The Marietta Daily Leader
SUNDAY, MARCH 19, 1899.

Eightieth Birthday Anniversary.
Mrs. W. L. Rolston and her immediate relatives enjoyed a most delightful dinner party at the Rolston home Saturday, the occasion being the eightieth anniversary of Mrs. Rolston's birth.

Fifteen persons were gathered about the table whereon was spread a dinner of generous proportions and particular excellence. Beside this delectable entertainment there was a feast for the eye in the profusion of beautiful flowers which were arranged with effective grace.

Tokens of affection were received by the good lady from numerous friends here at home and from a distance. Telegrams conveying sentiments of good wishes were received—one from Bishop Vincent, of Cincinnati.

Mr. and Mrs. Goodrich Barbour, of Cincinnati, Mrs. C. C. Clark and daughter, of Ironton, and Mr. and Mrs. A. B. White were guests present from out of town.

Marietta College to Have a Cambrian Chair.

Philadelphia, March 17.—On Saturday evening, at the Hotel Bellevue, a meeting was held to form a local committee to co-operate with the national committee which is endeavoring to found a Cambrian chair of Welsh history, language and literature at Marietta College, Ohio.

Similar committees have been organized in Ohio, Massachusetts and Maryland. Besides the Philadelphia committee, it is proposed to form others in Scranton, Wilkesbarre and Pittsburg, and also a Pennsylvania State committee. The college has subscribed \$10,000 and given an instructor for the object, and \$40,000 more is needed. Of this \$40,000 all but \$18,000 has been subscribed. Brander Matthews, William Dean Howells, Professor John Fluke, Dr. William T. Harris, United States Commissioner of Education, and Professor John Rhyss, of Oxford University, England, have endorsed the movement.

Will Carleton.

The last number in the course of well-selected attractions given by the High School was the lecture by Will Carleton, the poet, and the last was a fit finish for the course.

A distinguished gentleman spoke on the subject "The Drama of Human Nature," and he passed upon a number of phases of his subject in a unique and characteristic manner. Many he illustrated and fixed upon the mind more thoroughly by reciting a poem to fit the case, each time bringing into forcible prominence a moral that would do to head.

Mr. Carleton is vivacity itself, and he made two hours fly by on swift wings. He could have spoken twice as long and still found the chairs full of people loath to give up their places.

River Notes.

same as our last report, but it is expected to rise today, although slightly.

The B. D. Wood passed up at 1 p. m. Saturday with a tow of empties.

The Keystone State did not get up until after six o'clock owing to the heavy business.

Today the Lorena will be down for Zanesville at 2 p. m., and the Queen City for Cincinnati at 4 p. m.

It is now thought that the City of Pittsburg will be able to get away today.

In Mayor's Court.

William Moore was fined \$5 and cost Saturday morning for being drunk and disorderly.

Officers Barrows and Kerns found a man on Second street Saturday afternoon who was so drunk he did not know his own name. He is lodging with Keeper Coffman at the city building until he regains his knowledge and equilibrium and then perhaps he will tell the Mayor how it happened. The same officers also arrested another drunken man Saturday.

Bought Her Supplies Here.

The owners of the large and handsome new steamer, City of Pittsburg, did not go away from this place to buy her supplies for the culinary department. The entire outfit was purchased from the Marietta Grocery Co. The goods amounted to considerably over a hundred dollars and were in keeping with the general character of the boat which is first class in every particular.

Report of Village Improvement Association.

The Village Improvement Association completed its work for the year 1898 on Thanksgiving Day. The street cleaning department then made its report for the season, having expended \$309.00. The membership fees of fifty cents provided a fund of \$70, which was spent on our parks and public grounds.

During six weeks of the summer the society was granted the privilege by the Park Commissioners of taking entire charge of Muskingum Park. Attention was also given to the lower park on Saera Via, which was ploughed, harrowed, raked and seeded. Mr. Benjamin Pixley generously supplemented this work by furnishing and setting out a large number of trees.

The Committee on Mound Cemetery worked late into the fall, securing permits from lot holders to level the graves or to reduce them to a uniform height of five inches. This work will soon be recommenced and can not be completed for some time, as the large number of people who must be interviewed renders the task unusually tedious.

Thus far the committee has received the hearty support of the great majority of lot owners. The committee on Sanitation strove to arouse public opinion with regard to prevalent nuisances. The Press Committee endeavored to explain to the public the aims and methods of this new organization, finding the city papers all ways willing to give generous space to their contributions.

With the first touch of spring weather the society has begun to muner its forces for the coming season. The Committee on Street Cleaning hopes to pursue its work in the same manner as it did last year. The residence streets are asking if the society can not extend its work all over the paved portion of the city instead of limiting its efforts to the business streets. If, upon careful investigation, it is found that this desire is felt by householders generally, and if some satisfactory method for accomplishing the task can be evolved, a committee will promptly be chosen to carry out the plan. The result of this investigation will be published later. The Committee on Parks and Public Squares will endeavor to assist the Park Commissioner in the beautifying of public places. It is hoped that the townspeople will warmly second the desire of this committee to improve the appearance of the plot of land at the foot of Washington street and at the foot of Saera Via. The Committee on Ways and Means will soon begin to solicit membership fees, which was the case last year, and to be expended upon the Parks, Mound Cemetery and other public grounds. The treasury now holds \$10.90. It is hoped that the membership will be greatly enlarged, not only to increase our funds, but also to testify to the sympathy of the people with the work.

The monthly public meetings of the V. L. A. were held in the rooms of the Marietta Club, and will be continued there this year. The ladies appreciate deeply this kindness on the part of the club members.

The following well known ladies have been appointed to serve on the various committees of the V. L. A.:

THE STAR CLOTHING HOUSE.

The story is told of a young married woman, who asked another young married woman how she managed to get along so amicably with her husband. The answer was, "I feed the brute—his stomach with food and his mind with flattery." Even a man will have to admit that this young woman had solved about two-thirds of the art of making the average man happy. The other third consists of keeping his body in such condition that he will enjoy his food and his mind in such condition that he will be susceptible of flattery. It isn't much use to put tempting food before a man who hasn't an appetite. It doesn't pay to lavish smiles on a man whose nerves are racked and overworked.

The average man pays very little attention to his health, and won't take medicine of his own accord until he is flat on his back. A shrewd wife will keep an eye on her husband's welfare in this respect, and when she sees that he is bilious or suffering from indigestion, or is generally out of sorts, will see that he resorts to that wonderful of all investigators, Dr. Pierce's Golden Medical Discovery. It is the best of all appetite-sharpeners, blood-makers and flesh-builders. It corrects all disorders of the digestion and makes the liver active and the blood pure. It tones the nerves and cures all cases of nervous exhaustion and prostration. It cures 98 per cent of all cases of consumption, bronchitis, throat and kindred ailments. Medicine dealers sell it.

Mrs. Rebecca P. Gardner, of Grafton, York Co., Va., writes: "I was so sick with dyspepsia that I could not eat anything for over four months. I thought I was going to die. I weighed only 30 pounds. I took two bottles of the 'Golden Medical Discovery.' I am now as well as ever and weigh 125 pounds."
