members of the committee will be announced in a few days and it is said only those who were loyal to the Chicago platform will be appointed.

WASHINGTON, March 13.—The republican members of the ways and means committee were working over the pottery and woolen schedules of the tariff bill Friday and endeavoring to arrange the reciprocity clauses so as to open French and German markets to American products and live stock. A good deal of trouble is being found in putting the woolen and pottery schedules in a form satisfactory to all interests. The committee are endeavoring to agree upon specific duties instead of ad valorem rates which formed a part of the McKinley law as well as the present law. The wool growers are very much dissatisfied with the rates of the carpet wool and the committee is endeavoring to adopt a general scale of specific duties. The great variety of articles in the pottery schedule makes the specific system difficult to arrange, but efforts in that direction are being made. The McKinley schedules on both these articles are likely to be embodied in the bill to be introduced in the house next week, leaving changes to be made, if they are found practicable, at a later stage in the consideration of the measure. The resolution adopted for compelling France and Germany to abolish their restrictions upon American live stock and meat products is the offer of slight concessions in the duties upon mineral waters, champagnes, gloves, silks, chieol and argol.

WASHINGTON, March 13.—The committee on ways and means has concluded its labors on the new tariff bill, and the measure is now in the hands of the printer and will be introduced in the house of representatives on next Monday and referred to the committee on ways and means. It is the intention of the committee to report the bill back at an early date and press it to full consideration and speedy passage. The committee has worked incessantly from early in December until late Friday evening, when it concluded its labors, as far as it could.

THE INSURGENTS

Make a Raid on the Suburbs of Havana—Spanish Soldiers and Officers Captured.

NEW YORK, March 13.—A Press special from Jacksonville, Fla., says: Cuban Leader Acosta made a raid on the suburbs of Havana within half a mile of two block houses Wednesday night, capturing 35 Spanish soldiers and two officers. The attack was made on the turnpike or military road, as it is called, one of the best fortified roadways on the island.

The point of attack was a little hamlet where there were two large storehouses containing considerable ammunition and also clothing for the Spanish forces. The two block houses were located within half a mile of the place. The Cubans dashed in, looted the storehouses and then set fire to them. They then retreated rapidly to the right and came up in the rear of Isabella block house. The troops in this, seeing the burning buildings, rushed out leaving only a small guard behind. The insurgents perceiving this, managed to break in the block house door and in ten minutes were in full possession. Knowing that they could not retain them, they looted the building of all equipments that would be valuable to them, consisting of two stands of arms and considerable ammunition. They spiked the small field piece and setting fire to the house inside dashed off rapidly. The Spanish pursued them within a half an hour, but came back two hours later and reported that the rebels could not be found.

The only report made in Havana regarding this engagement was that a force of rebels had been dispersed, but the main facts are known all over town.

BRADLEY'S MESSAGE.

Mob Violence Denounced in Strong Terms—Speedy Election of a Senator to Take Jo Blackburn's Place Urged.

FRANKFORT, Ky., March 13.—Following are the main points in Gov. Bradley's message to the legislature, read at the convening of the special session at noon Saturday:

Citizens of the state have been atrociously murdered by mobs.

Decency and order has been outraged and murder committed under pretense of purifying society and punishing crime. Its effects are direful upon the community and brings the administration of justice into contempt. If sheriffs and jailers would do their duty much of this trouble might be avoided.

It is recommended that in certain cases prisoners be given arms to defend themselves against such attacks. Immediate and stringent laws are recommended.

It is apparent that the rate of taxation must be increased. It is suggested that the passage of a well-regulated law increasing the license fees of wholesale and retail liquor dealers, druggists and distillers would produce considerable revenue.

Fees might be charged for filing commissions, deeds, etc., and license fees might be required of persons selling cartridges and of newspapers and others offering firearms as premiums. A statement of the state finances is given.

The laws relating to the reports of corporations should be made more effective.

Evils of collecting delinquent taxes should be remedied.

The criminal laws should be made more explicit, so that prosecution could be made without delay.

The failure to pay interest on the Agricultural college bonds has severely crippled the institution.

There is no reason why present salaries should be greater; a general reduction should be made.

The election laws should be revised and made more stringent. The voter should not be deprived of his right of suffrage. Free speech should be encouraged.

The requirements of the fundamental law, in regard to the apportionment of the state in judicial districts, should be carried into effect. Additional judges are recommended.

A senator should be elected to fill the vacancy created by the expiration of J. C. S. Blackburn's term. This duty was not performed at the time it should have been, and it is hoped the legislature will be able to make a selection at an early day.

...CALLING...

Things by name don't make 'em so. If you bottle some rainwater and call it champagne, it won't make champagne out of it. If you take sour oranges and put a "sweet" sign on 'em, it won't make 'em sweet, will it? If you put up guucose and Ohio river water in a bottle and put a pretty blue label on it and call it a rheumatism cure, it won't cure rheumatism even if it's a dollar a bottle, will it? Putting on an all-wool label on a half-cotton suit won't turn the cotton into wool, will it?

We've got a good many things in our store that we could tell you are better than they are, but it wouldn't make 'em a bit better. We want them to turn out better than you think they are when you buy 'em—that makes you come again. We've got men's suits at \$3.75. WE tell you they are Vermont Grays and

....NOT ALL WOOL....

And we sell them for what they are. Wouldn't you rather buy of a house that don't have to exaggerate facts to get business? We have just received all-wool Fancy Plaid Cheviot Suits, well made and trimmed, which we are selling for \$6.00, \$7.50 and \$8.00, which beat anything ever offered you for the money. We are selling Boy's Long Pant Suits this week for \$3.50, \$4.00 and \$5.00, made of all-wool cheviot and Cassimere goods, which are world beaters.
