COUNCIL PROCEEDINGS.

Interesting Meeting of the "Dads" Tuesday Evening.

Council met in regular session Tuesday evening with the following members present: Price, Wittlig, Trautman, Wood, Garrison, Henry, Hardy and Pfaff.

Building permits were granted to Anna E. Layman, Waashington street; Peter Voll, Maple street; J. W. Snodgrass, Pike street; J. W. Lane, Montgomery street.

A petition was received from property owners on upper Warren street asking that the street be raised to grade.

Mr. Trautman, chairman of the Street committee, submitted a report in regard to the Bisantz Subdivision, finding one street only 30 feet wide and two streets only 40 feet wide. The report recommended that the plat of the subdivision named be rejected.

Mr. Wittlig reported that the committee had decided to make no further changes on Fourth street.

The Commissioner reported that he had notified Marcellus Dye to remove a barn from Matthews street in Putnam Place and that Mr. Dye said if the city wanted the barn moved it would have to move it itself.

Upon motion of Trautman Taylor Hivens was granted permission to exhibit horses on Greene street next Saturday.

Mr. Pfaff reported that the Water Works committee had decided to place the proposed drinking fountain on the West Side at the corner of Franklin and Maple streets, the estimated cost being \$45.

Mr. Price opposed the location proposed by the committee on account of objections of owners of adjacent property. In view of these objections the report was laid over for the present.

Mr. Wood drew attention to the switch being placed on Greene street by the Marietta Electric Co., and objected to the sidetrack being placed on one side of the street, leaving the main track through the center.

Mr. Price bought up the subject of a public vault at the music stand in Muskingum Park, the Park Commissioners having ascertained that the cost would be \$150.

The Engineer was instructed to give residents on Ninth and John streets a grade for sidewalks.

In regard to sewer work on Third and Front streets, T. B. Townsend stated that he had already repaired Third street and would begin immediately on Front street.

Upon motion of Price the matter of repairing the road above the West Side was referred to the Street committee and Commissioner.

Mr. Wittlig called attention to a hole in the Ice Harbor lot which stands full of water and suggested that it be filled. Mr. Wood thought "the descendants of the old pioneers should fill the hole, as it is generally considered sacred property."

Dr. Henry stated that dirt was being taken from Franklin street to fill private lots on the West Side, giving names of parties.

Upon motion of Trautman the hole in the Ice Harbor lot was ordered filled with earth from Fourth street.

Upon motion of Trautman the Engineer was instructed to furnish a grade for the alley above Wooster between Second and Third streets.

T. B. Townsend was allowed an estimate of \$2,511.13 on the Fourth street paving contract. Mr. Townsend was also allowed \$437.12 for repairing the intersections of Putnam and Scammel streets on Fourth.

Mr. Trautman moved that the street committee be instructed to secure prices on an additional street sweeper and report at a future meeting. The motion prevailed by unanimous vote.

Mr. Pfaff offered a resolution that Contractor Wilking be granted use of landings free of wharfage for the purpose of hauling gravel. Mr. Wood tacked on an amendment that the landings should be used under direction of the Landing committee. Dr. Henry opposed granting the privilege taking the stand that Mr. Wilking was getting paid for his work like everybody else and the Doctor couldn't see that he is entitled to any special privileges. The amended motion prevailed by a bare majority.

The Mayor reported fines and licenses paid to city during March and April of \$105.50.

Mr. Pfaff moved that the Engineer make a profile and estimate of the cost of paving Putnam avenue 30 feet in width from Gilman to Franklin street. Dr. Henry offered an amendment to include Maple and Market streets. Mr. Trautman opposed the amendment, but favored the original motion. Dr. Henry withdrew the amendment and Pfaff's motion prevailed. Price voting no.

Bills allowed; Council adjourned.

CRITICAL AGE FOR GENIUS. Host of Eminent Men Who Have Died at the Age of Fifty-Six.

Fifty-six years seems to be a fatal age for people of genius. Among those who have died at that age may be mentioned Dante, the Italian poet; Hugh Capet, king of France; Henry VIII, king of England; Henry IV, emperor of Germany; Paganini, Italian violinist; Alexander Pope, English poet; George Sala, English orientalist; Marcus Aurelius, emperor of Rome; Frederick I, king of Prussia; John Hancock, American statesman; Marie Louise, empress of France; Philip Massenger, English dramatist; Saladin, the great sultan of Egypt; Robert Stephenson, English engineer; Scipio Africanus, Roman general; Helvetius, French philosopher and author; Henry II, the first of the Plantagenet line; the elder Pliny, Roman naturalist and author; Julius Caesar; Charles Kingsley, English author; Juan Prim, Spanish general and statesman; Henry Knox, American revolutionary general; Thomas Mifflin, American patriot; Maryat, the novelist; George Whitefield, English founder of Calvinistic Methodism; Robert Dudley, earl of Leicester, favorite of Queen Elizabeth; Johann Caspar Spurzheim, German physician and phrenologist; and Frederick II, emperor of Germany.

Long-Distance Riding. For riding long distances, the great secret is—keep an even, steady pace, and cut down the stops. Order your meals to be ready beforehand, if possible, and avoid strictly unnecessary delays on the way, such as stops for altering the position of saddle or handles, which should be placed absolutely right before starting; dismounting to ask the way—which ought to have been made perfectly familiar by previous riding over the whole course, a part at a time—or pauses to extract small eatables, etc., from a bag—all things that may be wanted should be carried in a light basket fixed upright on a carrier, and easily unfastened with one hand while riding, says the Irish Cyclist. The comfort and ease of a long ride depends immensely on the proper management of such small details as the above.

A Champion Game Sayer. Earl de Gray holds the championship among the world's hunters for the quantity of game killed by one man. He is now 35 years old, and during the past 30 years has averaged 25,000 head of game each year. On one occasion he shot at 50 pheasants in three minutes and killed all but one of them. He has killed 11 tigers, a number of elephants and rhinoceros, bears and lions.

THE SUSPENDER SIGN.

One Way of Telling That a Man is Getting Old.

"There are many signs indicating that old age is coming on a man," remarked an aged gentleman to a Washington Star reporter, "but one of the surest is when he finds that his suspenders have a way of slipping off the shoulders. At first he thinks there is something wrong with the suspenders, and he tries to remedy it by tightening them up. For awhile this cures the trouble, but in a little while there is more slipping and he gets a new pair of suspenders. Even they slip off and make him feel uncomfortable. After awhile he discovers the trouble is not with the suspenders but with himself. As years roll on a man he gets more and more round shouldered, and unless he has his suspenders braced up by connecting them with a band behind the shoulders he cannot keep them up. I remember, some years ago, hearing two very prominent men speaking of the fact that they were getting old. One of them was at the time vice president of the United States and the other was a leading senator. 'What makes you think you are growing old?' one of them asked of the other. 'I found it out,' was the reply, 'as soon as I discovered that my suspenders would not stay up.' 'That has been my experience also,' came from the questioner. Neither of the gentlemen referred to had yet reached his seventieth year, but they had both discovered they were growing old by the same incident in their lives. I have never known it to fail. After a man reaches sixty his shoulders grow round steadily, and by the time he is seventy-five his shoulders have lost all their original size and formation."
