OBERLY CASE

May Be Postponed Owing to Illness of Luther Clesler.

The trial of J. C. Oberly is set for Monday afternoon at 1 o'clock, but it may have to be postponed. Mr. Luther Clesler, one of the principal witnesses for the prosecution, was taken seriously ill yesterday and is probably in for a seige of typhoid fever. If he is too ill to appear in Court it is possible, says Prosecuting Attorney Brennan, that the trial of the case may have to be postponed, as the State does not like to proceed without him.

The Finley Inspected.

The towboat J. B. Finley was inspected Saturday by Inspectors Clark and Thomas, of the port of Wheeling, who came here for that purpose. They carefully examined the boat in all her parts and were well pleased with the work. The boilers were given a test under pressure of 182 pounds of steam and were highly satisfactory. The inspectors returned to Wheeling in the evening.

The Finley is about completed, the work all being done with the exception of the finishing touches that will add to her appearance and put her in shipshape. She will be ready to leave the landing in about a week and if there is sufficient water above will go at once to Pittsburg to take a tow to New Orleans. When completed she will be the most powerful towboat on the river. Her engines were built by the Marietta Manufacturing Co.

One on Parkersburg.

The Sistersville Review is responsible for the following cruel thrust at our wide open city: "A little four-year-old girl of this city, whose parents are about to move to Parkersburg, made a startling addition to her evening prayer a few days ago. She had repeated the usual words of her simple supplication, and started to rise from her kneeling posture, when something forgotten recurred to her mind. Kneeling once more she supplemented her prayer with these words: "Good-bye, God, we are going to Parkersburg." There was unconscious wisdom in the words."

State Secretary Y. W. C. A.

Miss Helen F. Barnes, State Secretary of the Young Women's Christian Associations of Ohio and Michigan, is in the city and will deliver an address at the First Presbyterian church at 3 o'clock this afternoon. Miss Barnes is an entertaining speaker and all those who are interested in the work are invited to attend the meeting this afternoon. During her stay in this city, Miss Barnes is the guest of Mr. and Mrs. S. J. Hathaway and daughter, Third street.

Resigned.

Mr. Charles F. Holst, who for the past twelve years has been connected with the B. & O. S. W. offices in this city, has tendered his resignation to Mr. Brown to take effect last evening. Mr. Holst resigns owing to his health. He will enjoy a few weeks' rest after which he intends to engage in business which is less confining.

Lawn Fete.

A lawn fete was held last evening at Beverly Place, the residence of Mr. T. W. Harvey, under the auspices of the College Y. M. C. A. and Y. W. C. A. Members of the Board of Trustees and faculty and a large number of students were present and a very enjoyable time was had by all. Supper was served at six.

New Baseball Suits.

The baseball suits for the Marietta team have arrived. They consist of black pants and shirts with the word "Marietta" in white letters across the breast. The stockings, belts and visors of the caps are bright red. The uniforms are very attractive in appearance.

Masonic Temple Plans.

Several plans have been submitted for the proposed Masonic Temple. They will be examined and a choice made Monday afternoon. Several very fine sets of plans have been prepared by home architects.

DISCHARGED.

Evidence Insufficient to Hold C. E. Starr on Charge of Arson.

Mayor Sykes announced his decision Saturday in the case against C. E. Starr, who was charged with arson and whose hearing was held in Mayor's Court Thursday. The Mayor stated that he did not consider that there was any evidence against Starr outside of the story told by Stevens and that was not sufficient to hold Starr on a charge of this nature. He therefore ordered that the prisoner be released.

The May Frosts.

The frosts which attacked the gardens and orchards of the country night before last may not seem to the urban dweller more than a passing chill. But when he reflects that they may affect the supply and cost of his fruits and early vegetables he can see that in the final result they visit whatever infliction they entail on him as well as on the horticulturists, who are now examining their gardens and orchards to ascertain the extent of the damage.

Frost in the first week of May is not an exceptional occurrence. But this visitation is rendered unusual by the fact that the rush of warm spring weather in the preceding ten days had urged forward many of the staples of orchard and garden to the point where the chance of great injury is imminent. The peach trees, which had for days been masses of color, had just begun to shed their petals. The cherry trees had fully developed their white blossoms. Eearly asparagus, and some other vegetables, brought forward to supply the market at the earliest date possible, were exposed.

Under these circumstances it is hardly possible that a fall of the temperature to between 30 and 40 could fail to inflict widespread damage. How universal the injury is cannot yet be told with certainty. Gardens on the hills suffered less than those in the valleys. The clouds and rain of Friday were mitigating features. It will be remarkable if it does not turn out that the peaches of this section are widely destroyed, cherries considerably damaged, apples in the lowlands nipped, except the late sorts, and early vegetables much injured.—Pittsburg Dispatch.

