Oil Notes.

Table with 2 columns: Location and Price. Includes Tiona, Pennsylvania, Burnsville, Corning, Newcastle, North Lima, South Lima, and Indiana.

The well on the Andy Hanna farm has reached a depth of 1100 feet and will be drilled two hundred feet further.

The well on the Plumer farm at Lower Newport was put to pumping Friday and is doing nicely, but about how much it is doing could not be learned.

The derrick has been erected for the second well on the Plumer farm and it is thought that drilling will begin in a very short time.

The Hovis & Co. No. 6 on the Dye farm is in and has a heavy flow of gas and salt water, but will be drilled deeper if the briny fluid can be cased off.

Kingsley & Co. expect their No. 4 Reppart in some time the first of the week. Work has been delayed on this well because a stem was lacking and could not be obtained.

The Replevin Case.

The case before Squire Hart Saturday in which it was sought to replevin a horse, was an interesting one, but proved to be such that it required a lawyer to understand the points involved.

The horse was supposed to be the property of P. Parker and was sold by Constable Dye on an order issued by Mayor Richardson to satisfy a claim against Parker. The animal has been sold several times and was in the possession of Mr. Charles Campbell, of this city, from whom it was replevined.

It seems that about three years ago, and while the horse was in Mr. Parker's possession, that a deed of trust on the animal was given in West Virginia but was never recorded here and now the question is, Does that deed of trust hold good?

The suit was heard on a motion to dismiss and the Justice's decision was not learned last evening.

That O. R. R. Deal.

Mr. George H. Moffett, the attorney of the Ohio River road, is in the city as one of the party which came here to secure the removal of the capital to Parkersburg. He was asked last night about the report that the Ohio River road was about to be bought by the B. & O. company and he supposed the report was the result of an offer that had been made by the B. & O. company two months ago and which has just leaked out.

He said the Hill syndicate, at the head of which is President Hill, of the Great Northern road, had secured the control of the B. & O. and had offered the Ohio River company six million dollars, the amount of the capital stock for their property, but that offer was refused. He said that he had not heard of another offer and knew that General Manager Burt was not in New York for the purpose of negotiating for the sale of the Ohio River road.

Mr. Monnett Discouraged.

Cleveland, O., Feb. 17.—In the afternoon session of the Standard Oil hearing, E. W. Brown, who for many years has been with Scofield, Shurmer & Teagle, an independent firm which has fought the Standard, was put on the witness stand. The object of Attorney General Monnett was to prove that the Standard Oil company disobeyed the order of the supreme court and that these-called-constituent-companies were never in competition with the Standard oil company.

Nearly every question put to Mr. Brown by Mr. Monnett was objected to by the Standard attorneys and in nearly every instance Commissioner Brinsmade upheld the objections, so that Mr. Brown's testimony was of little value. Mr. Monnett returned to Columbus in the evening much discouraged.

Oranges Will be Plentiful.

Jacksonville, Fla., Feb. 17.—The most extravagant reports have been sent broadcast throughout the country regarding the damage done by the cold of February 13. Reports received last night by the Times-Union and Citizen from all sections of the orange belt indicate that the cold wave did not do much permanent damage and utterly refuting the statements sent out to the press. Outside the tender spring growth of the orange trees, the trees remain uninjured and in the lower belt it is predicted the orange crop will be larger than ever this season.

Reports from the vegetable districts say that truckers have gone to work with great energy to replant and the spring output of market vegetables will be equal to any season in the past.

Elected Steward.

At the regular monthly meeting of the Columbus state hospital trustees, held at Columbus Thursday, a steward was elected to fill the vacancy caused by the resignation of Steward Urban H. Hester. Colonel Cyril Hawkins, McConneville was selected steward. Colonel Hawkins will take charge of the steward's office about the middle of March.

BLACK EYE

Does the Marietta Dam Receive From the Senate Committee.

