### GOVERNMENT FINANCES.

Receipts for April Below Those for March and the Expenditures Were Greater.—The Reasons for It.

NEW YORK, May 2.—The treasury receipts for April fell \$15,400,000 below those for March, while the expenditures were \$22,800,000 more than those for the month previous.

This great difference does not indicate, however, either a large falling off in the ordinary receipts or a large increase in the ordinary expenditures. The receipts for March were increased by the payment to the government of nearly \$12,000,000 on account of the Pacific railway settlement, while the expenditures for April were increased by the drawing of the warrants for the payment of \$20,000,000 to Spain.

Leaving out of account these two items, the receipts for March were only about \$3,000,000 larger than those for April and the expenditures for the latter month were less than \$9,000,000 greater than those for March, notwithstanding that the interest payments for April were \$5,300,000, against only \$4,200,000 for March.

## THE IDAHO RIOTS.

One Thousand Strikers Seize a Train at Burke and Go to Wardner.

### CARRIED 3,000 POUNDS GIANT POWDER.

Through a Mistake the Miners Opened Fire on Their Own Pickets and One Was Killed.

Soldiers of the Department of California Out—They Are Under Command of Gen. Merriam—A Columbus, O., Company With Them.

WARDNER, Ida., May 2.—A mob of about 1,000 rioting miners on a strike seized a train at Burke, at the head of Canyon creek, and came here, bringing with them 3,000 pounds of giant powder.

One hundred and forty masked members of the mob made an attack with Winchester on the buildings of the Bunker Hill and Sullivan mill mines.

Pickets had been sent on ahead and a signal shot from one of them was mistaken for a hostile demonstration. Straightway the strikers opened fire on their own pickets. Jack Smith, one of the pickets, was killed. Jim Payne was fatally injured. Payne was a Bunker Hill and Sullivan mill man and was carried off by the strikers. J. J. Rogers, a stenographer, was shot through the hip. The giant powder was divided into five blasts, by the last of which the Sullivan mill was destroyed.

After three hours of rioting the mob boarded the train and steamed away. The non-union employes have taken to the hills. The cause of the strike was the demand of the union miners for more wages and for the discharge of all non-union men. The first request was granted by the mine owners, but the second was refused.

SPokane, Wash., May 2.—General Manager Burbridge, of the Wardner mines, accompanied by his family and Superintendent Burch, arrived here from Wardner Sunday night. They were compelled to walk over the hills to Wallace to escape the mob. They were in a pitiable condition when they reached Spokane. Every post commander in the department of California has received orders to hold troops in readiness to start for Wardner at a moment's notice. The railroads have been notified to have special trains ready. No actual orders to go have yet been received.

CHICAGO, May 2.—All the troops in the department of the lakes have been ordered to Wardner, Ida., the scene of the miners' troubles, according to Gen. S. M. B. Young, now in Chicago. There are but seven companies, comprising about 500 men, in the department at present, two troops of cavalry and a battery of artillery at Ft. Sheridan, and the remaining companies divided between Columbus barracks, O.; Ft. Wayne, Detroit and Ft. Brady, Northern Michigan. Gen. Merriam has been ordered to take command.

DENVER, Col., May 2.—Gen. Merriam and his aide-de-camp, Lieut. J. L. Bennett, have left for Wardner to investigate the miners' riot.

### OPPRESSION OF AMERICANS.

The Situation at Bluefields, Nicaragua, is Very Unpleasant for Americans.

WASHINGTON, May 2.—Advice received here from Bluefields, Nicaragua, indicate that the situation there, so far as American interests are concerned, is extremely unsatisfactory and discouraging. It is being impressed upon the officials here that persons high in the Nicaraguan government are pursuing a policy calculated very deliberately to crush the American business interests now of considerable magnitude in the Mosquito country.

The reports are to the effect that ever since the Clarence rebellion, some years ago, the Nicaraguan government has been jealous of the growing importance of the American settlements, and the Reyes rebellion recently seems to have confirmed it in the determination to destroy the American influence in that section. The Nicaraguans hold the American merchants responsible for Reyes' rebellion. They have determined, according to the reports received, to impose upon these American merchants the entire expense to which the government was put in repressing the rebellion, amounting to about \$600,000. This could not be done directly without a breach of international law, hence the attempt was made to collect a large part of it through a demand upon the merchants for a second payment upon imports paid to the de facto government of Bluefields while Reyes was in possession of the place. The report shows that this government of Reyes was actually de facto in the full sense of the term.

In proof of this it is shown that Estrada, the Nicaraguan governor of the place, sought and was given refuge in the United States consular agency. Also the dues collected on imports were collected for Reyes by the same treasurer, who held the same place for the past three years. The American interests in Bluefield alone now aggregate fully \$2,000,000 in gold, and the state department is determined that they be protected against the proposed extortion, so that interesting news is expected at any moment, in view of the United States man-of-war there, the Detroit, to execute the orders of the department.

### HIS VALUABLE FIND.

Councilman McAllister's White Dining With Capt. Coghlan Brought into a Claim and Found a Pearl Worth \$5,000.

PHILADELPHIA, May 2.—A beautiful pearl, the value estimated at \$5,000, has come into the possession of Councilman K. B. C. McAllister, of the First ward, chairman of the Dewey day celebration. While the officers of the Raleigh were being dined at the Hotel Walton, McAllister presided at the board. As he lit heavily upon a clam he was greatly surprised to find something hard, like a stone in his mouth.

He took from his mouth a hard, shining substance, the luster of which aroused the curiosity of the diners. Councilman Lang, an expert on precious stones, at once pronounced it a pearl of great value. Capt. Coghlan christened it the "Raleigh," and Mr. McAllister has decided that this will be its name.

Experts have estimated the value of the stone at \$5,000, and all agree that it is one of the most brilliant pearls ever seen in this country.