Broke His Back.

Sam Walden, a prominent citizen of Coolville, O., and one of the best known produce dealers and real estate men in Eastern Ohio, met death in a sudden and painful manner yesterday morning near his home. Mr. Walden was engaged in helping construct a telephone line from Coolville to Little Hocking, which was put through by himself and other business men of the vicinity for their own use. While occupied in this work, the unfortunate man climbed a telephone pole to the cross piece. In some way he lost his footing and fell. The fall broke his back. After lingering a few minutes in mortal agony, he succumbed to the terrible injury. The dead man leaves a wife and four children.—Parkersburg News.

WHAT DO THE CHILDREN DRINK?

Don't give them tea or coffee. Have you tried the new food drink called GRAIN-O? It is delicious and nourishing and takes the place of coffee. The more Grain-O you give the children the more health you distribute through their systems. Grain-O is made of pure grains, and when properly prepared tastes like the choice grades of coffee but costs about 1/2 as much. All grocers sell it. 15c and 35c

THE CROWN OF LOVE.

What does love mean and how much happiness does it bring to the average woman? To be a sweet-heart, a wife, a mother—this is called the crown of womanhood; yet there are crowns which bring only misery and pain to the wearers.

Can any woman who suffers with constant dragging, wearying, life-sapping ailments be happy? Does not her crown of womanhood become a symbol of martyrdom rather than of happiness? If ailing women realized how surely Dr. Pierce's wonderful "Favorite Prescription" would restore them to complete health and the perfection of queenliness, there would be more coronets of joy set upon brows now crowned with misery.

"I had female trouble for eight years," writes Mrs. L. J. Dennis, of 525 East College St., Jacksonville, Ill. "For three years I suffered continually. Words cannot express what I suffered. I sought relief among the medical profession and found none, until induced by kind friends to try Dr. Pierce's Favorite Prescription. When I commenced taking this medicine I weighed ninety-five pounds. After taking 'Favorite Prescription' I was within a week one hundred and fifty-six pounds—more than I ever weighed before."

"I was so bad I would lie from day to day and long for death to come and relieve my suffering. I had internal inflammation, a disagreeable drain, bearing-down pains in the lower part of my bowels, and such distress every month, but now I never have a pain—do all my own work and am a strong and healthy woman. Thanks to your medicine, I never forget to recommend it to all suffering women. I consider myself a living testimonial of the benefits of your 'Favorite Prescription.'"

Any woman may write to Dr. R. V. Pierce, of Buffalo, N. Y., with the utmost confidence. He will give her case careful consideration and send her a letter of common-sense, professional advice free of charge.

If your head aches, the trouble is pretty sure to be constipation. Dr. Pierce's Pleasant Pellets will cure you.

The Stirk Family.—Proud Aristocrats in the Realms of the Arena.

The famous Stirk family, one of the great features of The Wallace Shows, does work that borders on the marvelous. In truth some of their attainments are of such complex difficulties that it frequently passes with but little more notice from the public than their simpler displays solely because the audience can follow its intricate and perplexing paradox.

It not infrequently happens that when a particularly hazardous feat is accomplished the strongest and most pronounced applause will come from the entry wherein the other actors of the show may invariably be found ranged as spectators when "the Stirks are on."

The tribute to their genius from their fellow performers is as unusual as it is spontaneous, and testifies to their superiority more eloquently than any eulogy possibly could.

When an act can hold the attention of actors as that of the Stirks does, it may indeed be said to be truly great. At Marietta on Wednesday, May 9.

LOOK TO YOUR EYES.

"Life Without Light is Death." "O, LOSS OF SIGHT! OF THREE I MOST COMPLAIN."

With these words the great poet, Milton, lamented his dreadful condition when blindness had befallen him. Truly, sight is the most inestimable of all blessings; blindness, the most woeful of all afflictions. This being true then why neglect your eyes, the most important organ of the human system? Why suffer from continual headaches, eye strain, pain in the eyeballs, temples, and back of the head? A large per cent. of headache, nervousness, etc., is caused by defective eyes. These and all troubles caused by errors of refraction, we guarantee to remove by our special ground lenses. BUYING EYES isn't an easy matter. The best oculists and opticians are not magicians, they can't restore sight to the blind. DON'T WAIT TO CONSULT until you can't see well—it's the little things that count—a little headache, a few spots, burning sensations; these are the warnings that are to be heeded. It is better to be too early than too late. CAREFUL EXAMINATION of the eyes is FREE and PAINLESS. Optical science up to date is practiced by us aided by the most improved instruments for detecting errors of eyesight. Remember our special price of ONE DOLLAR for a short time only.