Washington, D. C., Feb. 17.—That Marietta dam, which has been the cause of more or less recrimination and some jealousy on the part of the Ohio Congressmen, was knocked out of the Rivers and Harbors bill by the Senate Committee on Commerce, Other radical changes in the bill, not satisfactory to the Ohio delegation, were made by the Senate Committee before reporting the bill back today, and there will be a fight made when the bill comes back to the House carrying these amendments.

Besides striking out the entire appropriation for the Marietta dam, the Senate committee dropped the appropriation of \$250,000 for the improvement of the Big Sandy and the building of a lock and dam at Louisa, Ky., which Colonel Berry worked hard to have included in the bill as it passed the House.

These changes were made in the appropriations for improvement of harbors at Ohio lake towns: Toledo, decreased from \$150,000 to \$100,000 in cash and from \$55,000 to \$30,000 on the continuing contract; Fairport, decreased from \$100,000 to \$75,000; Sandusky, decreased from \$50,000 to \$50,000, and Conneaut decreased from \$100,000 to \$75,000.

This makes a total decrease in the Lake Erie improvements of \$175,000, which, with the loss of the \$350,000 for the Marietta dam, makes an aggregate decrease of the bill of \$925,000 in improvements directly concerning the State of Ohio. In spite of this, however, the Senate committee made a net increase in the sum carried by the bill of \$12,225,000 in round numbers, of which \$2,485,000 is in the cash appropriations and \$9,740,000 in the amounts of the continuing contracts.

When the bill comes up for consideration in the Senate the two Ohio Senators will make a fight to have restored those items affecting Lake Erie and the Ohio river. If they should be unsuccessful the fight will be renewed when the bill goes over to the House, and as Mr. Burton naturally will be a member of any conference committee on the Rivers and Harbors bill, by reason of his position as Chairman of that House committee, there is reason to hope that much, if not all, of the Ohio matter will be restored before the bill becomes a law. Mr. VanVoorhis will make a strong fight for the Marietta dam, and it is probable he will succeed in having that item restored.

A Prominent West Virginian.

Oklahoma City, Okla., Feb. 18.—A. L. Jennings, graduate of the law school of West Virginia University and former prosecuting attorney of Canadian county, Oklahoma, was convicted of train robbery in the Federal Court here on Friday and sentenced to life imprisonment. Jennings was convicted of the robbery of a Rock Island express train at Chickasha, I. T. The train was robbed in mid-way and a trainman was mortally injured by the robbers. The gang, of which Jennings was the leader, has been charged with numerous hold-ups and robberies.

Moved Across the Ice.

Wabash, Ind., Feb. 17.—A remarkable feat in engineering is being performed at Lake Wawasee, where the Lakeview hotel is being moved, two miles across the ice on the lake. The hotel has 30 rooms and was erected at a promising point on the lake. Subsequently the trend of cottage building and resorts was toward another quarter. It was found impracticable to move the hotel along the bank, and the severe cold of last week solved the difficulty. Two feet of ice covered the lake. Immediately the hotel was started on its travels, and though there are now signs of a breakup, the immense building will be off the ice before it comes.

J. N's Successor.

Akron, O., Feb. 17.—An eccentric character, a second "Immortal J. N.," has been making Akron his headquarters for the past week. He styles himself Prof. A. T. Green. For the last 23 years he has been traveling through the country. He carries a pocketful of railroad passes marked "On account of carity." "For good luck." "To get rid of him," etc. Green has a number of letters from educators of prominence stating that although his actions are peculiar, he is a man of learning. He claims to be an astronomer and geologist. By his own statement he has been arrested 44 times, generally on a charge of intoxication. Green says he never touched a drop of liquor in his life nor used tobacco in any form.

Geo. Blake's Store.

The weather, Sunday, February 19th, will probably be fair.

There is a firm in Marietta that has sold the same brand of overalls so long that they actually believe it's the best made, and tell the trade so. Well, now, they would not say anything like that if they would look into the overall business. They would learn that it had got to be a big thing, and would find almost a dozen brands equally as good. One of them is a Union made overall, manufactured by Hamilton, Carhart & Co., Detroit, Michigan, and sold by The Star Clothing House for 75 cents.
